

DISEASES OF HEART LEADS U. S. DEATH RATE, SAYS DR. HURTY

(By Associated Press)
INDIANAPOLIS, March 3.—Heart diseases have the lead as the causes for the national death rate in the last four years. The pneumonia influenza epidemic ranked second and tuberculosis has been cut down to third as a cause for national mortality, according to Dr. J. N. Hurty, secretary of the Indiana state board of health.

"These heart disorders are caused by a number of modern day habits of living," says Dr. Hurty. Intemperance in eating is one of the "crimes" that Dr. Hurty considers is retarding civilization's progress.

"And the worst of it is," says the doctor, "that my work is to seek to preserve the weak. Unless there is a change, the weak and the patched-up will predominate in modern civilization, and then there will be a pretty condition."

Gauge Nation's Strength.
The strength of a nation, Dr. Hurty believes, may be gauged by the number of old men that it has living. The "dead-line" under which a nation dare not fall, if it hopes to continue, is 15 per cent of the men living, over 60 years of age. "The Balkan states, although they are warring constantly, have the world's highest percentage of old men," says Dr. Hurty. "The United States census has no figures listed." Modern civilization is rapidly approaching a "hairless and a toothless age," Dr. Hurty declares. "People don't eat the right foods. Overeating of some foods and under-nourishment of other foods is what is depriving people's bodies of the elements necessary to make hair and teeth. And good teeth are born with a child. The mother must have the necessary elements for making the perfect enamel necessary for perfect teeth."

Highly milled flours and inland salt deplete men of elements essential to the growing of hair and teeth, Dr. Hurty says. Canned goods in time produce scurvy if eaten alone, he says. Dr. Hurty recommends greens as an essential part of every diet.

GIVES ROAD FIGURES

(By Associated Press)
INDIANAPOLIS, March 3.—There are 1,825 miles of gravel roads, 815 miles of stone roads and 170 miles of earth roads under the jurisdiction of the maintenance department of the state highway commission at this time, according to Lawrence Lyons, director of the state highway commission.

Original Recipes for Using Canned Foods

Here is a handsome booklet containing over 40 solid pages of new recipes that tell the housewife how to serve canned foods more attractively. These original recipes are so fine that they are being used by teachers in many of the leading schools of domestic science.

In the back of the book there is a complete index listing in alphabetical order 27 different kinds of soups, and enumerating a total of 236 recipes, including everything from apple dumplings to white sauce.

It has been said that any woman who gets this book of recipes will wear it out from use—and when she does she can have a new one. No charge except two cents in stamps for return postage. Write your name and address clearly on the lines of the coupon.

(Do not send the coupon to The Palladium. Mail it direct to Washington, D. C.)

The new board of publication of Garfield junior high school met Feb. 20, 1922, in order to organize. The new members are: Clara Mayer, Marion Harrison, June Kehlenbrink, Freeman

WOMEN MEN ADMIRE

Men admire a pretty face, a good figure, but more than all a buoyant disposition and the charm of happy content. There is no question but what a light-hearted woman is the joy of a man's life, but no woman can be happy and joyful when dragged down by the ailments that so often develop headaches, backache, nervousness and "the blues."

We are continually publishing in this paper letters from women who have been restored to health by Lydia E. Pinkham's Vegetable Compound after doctors and other medicines have failed to help them. If you are ill, why not give it a trial.—Advertisement.

Harris, Edward Wilson, Mary Jane Snyder. The old members are Thelma Shattuck, William Campfield, Pearl Dipon. The new officers are Pearl Dipon, chairman, and Mary Jane Snyder, secretary.

The work in the gym for girls consists of educational gymnastics which include exercise with dumb-bells and clubs, marching, dance steps, folk dancing and games. The teacher this year is Miss Lorehr, of Greencastle.

The general language classes are studying languages of the cavemen. They are also studying picture writings used by the North American Indians hundreds of years ago.

The 7-B class had a treat when Mr. Manning gave a talk on Panama. Mr. Manning lived there three years.

The sewing and cooking classes in Garfield junior high school are going on with their regular work. The 7-B classes are making caps and aprons. The 7-A's are making dresses.

Although the school has been divided there are over 100 pupils buying lunches every day at Garfield.

BENTONVILLE, Ind., March 3.—Mr. and Mrs. Lambertson are the parents of a daughter.

Divorce Rumored

Freedom is sought from her husband, it is reported, by Lady Ashburton (above), a former London Gaiety girl, and a daughter of J. C. Donnelly, New York.

TAKE NO CHANCES ON GAS

(By Associated Press)
KENTON, Ohio, March 3.—City officials aren't taking any chances on Kenton's gas supply. Common pleas court has granted an injunction preventing both the Hardin-Wyandot and the Medina gas companies from shutting off the city's source of supply.

INGROWN TOE NAIL

Turns out itself

A noted authority says that a few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost overnight. "Outgro" is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.—Advertisement.
