

INDIANA, OHIO DUROC BREEDERS WILL HOLD SESSION HERE JAN. 21

An all-day meeting of Duroc Jersey swine breeders and pig club members of Wayne, Rush, Union and Randolph counties, Indiana, and of Preble and Darke counties, Ohio, with showing of moving pictures and addresses by Robert Evans, national secretary and C. C. Terrell, Ohio state secretary of the associations, has been planned by the Wayne county association for Saturday, Jan. 21.

The meeting will be held in Richmond and will start late in the forenoon, probably about 10 o'clock, and with a noon recess for dinner, will continue in the afternoon with an early adjournment so that those who attend from a distance may be able to get home early.

Tentative proposals for such a meeting were made some time ago to those interested in all the counties named, and met with hearty approval and promises of co-operation. It is expected with this meeting, to get an early start for club work of next year, and attempts will be made to secure the attendance of all boys and girls interested in clubs last year or likely to enter during the coming year. The program will be arranged especially with a view to interesting the younger members of the audience.

Expecting Delegations.

The meeting is expected to bring in an attendance drawn from as far as Greenville and Camden, Ohio, and from Rushville, Connersville, Liberty and Winchester. Charles Trowbridge of Mays, is another well-known breeder who has promised to attend if possible.

The date for the meeting was set and preliminary arrangements completed at the Indianapolis meeting Wednesday, after consultation with Bruce Pullen and other breeders of Union county, Trowbridge of Rush county and Brown and Lorton of Randolph county.

M'CRAY ADVOCATES BIG CATTLE FARM

INDIANAPOLIS, Jan. 5.—Governor McCray announced yesterday he would advocate the establishment of a 1,000-acre cattle farm, probably in the hill country in the southern part of the state, on which "feeder calves could be raised for sale to farmers of the state to be fattened for the market. The announcement followed a meeting in the governor's office, which was attended by members of the advisory committee of the Purdue university agricultural experiment station.

The governor also recommended the establishment of demonstration farms throughout the state to be conducted by agricultural experts from Purdue university where the farmer could receive instruction in stock raising, poultry farming and scientific agriculture.

Measures Would Aid Farmer. Both measures were advocated as a means of aiding the farmers, many of whom have been wrecked financially by the decrease in the market value of crops, to re-establish themselves on a sound financial footing.

The plan does not provide for the expenditure of state funds. Several counties are said to have indicated that they would supply the demonstration farms if the university could guarantee that instructors would be sent to aid them.

PURCHASE 70 STEERS FOR STUDENTS' STUDY

LAFAYETTE, Ind., Jan. 5.—Seventy head of two-year-old steers have been purchased by Purdue university agricultural experiment station for the annual winter cattle feeding experimental work to be conducted by the university students. At the annual winter meeting of the Indiana Cattle Feeders' association to be held at the university Saturday, Jan. 7, Hoosier beef producers will inspect the steers and investigate their feeding and handling.

A. L. Ames of Buckingham, Iowa, will be the principal speaker at the association meeting. Bennett Taylor of Lafayette, president, will deliver a short address.

Wayne Breeders to Discuss Purchase of Jackson Park

Purchase of Jackson park by the Wayne County Breeders' association will be considered at a meeting called for Friday night at Centerville. Notices of the meeting were sent out Wednesday night by Wood Ellison, president of the association.

ONLY \$59 AN ACRE BID ON OHIO FARM; SALE IS WITHDRAWN

NEW MADISON, Ohio, Jan. 5.—The reluctance of those who are farming to extend their operations, or of others to engage in farming at this time, was said to be the cause for an offer of only \$59 an acre for the farm of Umphrey Stump at his sale Wednesday, Jan. 4, two and one-half miles southwest of New Madison. Only two bidders made offers for the farm, which was withdrawn from sale. The large crowd present included spectators who had come to see how the land sold rather than to bid on it themselves.

It was predicted that with reviving prosperity a much better price could easily be realized later, many setting the value of the land at over \$100 an acre.

Feed offered at the sale brought more than market prices, local feeders bidding up well on it. Corn was sold to William Denlinger at 50 cents, 550 of the 600 bushels going for this price. The New Madison elevator is offering 38½ cents a bushel for corn. Hay sold at \$8.75 a ton, 12 tons of corn fodder at \$5 a ton, and oats straw at \$4.50 a ton. Rufus Miller was a large buyer of roughage.

