Rep. Elliott Should Be Returned to Congress

Richard N. Elliott of Connersville, who has represented the Sixth district in congress since 1917, seeks to be renominated on the Republican ticket at the forthcoming primary.

Mr. Elliott needs no introduction to the voters of the Sixth district. He was admitted to the bar at Connersville in 1896, and served as member of the lower house of the Indiana general assembly in 1905 and 1907. His entire career has centered about the district which he represents now in congress.

To the duties of his office in congress, Mr. Elliott has given painstaking attention and care. On all the questions of national moment and importance that have come before that body in the highly strenuous period of his incumbency, Mr. Elliott has taken a stand that squares with the best interests of the country and the dictates of patriotism. His record of official actions recommends itself seriously to the voters.

Besides representing the district in an able manner, Mr. Elliott has devoted himself warmly to the interests of the disabled veterans of the World war and to former soldiers who

sought help and advice from the various departments of the government.

His work in this respect in the Sixth district is an outstanding feature of his career in congress. The former soldiers have no warmer friend than Mr. Elliott, and no one who has obtained relief so speedily and at the expense of so much of his own time and effort. Every appeal, so former service men say, has received immediate attention, and often, long and tedious delays that held up action, were quickly broken by Mr. Elliott in his effort to help the applicant.

This accounts for the warm esteem and affection in which he is held all over the district by the service men and their families and friends.

Mr. Elliott also has been zealous in attending to the matters upon which his constituents wanted information or were anxious to learn the methods of procedure.

In his statement to the voters of the district Mr. Elliott expresses his satisfaction in what has been accomplished by the administration and his participation in the work. He says:

"I have supported all of the measures passed and have tried to give heed at all times to the needs and requests of the people of my district and especially to the soldiers and their dependents during the war, realizing that I am your servant and that my commission comes from you. If my services in the past have met with your approval, I will appreciate your support in the coming primary and election."

Mr. Elliott has been in congress long enough to establish himself in the esteem of his colleagues. The continued presence of a representative in congress is of worth to his constituency, for the longer an efficient and a capable man remains the better is his grasp of public affairs.

Answers to Questions

(Any reader can get the answer to any question by writing The Palladium in care of the Associated Press, 110 W. 42d St., New York. President of the Associated Press is D. C. Tracy. The bureau does not give advice on legal, medical, financial or other subjects. It does not attempt to settle domestic troubles, nor to undertake exhaustive research on any subject. Write your question plainly, giving your full name and address and enclose two postage stamps for return postage. All replies are sent direct to the inquirer.)

Q. What is the term for the practice some people have when puzzled of opening the Bible at random, reading a verse, and allowing it to determine the person's course of action? —J. C. B.

A. Divination by means of the Bible is called bibliomancy. Use of poetic verses, fixed on by chance, was common in Rome. Vergil was often used for this purpose. As the Bible spread through Europe, devout people naturally turned to it for direction. The custom still persists, although church dignitaries have frowned upon it.

Q. Was basketball ever called by any other name? —D. V. H.

A. Dr. Naismith, who invented the game, says he gave it the name of Indoor Rugby. One of the players on one of the first teams suggested the name Basket Ball, and it was promptly adopted. The fundamental principles of playing the game have never been changed.

A. How many Indians are there in Alaska? —H. E.

A. People classed as Indian total 26,558 in the 1920 census of Alaska. This is 48.3 per cent of the entire population. Persons of mixed blood are classified according to the non-white racial strain.

Q. Why is lb. the abbreviation for pounds? —J. O.

A. The abbreviation lb. is derived from the Latin word libra, which designates a certain measure.

Q. What was "Black Thursday"? —N. G.

A. "Black Thursday" was the name given to February 6, 1851, in the colony of Victoria, Australia. On that day the most terrible bush fire in the annals of the colony occurred.

Q. What is the estimated wealth of the Rothschilds? —G. H. M.

A. At the time of Nathan Rothschild's death in 1915, the family holdings were estimated at \$2,000,000,000.

Q. Please advise if there are any mints in the United States except at Washington, D. C. —M. C. C.

A. There is no mint in Washington, D. C. The three mints being operated as such are located at San Francisco, Calif.; Denver, Colo. and Philadelphia, Pa.

After Dinner Stories

Judge Blank is fond of relating how he put one over on the barber who wished to make a sale. The man had just shaved him and wanted to sell him a lotion to use on his face when he shaved himself.

"Is this what you use on your customers?" asked the judge.

"No," replied the barber. "It is so expensive I cannot afford it."

"If you can not afford it when you get 20 cents for shaving a man," returned the judge, "how do you expect me to afford it when I shave myself for nothing?"

The barber was nonplussed and gave up trying to make the sale.

The women are trying to make the world better. They concede that to be their purpose. If they will favorably consider a suggestion in line with progress, it is that they put up more fruit. Home-canned fruit is the backbone of the nation. That and gravy. Other reasons for the fall of Rome have been advanced. But the facts are that Rome began to slip when its women, in their devotion to general welfare work, forgot how to make good gravy.

Lessons in Correct English

Don't Say:
There are many THAT saw the eclipse.

Man is the only animal WHICH can talk.

We sold the clock THAT belonged to father.

Such THAT I have give to you.

She is the same girl now THAT she was before marriage.

Say:
There are many WHO saw the eclipse.

Man is the only animal THAT can talk.

We sold the clock WHICH belonged to father.

Such AS I have give to you.

She is the same girl now AS she was before marriage.

