

BRITISH PROVISIONAL PLANS FOR PALESTINE INCLUDE OFFICIAL

(By Associated Press)
LONDON, March 16.—Provisional plans for the future government of Palestine under the British mandate which have just been issued make provision for the appointment of a high commissioner to be known also as commander-in-chief. He is to have power to appoint an executive council to be "constituted in such a manner as may be directed by the British government."

The high commissioner will also be assisted by the legislative council of 25 members. Of these latter 13 are to be elected and every man in Palestine over 25 years old will be entitled to vote.

The high commissioner would be authorized to divide the country into provinces or districts and all rights in public lands and also all mines and minerals.

Three languages, English, Arabic and Hebrew are to be permitted in the debates of the Palestine Council, in government offices and law courts.

If any religious community or any considerable section of the population in Palestine should complain that the terms of the mandate were not being fulfilled, it would be entitled to present a memorandum to that effect to the legislative council or the high commissioner who would be required to forward it to the secretary of state for submission to the League of Nations, "unless the high commissioner gives a written reason to the petitioners for not forwarding it."

GREENVILLE CITIZEN FINED \$500, COSTS

GREENVILLE, Ohio, March 16.—Mart Holmes was found guilty and assessed a fine of \$500 and costs in the whiskey case against Holmes and Nick Vourlas Tuesday. Vourlas was released.

To Build School
The board of education of Butler township, this county, has decided to build a centralized school in that township the coming spring and summer.

The board has already passed the necessary resolutions for the sale of \$150,000 worth of bonds to defray the expense of buying a suitable site and erecting the new school building.

Probate Court
Will of C. W. Chenoweth, deceased, admitted to probate record.

W. A. Chenoweth appointed executor of the will of C. W. Chenoweth, deceased. Bond \$50,000.

Sale of real estate confirmed and deed ordered made to purchaser in Ellis Alexander matter.

Eli McGriff, administrator of the estate of Alfred McGriff, deceased, filed first and final account.

A proposal of a 10-year truce for all European nations is a plan to be introduced by Great Britain at the Genoa conference.

VIGOR RESTORED BY DRUESSEN-KRAFT GLAND TREATMENT!

After Trying So Called Tonics For Years Without Results, Decatur Merchant Is Restored to Health Through Gland Treatment.

"For the last five years I have had terrible dizzy spells at times, my head and back continually ached, it was impossible at all to attend to my business and I thought I would lose my mind over the strain. I grasped at every straw, took every advertised medicine which promised to do something, but they all either did nothing at all for me, or gave me a temporary stimulation which left me worse afterwards than before."

Dr. whom I consulted in desperation, advised me to try the DRUESSEN-KRAFT (Youth-Gland) treatment with which he has had such splendid results and am pleased to notify you that after two months' treatment, according to directions, my health is considerably improved. I haven't had a headache or backache for the last six weeks and even a stomach ailment of long standing is disappearing. If the next few weeks' treatment will do anywhere near what they have done so far I shall be a well man one month from now. It is amazing to me to think that these little glands can control my health and strength. The proof of the pudding is in the eating and your DRUESSEN-KRAFT treatments have certainly restored my health. I shall be glad to talk to anybody you or your local doctors or druggists refer to me as I feel this is the least I

RADIO PROGRAM

RICHMOND STATION WOZ—Thursday, March 16.

Last Rose of Summer... Rappold Young Ton O'Devon... Middleton Weather Forecast.
In Bluebird Land... Benson After Dinner Story.
Second Hand Rose... Roberts Today's Talk.
Lonesome Hours... Whiteman Cutie, Medley Fox Trot, Whiteman

INDIANAPOLIS STATION WLS—8:00 o'clock, the Syncro Super Six-Dance Orchestra.

PITTSBURGH STATION KDKA—8:00 p. m., speaker to be announced by radio telephone.

8:20 p. m., popular entertainment by the Pittsburgh Strollers' Orchestra, H. L. Smith, director.

