

QUARTERMASTER GETS MEDAL FOR RESCUING DROWNING COMRADE

(By Associated Press)
LONDON, March 8.—Frank Dolan, a quartermaster on the United States steamer Centennial State, has just received an award of medals here for rescuing a comrade from drowning in the Thames last October. His act was described as one of the bravest deeds ever done in the London dock.

He received the silver medal of the Royal Humane Society and an award from the Carnegie Trust Fund.

Dolan was serving on the Montana at the time of the rescue and dove into the water to save a man who had fallen between that ship and the pier at a time when a strong swell was running and Dolan ran a risk of being crushed between the ship and the wharf.

The services of Scotland Yard and the New York police department were engaged in order to find Dolan and make the award. When he heard that the New York police were looking for him Dolan appeared in a police station in that city much perturbed and declaring that he had "committed no crime."

Preparedness At Home Is Necessary

How many housewives have been embarrassed by the arrival of unexpected guests who must be invited to remain for one meal at least? It is impossible to keep the larder so well stocked with fresh foods of all kinds that nothing will be needed. The one sure means of escaping this dilemma is to keep on hand a sufficient stock of canned foods of all sorts—soups, substantial dishes, salads, desserts.

This supply, coupled with a knowledge of how to make canned food into attractive and appetizing dishes, solves the problem. Any of our readers can have free of charge a new and revised booklet containing about 200 recipes for preparing canned foods for the table. To secure a copy simply cut out and send in the coupon below, enclosing two cents in stamps to pay postage. Be sure to write your name and address clearly on the lines of the coupon.

(Do not send the coupon to The Palladium. Mail it direct to Washington, D. C.)

Why March is Most Dangerous

March is the most dangerous month of the year because the change of season is more than a good many systems can stand. Too often it is true that the sick "last only till spring." But if the system is fortified, if the impurities are driven from the blood, and the nerve tissues fed with wholesome and strength-giving food medicine, there is no danger in the change of seasons. Father John's Medicine is invaluable as a tonic in the spring. It strengthens the system and drives out the poisonous waste matter—builds up the body. It is this power that has made it so successful in treating colds and throat troubles. No weakening stimulants, morphine or other dangerous drugs.—Advertisement.

DON'T GET UP NIGHTS FOR BLADDER ILLS

Dayton Man Reports Relief With Simple Remedy After Getting Up 15 or 20 Times Each Night for Two Years.

Mr. Julius Mayer, 1430 East Fifth St., says in his own home paper, the Dayton News: "For two years my bladder caused me to get up many times at night and too frequent in the day. After taking a few doses of Lithiated Buchu, my bladder works perfectly normal and I can sleep all night. Lithiated Buchu acts on the kidneys and bladder as Epsom Salts do on the bowels. You will be surprised at the impurities which come from the bladder after taking a few doses of Lithiated Buchu. It is a patent medicine, the formula is on the package. The tablets cost 25 cents. This price makes it possible to place in the formula several high priced drugs, which are useful to give relief. It is not likely that you have ever taken a remedy similar to this. Try a few doses for backache, scalding, scanty or high colored urine and frequent desire at night. You can see the formula and learn more about Lithiated Buchu at A. G.