TODAY'S TALK

By George Matthew Adams, Author of "You Can," "Take It," "Up"

THE WORLD IN YOUR HEART

Solomon once said that the world existed in each human being's heart.

No wonder Pope thought that Man was so interesting. But he is interested only as he lets the world have a chance in his heart.

I looked into the face of as beautiful a moon last night as I have ever seen. A friend was with me and he, too, admired the unusual beauty there. We both reflected. But each of us took that moon into a different world—our own!

The most potent thing in the world is opinion—individual opinion—because it is from the single individual that the crowd gets its inspiration and forms its own public opinion which is able to move an entire world.

So you see that it is very important as to what sort of a world you take and keep and develop in your heart.

The best world is that one into which you may continually invite others, that they may become enriched from all that you have learned or seen.

Recently I looked upon a most extraordinarily small marble—so noble, so uplifting and so lovely that I felt thrills of beauty waves vibrating through my consciousness. I asked the name of the sculptor and learned that it was done by a woman—a semi-invalid. Rodin never cut a finer small piece.

No matter how imperfect your body may have been brought into this world, or how full of flaws it may now be, just so long as your mind is clean and healthy you may continue to invite into your heart the most perfect gifts of Nature.

Keep a very happy world in your heart. And continue to beautify it with your love of art and music and literature—and all people.

The other evening I heard a great violinist—many say the greatest in the world—Kreisler. I watched him closely, for I sat near to him. It seemed to me that he entered a very beautiful world as he played with such matchless skill and delicacy. But it was his own world that he had made wonderful by his fine and noble character.

Art and beauty are living, vital forces. Each has a language—and when we can talk that language and understand it, we become a part of art and beauty, as though melted into one with them.

Who's Who in the Day's News

GOV. EDWARD I. EDWARDS

Gov. Edward I. Edwards of New Jersey is slated to become the Democratic candidate for senator in that state next fall, according to political experts. Mayor Hague of Jersey City, who is given credit for Edwards' election in the gubernatorial race, is to handle the governor's senatorial campaign, it is said.

Edwards won out in the race for governor on a platform advocating personal liberty and opposing prohibition. He was a member of the Democratic national convention as a possible candidate for president.

He was born Dec. 1, 1863, at Jersey City. He attended the public schools there and studied law in the University of the City of New York.

He worked in the First National bank of Jersey City, then went into the contracting business, took place in the Jersey City tax department in 1888, and in 1903 returned to the First National bank as assistant to the president. He is now the president.

Mr. Edwards was elected state controller in 1911, and was re-elected in 1914. He went to the state senate in 1918. He was nominated and elected governor in 1919.

For Colds, Grip or Influenza and as a Preventive, take Laxative BROMO QUININ ETABLETS. The genuine bears the signature of E. W. Grove. (Be sure you get BROMO.) 30c.—Advertisement.

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. This applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it.

A prominent druggist says "Take for example Dr. Kilmer's Swamp Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp Root is due to the fact so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments, corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp Root by Parcels Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.

Too Much of a Good Thing

"It is six years since I had my first stomach trouble. It rapidly grew worse. My food would not digest and I was reduced to skin and bone. My doctor put me on a starvation diet, and when my pains grew worse I concluded it was too much of a good thing. On the advice of my druggist I tried May's Wonderful Remedy, and am now entirely well." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Clem Thistleton's 7 drug stores, A. G. Lukens Drug Co. and druggists everywhere.—Advertisement.

After Dinner Tricks

No. 108—The Walking Matches.

The ends of two matches are notched, and they are pushed together so the matches form a letter V. An open knife is held by the handle, and the matches are placed astride the blade of the knife, which is held a few inches above the table, so the ends of the matches just touch the table. This works equally well if the matches are inverted and the heads touch the table. In a moment, the matches begin to "walk" slowly up the blade of the handle.

There is really no trick to this puzzling problem. Merely hold the knife handle tightly, and see that the tips of the matches just rest on the table. Muscular vibration does the rest, as experiment will prove.

THE TAX GROUCH

My income tax has now been paid, and when I dug the money, I said, "This life's a thing of shade, that once was fair and sunny. The way they cinch an old fat bard is something fierce and bitter; there is no sense in working hard—far better be a quitter. The burdens thrifty men endure call out for language ranty; true wisdom lies in being poor, and living in a shanty." A beggar stopped me in my tracks; in my kind heart he trusted; I said, "I've paid my income tax, and, like yourself, I'm busted." The pastor asked me for a bone to help him paint the steeple; I said, "My taxes make me groan. I walk with ruined people." My wife declares the friends she meets smile at the lid she's wearing; I show her then my tax receipts, and shed some tears despairing. The village live wires come and say they need some coin for boosting; I sign, "My roubies are today with tax collectors roosting." This is the way the voter feels when modern law's bereft him; with zealous care he

PUT STOMACH IN FINE CONDITION

Says Indigestion Results from an Excess of Hydrochloric Acid.

Undigested food delayed in the stomach decays, or rather, ferments the same as food left in the open air, says a noted authority. He also tells us that Indigestion is caused by Hyper-acidity, meaning, there is an excess of hydrochloric acid in the stomach which prevents complete digestion and starts food fermentation. Thus everything eaten sours in the stomach like garbage sours in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. Then we feel a heavy, lumpy misery in the chest, we belch up gas, we eructate sour food or have heartburn, flatulence, water-brash or nausea. He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast and drink while it is effervescent and further more, to continue this for a week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with Lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.
