

SCIENTIFIC FARMING IN INDIA INCREASING COUNTRY'S WELFARE

"Farming in India is being done on a more scientific basis than ever before in the history of the country, and it has enabled the farmer of India to increase his income by several hundred dollars, which is a considerably large amount for that country," said Victor M. Hahibaksh, of Calcutta, India, at the meeting of the Rotary club in the St. Mary's Community hall, Tuesday noon. Mr. Hahibaksh was born and raised in India but educated in American schools, and is now associated with the Y. M. C. A. in its work in India.

"Farmers in previous years in India were averaging for a season's crop about \$3.35 a year, now with the new methods they have increased their profits to as high as \$500 a year."

Believed Impossible
"When the new methods were told the natives they would not believe it, thinking it impossible because they had not seen it done. The people were shown the method and were soon convinced what they could do by farming the scientific way. They are also being shown the better ways of living by the method of demonstration, although it is not as up-to-date as it is here; they are getting the same results as we do, with cheaper material."

"India is one of the most poverty-stricken countries in the world, which is due to the fact that 82 1/2 per cent of the population of the country is rural people. Of this number 71 1/2 per cent live entirely by farming. This is the cause of the poverty of the country and always will be unless they learn the more modern methods of farming."

Centuries Without Change
"Several years ago farming in India was done practically as it was thousands of years ago, merely because the people had waited themselves in and would not let any of the outside world in. Now they are opening the gates to these walls and learning the outside methods of civilization."

Many of the Richmond Rotarians are planning to attend the annual Eleventh District convention to be held in Indianapolis Feb. 21 and 22. The local club will be located in the Lincoln hotel, where reservations have been made for the entire delegation.

A bowling tournament will be held in connection with the convention and the local club will enter a team in the meet. The team has not been picked to date but will be selected in a few days.

GENERATOR TEST ENDS ON TUESDAY EVENING

Final test of the new 5,000 kilowatt turbo generator at the light plant, will be ended late Tuesday evening, according to the statement of light plant official. The test run will demonstrate the various savings effected through the operation of the new generator, as well as its performance under various loads.

L. C. Weldon, temporary superintendent of the light plant, made a statement to the public Tuesday, relative to the shutdown which lasted about five minutes during the morning. The shutdown, he said, was necessitated by the approach of the testing period.

Explains Operation.
According to him, a circulating pump which supplies cold water to the condenser, failed to operate properly. The condenser filled up with hot steam, losing the vacuum which ordinarily is kept there when the machine is operating. About 20 minutes are required to get the generator turning over properly after a mishap of this kind. The five-minute shut off in current was occupied in getting the smaller units of the plant into operation.

Use of 120-volt bulbs for lighting circuits was advised by Superintendent Weldon, Tuesday. Too many families he said, use the 110-volt lamp which is too low a rating for the Richmond circuit. As a result, the bulbs fail to give the service to which the consumer is entitled.

TO TRY GOV. SMALL SEPARATELY, RULING

(By Associated Press)
WAUKESHA, Ill., Jan. 31.—Governor Small today was granted a separate trial by Judge Edwards on the charges of conspiracy to embezzle state funds for which he was indicted with Vernon Curtis, of Grant Park, Ill. Representatives of the attorney general's office and Prosecuting Attorney Mortimer of Sangamon county strongly opposed the separate trials of the two defendants. The court overruled the motion filed by the governor and granted a similar motion filed in behalf of Mr. Curtis.

The decision having the effect of putting the governor on trial first, Judge Edwards called for the governor's plea and C. C. LeFors, speaking for Mr. Small, pleaded not guilty. Mr. LeFors entered the same plea for Mr. Curtis who is confined to his home by quarantine.

New Junior High Pupils Begin Work Tuesday

David Worth Dennis junior high school opened Tuesday morning and ran a solid session until 12 o'clock. Principal Heironimus stated that, although handicapped by the fact that some of the rooms were not yet ready for classroom work, the students were started without much trouble. Within the next week or 10 days things should be running at full speed, he said.

The students were dismissed at noon for the day. This schedule will return until further announcement by the principal.

