

ROAD, TAX INQUIRY WILL BE TAKEN UP BY PREBLE FARMERS

EATON, Ohio, Jan. 9.—Support of the newly formed county egg shipping association, and its incorporation as an integral part of the county farm bureau, with expense for its start to be paid by the bureau, and a decision to request a meeting with the county authorities in order to get an understanding as to the probable taxes and their expenditure next year, together with an inquiry as to road building in the county, were the two most important matters considered at the regular meeting of directors of the Preble county farm bureau in Eaton Saturday.

Other matters accomplished by the board included a recommendation that every township send a representative to state farmers' week at Columbus, when several farm bureau speakers and marketing authorities will be heard, a decision to hold a county meeting within a month, and to conduct a campaign for memberships in the Miami Valley Milk Producers company, a cooperative milk marketing company. Explanation of the reasons for the telephone fight in Eaton and surrounding country was given also by Jess Sherer after permission for his appearance had been granted by the board.

Explain Organization
Avon Zellers of Lewisburg, with Paul McPherson of New Paris, were present to explain the organization of the egg shippers, and its proposed status as a branch of the farm bureau. E. D. Truner, Avon Zellers and Hugh Mitchell were appointed as a committee to investigate and to recommend action for the next meeting.

The question of organization of the milk producers in Preble county was referred to E. M. Brown of Gratis for action, with instructions to invite the state organizer to the county and accompany him on visits to the various townships, expenses to be borne by the farm bureau. Operation of the Miami Valley producers' association waits only upon organization of Preble county now, it was stated.

ENGINEERS' SOCIETY HONORS DELL DAVIS

City Engineer D. B. Davis, has been appointed chairman of one of the most important committees of the American Society for Municipal Improvements—that on broken stone and gravel roads. In making this appointment this society, which includes the leading engineers and other municipal officials of the United States and of Canada, recognizes the work which Mr. Davis has done in investigating this subject and his ability as an engineer.

The American Society of Municipal Improvements is a national organization whose members are found in the city halls of the larger cities, and most of the smaller ones, also, of all the states of the union and is the only national society that focuses its attention on municipal public works. Appointments to office in this society are recognized as the highest honors that can be conferred upon municipal officials.

**BODIES OF TWO OTHER
MISSING BOYS FOUND**
EVANSVILLE, Ind., Jan. 9.—The bodies of Leo Winger, 18 years old, and Thomas B. Fruchte, 15 years old, who with Clyde Crow, 18 years old, were drowned in the back water of the Ohio river a short distance above this city a week ago Saturday, were found Sunday near the spot where the body of Crow was discovered Saturday. The bodies were found by farmers who had been searching over the ground, recently submerged on horseback.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody Will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair all disappears, and after another application or two, it becomes beautifully dark and glossy.

HER MARRIAGE A TRAGIC FAILURE, COUNTESS REFUSES TO SEEK DIVORCE

The Countess of Wilton.

The Countess of Wilton, one of the most popular sportswomen in Great Britain, declares she will not seek a divorce from the Earl of

If You Could Fly Across the Isthmus

You would see the Panama Canal laid out below you.

In this way you would gather a better idea of its construction than is possible from seeing it close by.

You would see the coarse great ships take through the monster artificial lake formed by damming the Chagres. You would see how it is that the Pacific end of the Canal is actually to the eastward of the Atlantic end.

All of these things can be seen on a map showing a bird's eye view of the Isthmus and the Canal. This map, which is offered to our readers entirely free, is printed in color by the National Geographic Society. To secure one simply fill out and mail the attached coupon, enclosing two cents in stamps for return postage. Be sure your name and address can be read easily.

(Do not send the coupon to The Panama Canal. Mail it direct to Washington, D. C.)

Frederic J. Haskin, Director,

TRY THIS—REDUCE

People who don't grow too fat are the fortunate ones. But if you find the fat accumulating, and almost cumbersome, you will be wise to follow this suggestion, which is endorsed by your druggist for "Mucilage" Tablets and follow directions. One dollar is the price the world over. Get your own druggist or send price direct to Marshall Co., 401 Woodward Ave., Detroit, Mich. By doing this you will be safe from harmful and able to reduce steadily and easily, without starvation diet or tiresome exercise.—Advertisement.

Feed speak a language all their own—soak yours in Blue Devil and listen.—Advertisement

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has a colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You may say "California" or you may get an imitation fig syrup.