Bring Good Prices In the machinery a wheat drill in good condition, whose sale price new is \$160, sold to Russell Rhoades for \$91, and a corn binder, also in good condition, brought \$50 from Ed Beck.

A team of grays, seven-year-olds, weighing about 1,600 a piece, brought \$21, going to L. E. Armbrast. Another horse of the same age and weight sold for \$106.

High price for the cattle was \$50, paid by Ora Oler for a pure bred Jersey cow.

In the hogs, the top price was \$30, paid by Charles Brown for a Duroc Jersey sow, bred for March farrow. Brown was a good bidder on the hogs, taking away four. The lowest price for the sows was \$18. There were 13, all bred for March farrow.

Other offerings were withdrawn, due to the failure of the land to sell also.

CALLS FARM CONCLAVE

(By Associated Press) WASHINGTON, Jan. 5.—The national agricultural conference to consider means of relieving distress among the farmers, was called by Secretary Wallace to meet in Washington, Jan. 23.

EAT HEARTILY WITHOUT DREAD

Eat Anything You Like and Don't Worry—Stuart's Dyspepsia Tablets Relieve Sour Stomach, Bloating, Gas and Acid Conditions Due to Indigestion

Simply Chew a Stuart's Dyspepsia Tablet After Meals—They Taste Good No matter what you eat or drink, even though it be just a glass of sweet milk, the stomach may rebel and sour almost immediately. In such cases one or two Stuart's Dyspepsia Tablets furnish the alkaline effect to offset the acid condition. Quite often the stomach may be overcrowded with partially digested food.

A cold bottle of beverage at such times may add to the difficulty and there is gasiness, a bilious taste, and other distresses due to indigestion. Travelers may save themselves much of the discomfort of wayside eating by having a box of Stuart's Dyspepsia Tablets with them as they can be had in almost any drug store throughout the country.—Advertisement

BREEDERS OF SWINE CONSIDER EXTENSION

Swine breeders of Wayne and neighboring counties who have been attending the two days of swine breeders' meeting in Indianapolis Tuesday and Wednesday, returned Wednesday evening with information and plans derived from the speakers, for enlarging the activities of their organizations during the next year. One result of the state gathering is the plan of local breeders, mentioned in another column, for an inter-county meeting of Duroc Jersey breeders and club members.

The meeting was attended by Bruce Pullen and Roy Pearson of Union county, Harry Caldwell and L. C. Palmer of Wayne county, Lorton and Brown, of Union City, Randolph county, and Willard Robinson of Fayette county.

PERCHERON BREEDERS ORGANIZE SATURDAY

Percheron horse breeders of Wayne county have been notified by C. L. Gifford of Fountain City of a meeting to be held in the courthouse Saturday, Jan. 7, at 12:30 o'clock to discuss a show or sale to be held in the spring. At this time also, the constitution and by-laws drawn up at the last meeting of the Percheron men, will be submitted for adoption in order that organization of the horse breeders of the county may be completed.

JERSEY COW SETS RECORD BROOKVILLE, Ind., Jan. 5.—By producing 11,466 pounds of milk, 511 pounds of butter fat, Bright Rosebud becomes the junior 3-year-old champion of Indiana. Her test was begun at the age of 3 years and 2 months. She qualified for Class AA by carrying a living calf 220 days during her test. W. H. Senour of Brookville tested as well as owns this exceptional Jersey cow.

MCCRAY VISITS STOCK FARMS INDIANA STATE CAPITOL, Jan. 5.—Governor McCray and United States Senator Kenyon have been visiting the Governor's stock farm at Kentland this week. Senator Kenyon has purchased some of the fine cattle from the McCray farms.

Fine for Lumbago

Musterole drives pain away and brings in its place delicious, soothing comfort. Just rub it in gently.

It is a clean, white ointment, made with oil of mustard. It will not blister like the old-fashioned mustard plaster. Get Musterole today at your drug store, 35c and 65c in jars and tubes; hospital size, \$3.00.

Poultry Men Elect Albert Rupe Head

WINCHESTER, Ind., Jan. 5.—Decision to continue the boys and girls' poultry contest, and election of officers for the coming year, were the two important matters of business at the annual meeting of the Randolph County Poultry and Pet Stock association, held Tuesday evening, Jan. 3, following the poultry show which closed Jan. 1.

