## RECEIVE BIDS AN CEMENT.

INDIANAPOLIS, Jan. 25.—The state highway commission yesterday received bids on approximately 200,000 barrels of cement to be used in paving the unimproved gaps in the National road. ## FEB. 1 LAST CHANCE TO GET AUTO PLATES

Automobile owners of the city are reminded that Feb. 1 is the last day that owners will be allowed to use their old license plates, and they are urged to get the new ones immediately. These plates can be obtained at the offices of the National Financing company at 12 North Tenth street. People are again reminded to bring their certificate of title when applying for license.

Many people are waiting until the last day in which to get their plates and many will find themselves disappointed as there are now more people in the city of Richmond who have not obtained their plates, than can be issued in one day. There are plenty of plates here and the office can supply many more people according to the local office.

Enough Plates Here. "Plenty of license plates can be obtained at the local headquarters, and there is no need for people in this section of the state sending away for plates," stated Mr. Campbell, of the company Wednesday.

Any person who has made application for a certificate of title, and has not yet received it, can make a duplicate application and if they can show proof that they have previously made such application, will be issued their plates, he said.

## THE HONEY BEE'S BURDEN

The honey bee (on its trips from the field to the hive, carries about half its weight in honey. This is computed to be the average, although particularly ambitious bees will carry about 80 per cent of their weight. A strong colony will gather about 12 pounds per day, but about one-quarter of this is lost in evaporation and in answering the food demands of the colony.

## WOMAN'S PARTY LEADERS PLAN "EQUAL RIGHTS" DRIVE

Group of the national council of the Woman's party snapped between sessions at Washington.

The national council of the Woman's party meeting is in Washington to plan the extension of the "equal rights" campaign. In the group above are, left to right, seated: Alice Paul, vice

president; Mrs. John Gordon Battelle, Columbus; Miss Elsie Hill, Norwalk, Conn., chairman of the council; Mrs. Lawrence Lewis, Philadelphia. Standing: Miss Sheldon Jackson, treasurer;

Miss Anita Pollitzer, legislative secretary; Mrs. Richard Wainwright, Mrs. Marie Moore Forest, Mrs. E. T. Marsh, Mrs. Kenney, West Virginia, and Miss Maude Younger, legislative chair-

man. was taken up by officials and it was then disclosed that the ancient law still was in force.

Besides Americans many Catholic priests of French citizenship have been officiating at marriage ceremonies. Officials estimated thousands of "irregular marriages" had been performed since 1829.

According to an opinion rendered by the attorney general's department, the only way to regularize the situation is to introduce in the legislature a bill declaring that, notwithstanding the Act of 1829, all marriages performed since that time by clergymen of recognized standing were to be considered legal.

## Earlham

Miss Marianna Brown, a graduate and former instructor at the college, spoke in chapel Wednesday morning, comparing the Earlham of the present time to the Earlham of 50 years ago. Miss Brown is now preparing an issue of the "Who's Who," which will be a complete catalogue of the Earlham students from the opening of the college as a boarding school in 1847, up to last year.

According to Miss Brown, the Earlham of today has changed materially from the Earlham she used to know in the broadening of its athletic interests, a wider curriculum, an increased number of outside activities for the students. She stated, however, that in spirit the college had remained the same, in its adaptability and its versatility.

## To Put on Good Firm Flesh and Round Out Your Face and Figure

Get a FREE \$1.00 Package of Genuine Yeast Vitamine Tablets Today as Explained Below—Try Them for Ten Days and Watch the Results

Science has at last shown how we sometimes grow weak, thin, and emaciated on an abundance of food (lacking in vitamins) while with a much smaller amount of food, rich in vitamins, we may quickly take on good firm flesh, increase in weight, and make a remarkable gain in strength, energy and endurance, provided your blood contains sufficient quantity of oxygenated organic iron to enable your body to assimilate your food properly.

Without organic iron both food and vitamins are absolutely useless as your body cannot change lifeless inert food matter into living cells and tissue unless you have plenty of organic iron in your blood.

For centuries scientists tried in vain to make organic iron. At last the problem was solved so that you may now obtain pure organic iron like the iron in your blood from any drugstore under the name of "Suxated Iron."

It has been arranged to give every purchaser of Suxated Iron, who wishes to put on flesh or increase weight, a large regular \$1.00 package of Genuine Yeast Vitamine Tablets absolutely free. ## Everyday Ad-Ventures

Thoughts of a Library Clock—"They say that 'everything comes to him who waits' but I don't believe it. I've been waiting in this store to be sold for the past fourteen weeks and I haven't seen anything come my way in the shape of a purchaser."

"For some reason or other, clocks don't seem to be as popular as they were a few years ago. Maybe husbands don't want their wives to know what time they get in at night. No matter what the trouble is, I have to keep on sitting in this old store."

"If the proprietor and the clerks are as sick of hearing me as I am of hearing them, they'll soon throw me away and lose the profit. I guess they'd rather lose their profit than their minds—cause I sure strike a dismal note nowadays."

"Well, well! Can you beat it? Here's a woman looking me over. She says she read about me in the 'Jewelry and Watches' column of The Palladium's classified section and she intends to buy me."

"Believe me, there's nobody in this store will hear me sing to them. 'I Hate to Lose You, I'm So Used To You Now.' I'm glad I'm leaving here."

## No Other Road Performs Like Concrete

The car's a big part of motoring—the road's the rest. Why not be as particular about the performance of roads as about the performance of your car?

Concrete provides the only firm, rigid, gritty surface that is skid-proof even in wet weather.

Highway officials everywhere are building Concrete hard-surfaced roads to meet the motorists' requirements.