JAP DELEGATE ILL
(By Associated Press)
HONOLULU, Jan. 30.—T. Kawagoye, secretary in the financial department of the Japanese government and attaché of the Japanese delegation at the arms conference, was taken from the steamer Shinyo Maru today on its arrival here, too ill to proceed farther on the homeward voyage. He was taken to the hospital but his condition was said to be serious.

TRIO OF SMART NEW STRAW HATS FOR SOUTHERN WEAR

Straw in combination with fabrics and other materials make the new hats for southern wear. The three pictured here are chosen from a host of new models designed by one of the leading New York milliners. Wool and straw combine to make the hat on the left. It is a soft turned-off-the-face model with a fan-like fluted ornament of gros-

grain ribbon jutting out at the side. Embroidered silk with a brim of straw makes the hat in the center. It is of the new periwinkle shade and is suitable for sports or semi-dress wear.

Yellow straw interwoven with white cord is the unusual combination at the right. A cluster of foliage and fruits serves as trimming. It has a wide brim which is often more becoming than the upturned brim for certain types.

CONSIDER ABOLITION OF SHERIFF'S OFFICE

(By Associated Press)
TORONTO, Jan. 31.—Ontario is considering abolition of the office of sheriff, one of the oldest known to English law, but now described by the provincial public service commission as "nothing but a glorified bailiff."

Originally the office of sheriff in England carried with it wide powers, such as the trial of criminal and civil cases and the assessment and collection of taxes and is still an honorary position much sought.

In Ontario the office was created for police duties, but its powers have dwindled until now the sheriff's sole official functions are appearing at the opening of the Assizes court in official dress including cocked hat and drawn sword, the hanging of murderers, and the serving of a few legal papers.

No sheriff in Ontario, however, has actually hung a man in a century, that unpleasant duty being performed by a paid hangman, who travels from province to province shipping his gallows and setting it up where it is needed. As to the appearance of the sheriff at the opening of Assizes court, the commission's report says:

"No sheriff should be allowed to array himself in this fashion. It puts him to large expense and instead of adding to the dignity of the court it provokes mirth."

One proposal advanced by the commission is to combine the offices of sheriff, high constable and jailer.

WOMAN IS ALLEGED "ARSON TRUST" HEAD

(By Associated Press)
NEW ORLEANS, Jan. 31.—Mrs. M. E. Crosby, widely known here and in other Louisiana cities, is charged with being head of an "arson trust" in warrants sworn out late yesterday by Conrad Lecoeur, state fire marshal, after investigation of a series of fires in several Louisiana towns.

Warrants also were issued for Mrs. Crosby's two daughters and their husbands, Mr. and Mrs. R. R. Raney and Mr. and Mrs. J. D. Higdon, Mr. Lecoeur announced.

He said he had turned over to District Attorney Blanchard, of Caddo parish, the evidence gathered in his investigation during the last two weeks, on which the warrants were issued.

The fire marshal said Mrs. Crosby was at present at Jackson, Miss., and that extradition proceedings would be instituted to bring about her return to Louisiana. He added that his investigators were inquiring into the destruction by fire of several boarding houses operated last year by Mrs. Crosby. The houses, he said, were burned in each instance within a few weeks after they had been equipped with cheap furniture.

Spectacular Dock Fire Brought Under Control

(By Associated Press)
SUPERIOR, Wis., Jan. 31.—A spectacular fire at the Great Northern ore dock number 2, at Allouez, a suburb, which for a time threatened other ore docks, was brought under control early today through combined efforts of Superior firemen and a crew from Duluth. The loss may reach \$2,000,000.

The fire started last night from an unknown cause. The dock was of wood construction and burned rapidly. So intense was the heat that ice in Lake Superior was melted for a considerable distance about the structure. An added danger was the repeated explosion of what firemen said was oxygen gas in the ore pockets.

Charge Fight Pictures Displayed In Wisconsin

(By Associated Press)
MADISON, Wis., Jan. 31.—Federal officers today arrested William Cooke, Milwaukee advertising man, charged with transporting pictures of the Dempsey-Carpenter fight in Jersey City into Wisconsin and showing them at Baraboo Sunday night. This is the first time that pictures of the fight had been displayed in Wisconsin. Officers are seeking Cooke's aide, who, with him, is charged with transporting the films from Chicago for use in this state.