9:25 p. m., Arlington time signals. NEWARK (N. J.) STATION WJZ (eastern time)—

7:00 p. m., Sally Hamlin, the child elocutionist from Brooklyn, will recite "The Raggedy Man," James Whitcomb Riley.

7:45 p. m., "History of Canned Food," by C. W. Glick, New York.

You hair will welcome Blue Devil and fluff right up.—Advertisement.

"THE WOMAN PAYS," SAYS ACTRESS AS SHE SHIELDS MAN

Claire Rene.

Again the "woman has paid." Claire Rene, actress who says she is the daughter of the late Henry George Spater, wealthy Detroit, is in a New York jail because she preferred to pay. She was bound over to the grand jury on a charge of abandoning her infant daughter. She preferred to go to jail rather than divulge the name of the father of her child. "I have suffered as only a woman can," she said. "The man in this case is well known and the father of several children. Why should I make them suffer?" She was unable to furnish \$500 bail pending her trial.

SON BORN TO ALICE BRADY

NEW YORK, March 16.—Birth of a son to Alice Brady, actress and daughter of William A. Brady, became known today. Miss Brady was divorced from James Lyons Crane, actor, last January. Crane is a son of Dr. Frank Crane, writer.

Winter Killing Damage Of Wheat 14 Per Cent

COLUMBUS, Ohio, March 16.—A winter killing damage to wheat of 14 per cent is indicated in reports received by C. J. West, agricultural statistician of the State-Federal Crop Reporting Service. Two weeks ago the damage was estimated at 10 per cent. There are no signs at present of an oats acreage much different from that of last year. Replies to an inquiry on the probable planting of corn run three to one in favor of an acreage as large as last year.

In some sections of the state the spring pig crop is larger than a year ago but taking the state as a whole, the number is about normal so far. There are complaints of losses of young pigs in some sections.

\$130,000,000 DEFICIENCY BILL GOES TO PRESIDENT
WASHINGTON, March 16.—Congress yesterday completed the deficiency appropriation bill carrying more

Kidney and Bladder Troubles HAVE TO GO

Clogged-up Kidney Deposits are Dissolved and the Toxins (Poisons) Completely Driven Out. Druggists Told to Guarantee it in Every Instance.

"You very life," says Dr. Carey, "depends upon the perfect functioning and health of your kidneys so whatever you do not neglect them." Dr. Carey's famous prescription No. 777 known as Marshroot is not recommended for everything, but we cannot too strongly urge its use if you suffer from annoying bladder troubles, frequent passing of water night and day, with smarting or irritation, brick dust sediment or highly colored urine, bloating irritability with loss of flesh, backache, rheumatism or any other tendency to Bright's Disease, Diabetes or Gravel, for kidney disease in its worst form may be stealing upon you. Don't wait until tomorrow to begin the use of this wonderful prescription now obtainable in both liquid and tablet form if you have any of the above symptoms. Kidney and Bladder troubles don't wear away. They will grow upon you slowly, stealthily and with unfailing certainty.

Never mind the failures of the past if you even suspect that you are subject to Kidney Diseases, don't lose a single day for A. G. Luken Drug Co., Daffler Drug Co. and every good druggist has been authorized to return the purchase money on the first two bottles to all who state they have received no benefit.—Advertisement.

NOTES: A generous trial bottle of Marsh-Root tablet or liquid form, may be secured by sending 25c to Dr. Carey Co., Elmira, N. Y.—Advertisement.

than \$130,000,000, including about \$74,000,000 for the veterans' bureau. The bill now goes to President Harding for approval, the senate having receded from one of the minor items in dispute.

WISHES HE HAD KNOWN IT SOONER
"I only wish I had discovered Foley's Honey and Tar 50 years ago, as I have been the victim of attacks of influenza and had colds since I found this wonderful relief," writes W. H. Gray, 854 Nowita Pl., Venice, Cal. Foley's Honey and Tar helps coughs and colds, bronchial and is gripe coughs, tickling throat and hoarseness. It is good for croup and whooping cough. Mr. Gray adds: "Worth its weight in gold. Marvelously effective." A. G. Luken & Co., 826-828 Main.—Advertisement.