Officers elected were: Albert Rupe, president; H. H. Brown, vice president; Luther Hinshaw, secretary-treasurer; John Conyers and Clyde Studebaker, superintendents; Milton Rinard, A. O. Frazier and Herbert Pegg, directors.

Boys and girls between the ages of eight and 16 years may enter the poultry contest by notifying the secretary, Luther Hinshaw, before the date for closing entries, March 15.

FARM MEETINGS JAN. 10

(By Associated Press) NORWALK, Ohio, Jan. 5.—The district meeting of the farm bureaus of Cuyahoga, Lucas, Erie and Huron counties will be held here Jan. 10.

Queen Mary is the first queen of England, indeed, the first woman, to receive the degree of doctor of civil law from Oxford university.

Everyday Ad-Ventures

That Changes Everything—

When you're on the verge of a shopping expedition to get some household goods that are greatly needed in your home—some small rugs, a pair of quilts, a lamp shade and some smaller domestic accessories—

And you want to take a trip around to all the stores to find out where you can get most nearly what you want at the prices you can best afford to pay—but you put it off and put it off—

Because you think you'll ask Mrs. White just where she bought those attractive rugs in her hall and Mrs. Stevenson at what store she found that cute little lamp shade in her living-room—but you don't happen to see them—

And so your shopping goes unattended—to until you notice the Household Goods ads in the Merchandise columns of the Palladium's classified section—

And That Changes Everything! Because you get more "inside information" on where to get the finest household furnishings at the least expense from those little ads than all your friends could give you—and the next day you indulge in the shortest, snappiest and most successful shopping tour on your record!

WATER COWS OFTEN IN WINTER

During the winter, when cows are stabled the greater part of the time, they should be watered two or three times a day unless arrangements have been made to keep water before them at all times. The water should if possible be 15 or 20 degrees above freezing, and should be supplied at practically the same temperature every day. When water well above freezing temperature is stored in tanks and piped directly to the cow, there is little occasion to warm it. When it stands in a tank on which ice often forms, it usually pays to warm it slightly. This can be done by a tank heater, by live steam, or by hot water from a boiler. If a boiler is used for running a separator or for heating water to wash and sterilize utensils, steam from it can readily and cheaply be used to warm the drinking water.

ONE CHINCH BUG NOW MEANS 150 NEXT SPRING

A chinch bug burned now in the nest means 150 little chinch bugs that won't hatch next spring, says entomologists of the Ohio State University, recommending that farmers who experienced the pest last year burn out their cornfield hedgerows, and as much as possible of other crop residue.

They add that burning need not be done except on farms where the bug was last season. In such cases, a little work now saves a lot of work, and chance of heavy losses, next summer.

NOTICE We receive daily at 10:30 a. m. the Indianapolis hog market. Anyone wishing this information may have same by calling Phone 1679.

TIMELY HINTS

Ohio stands third in the national scrub-free farm enrollment contest, with 706 farms certified.

Says Sam: It's a question which kills most people—germs or grouchies.

A good sire is the beginning of a good herd; a bad one is the end of any herd.

Small hens, such as Leghorns, can get along with 3 feet of floor space, but most poultry houses should be built to allow 4 square feet of floor space for each bird.

An Arabian proverb puts it this way: "He who has health has hope, and he who has hope has everything."

"Civilization, culture, and development of rural people are to be found in conjunction with town and small city, and not apart"—Galpin.

Probably poultry were first domesticated in Burnah. They did not get to China until 1100 B. C.—H. G. Wells' Outline of History.

Toothbrushes save wear and tear on dentists' forepicks.

"Thou shalt not see thy brother's ox or his sheep go astray and hide thyself from them; thou shalt surely bring them again unto thy brother."—Deuteronomy, XXII, 1.

ROOSTS 14 INCHES APART Roosts in the poultry house should be 14 inches apart. Allow eight inches of roosting space for each bird.

HOW MANY SHEEP TO A FARM?

For 160-acre farms of all-arable land a plan of live stock production has been recommended by the United States Department of Agriculture which includes 80 ewes (1 ewe to 2 acres) along with 22 breeding cows and 12 brood sows. Arable land of the best class, when used exclusively for sheep, can be made to support from 5 to 8 ewes (with their lambs until marketed) per acre. On pastures suitable for either cattle or sheep five ewes may be considered the equivalent of one cow or steer, and the winter feed required for one breeding cow not in milk would be equivalent to that needed for about 8 ewes.