Sledding Criminal

(By Associated Press)
NEW YORK, Jan. 31.—New York policemen were today attempting to solve a difficult question. Is a sled, laden with children a pleasure vehicle? If it is not it may go hard with four New York fathers when they appear before Magistrate Hattin tomorrow, charged with the criminal pastime of drawing their sled-ridden children over the Virginian snow of Central park.

New York has a law that prohibits all but pleasure vehicles within the park. Four fathers drawing their little ones over the park snows yesterday were arrested by the vigilant police, who are doing their best to stay New York's crime wave, and haled before Magistrate Hattin, who ordered the officers to make careful investigation.

"It is a very momentous question," Magistrate Hattin told the police. "The snow in Central park must be protected."

OUTLOOK IN INDIA IS REGARDED DUBIOUSLY BY LONDON PAPERS

(By Associated Press)
LONDON, Jan. 31.—Today having been fixed at the beginning of the "civil disobedience campaign" in India, several London newspapers discuss the outlook which they regard with considerable anxiety.

The plan laid down by M. K. Gandhi, non-cooperationist leader, to try the disobedience experiment first in the two areas of Bardoli and Anand, seems from various reports likely to be observed, indicating that the scheme will be put into operation throughout a much wider area. The recent movement in the Guntur district is cited in support of this supposition.

Reports appear almost daily in the London press showing that the non-cooperation propaganda is becoming intensified in the rural areas, where the peasantry is elated at the prospect held out by Gandhi's agents that they shall be exempt from taxation. There are also indications of serious unrest in some provinces, chiefly at Barabanki and Bardoli, in northern Oudh, where it is reported agitators are exciting the people with assertions similar to those which materially aided the cause of the Indian mutiny. Among these are statements that the British are mixing wines with the medicines issued at the public dispensaries and are using pork fat in certain manufactures. (Both pork and wine are anathema to Mohammedans.)

May Postpone Arbuckle Arguments Until Tomorrow

(By Associated Press)
SAN FRANCISCO, Jan. 31.—Arguments in the case of Roscoe Arbuckle trial on the charge of manslaughter in connection with the death of Miss Virginia Rappe, may be postponed until Wednesday afternoon while rebuttal witnesses called by the state occupy the stand. It was indicated early today. The arguments may extend into Thursday.

District Attorney Brady announced that the state was awaiting the arrival of a witness from Chicago, whose name would not state, whose testimony will be offered in rebuttal to that of Mrs. Florence Bates. Mrs. Bates testified that Miss Rappe, while employed as a model in a Chicago store, was seized with illness similar in its symptoms to that she suffered at the party in Arbuckle's room.

BALANCE OF TRADE BETWEEN SPAIN-U.S. NOT IN OUR FAVOR

MADRID, Jan. 31.—The trade balance between Spain and the United States in December favored Spain for the first time in many years. The chief cause of this change was the increased demand in the United States for Spanish olives, olive oil, nuts, fruits, essences and herbs, while Spaniards were unable to import much from the United States up to the end of last year in consequence of the high value of the dollar. This, however, has since depreciated, with the result that Spanish demand for American agricultural, textile and other machinery is improving rapidly.

The cotton mills of both Spain and Portugal are working at high pressure, those in Portugal using large quantities of both American and Brazilian cotton and selling their product to Spain, while Spanish mills are using about 1,000 bales of cotton daily, 95 per cent of which is American grown.

The Spanish government which has completed revision of the tariff intends to avail itself in the future to a much greater extent of the system of ad valorem duties and to this end purposes establishing an office in Madrid for fixing values instead of replying to consular invoices.

Meanwhile negotiations for a new commercial treaty between France and Spain are proceeding and an agreement will probably be announced shortly. The treaty is expected to abolish the coefficient surcharges upon articles from countries with depreciated moneys, thus apparently favoring importations from those nations, but at the same time will levy duties as though the French franc for instance, were par value.