Everyday Ad-Ventures

That's What You Call Service—After you've mentally said "good-bye" to that wallet of yours and the five neatly folded five-dollar bills that it contained, because you can't see how it's possible to get back a sum of money lost on the street that way—

And you think of all the things you could have done with that cash—like handing it over to the old U. S. A. in part payment of your income tax, or leaving it at some good tailor's as a deposit on a snappy spring suit—

And you grow sadder and sadder, and then madder and madder, over your loss and make up your mind that you won't let that money get away from you as easily as all this—

And so you call Phone 2834 and put a little ad in the Lost and Found column and wait and see what happens—

And the next day a gent, whose honest and admirable character you can detect right through his gruff voice on the phone, calls you and says that he found a wallet just like you advertised for in The Palladium and that you can get your lost cash any time you stop and see him—

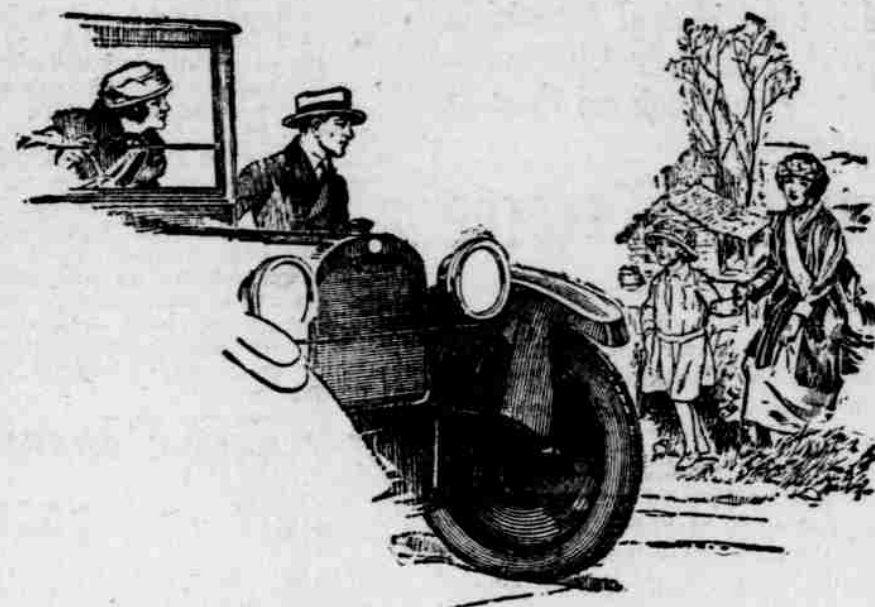

—Oh, man! That's what you call service!

Lime Helps the Lawn

It is common knowledge that high fertility in lawn soils and a good lawn go hand in hand. In order for the lawn to be at its best the soil should be like a garden, having plenty of depth and good reserve of moisture holding qualities and fertility.

Kentucky bluegrass, our best-known lawn grass, attained just renown in the famous limestone regions of central Kentucky. It never attains its full luxuriance on a very sour soil. Do not understand that this grass is most sensitive to acidity, for it is not. Yet there are few lawns which will not respond favorably to a moderate application of lime. While clover, the sidekick of bluegrass in the lawn, is about equally as sensitive to acid conditions.

On a lawn which shows the need of rejuvenation, a good top dressing of about eight pounds of hydrated lime or burned lime on each square foot will often help. If it is available, you can use instead 20 pounds to the square foot of ground limestone, shell or marl. This can be put on at any time in the fall or winter, and in the spring work in about five pounds of nitrate of soda to the square foot. The following fall put on a good top dressing of 200 pounds of fine clean barnyard manure per square foot, rake it into the soil as thoroughly as possible in the spring, and remove the excess. If necessary, apply a very little additional lime in the early spring after the manure has been pretty well incorporated with the top surface of the lawn.

Chicks and Warmth

Chicks in brooders are sometimes found dead in the morning as a result of crowding. Those on the outside of the brooder, if the nights are cool, will endeavor to move to the heat. In so doing they trample over those that are still sleeping.

As the chicks all move toward the center, the pressure from all sides causes internal injuries or suffocation.

The remedy is to give a little too much, rather than too little heat, for then the chicks will spread out contentedly. Of course, this does not mean that the chicks should be overheated, or grown in a hot-house manner; but it is all right to keep them comfortably warm, providing they have plenty of room to move about.

The nature of the breed also makes a certain amount of difference. For example, the small, nervous chicks (such as Leghorns) feather rapidly, and are in need of more warmth than the larger and more sluggish Brahmas or Cochins chicks.

Pig-Killing Sows

Often a brood sow is unjustly condemned. If she kills or starves her young, it is sometimes the fault of the caretaker.

She should be fed sparingly for the first few days after farrowing, increasing gradually, so that the milk will not be produced faster than the pigs can take it. By injudicious feeding, the milk glands are unduly stimulated, and if the milk is not all consumed, will cause irritation and inflammation. The suffering mother will not allow the pigs nourishment, thus starving them, or in her pain, she may sometimes kill them. Correct feeding will eliminate nine-tenths of the troubles at farrowing.

NOTICE

We receive daily at 10:30 a. m. the Western Union wire live stock markets. Anyone wishing this information may have same by calling Phone 1679.

Think of Your Garden as—

A Doctor.—It can keep you in good health and send no annoying bills.

Picnic Grounds.—You can have a lot of fun in it if you approach it in the right spirit.

A Beauty Spot.—To cover bare earth with green growing things is truly a work of art.

A Thrift Proposition.—It gives you the opportunity to save the money you would otherwise have to spend for food.

A Sanctuary.—Some one has said, "One is nearer to God in the garden than anywhere else on the earth."

An Opportunity.—Not only to add to your yard but to broaden your intellect and sympathies as well.

Battleground.—Never doubt for a moment that weeds and pests will rise up without number to engage your ceaseless efforts.

A Store House.—If rightly planned it will supply a surplus of food to be stored away for bleak winter.

Recreational Proposition.—It is just as enjoyable and far more profitable to play the game of gardening than golf or tennis.

An Old Friend.—Enter lovingly into its moods and confidences, and when you are deprived of its presence for a few bleak months look eagerly forward to its return.

A School of Gardening

The School of Hard Knocks offers a course in gardening each year. One of the lessons in this course is a practical experiment designed to teach gardeners to buy seeds of reliable dealers. Some gardeners do not take this lesson themselves, tho, for they believe what others say, and so they deal all the time with absolutely reliable seedmen. Of course they miss the thrills of failure, but I don't know but they appear about as happy as the fellows that fail, after all.

Feeding Corn to Hens

The most satisfactory form in which to feed corn to chickens is cracked and mixed with other grain such as wheat, oats or barley. But as a general rule, chickens should also have some whole corn. The chief objection to the feeding of whole corn is the fact that plenty of exercise is necessary to digest corn. For this reason it is well to feed it in some manner so that the fowls will have to exercise in securing the corn. One way is to break up the ears in small pieces and allow the hens to pick the grains off. Another system is to tie a string around the end of an ear of corn and suspend it from the roof of the house to within eight inches of the floor. If the corn is fed shelled it should be given in a heavy litter so that the hens will have to scratch for it.

Occident Flour

Occident Flour is milled from specially selected hard wheat, ground in the world's most modern and sanitary mills.

Try Occident at our risk—if it doesn't make more and better bread, we will refund your money.

The Spring Hunting Season is On

AND MANY weary hunters are walking the streets of the city in search of that elusive game—the right place to live.

Hunting—out in the woods with dogs and gun—is good sport. But the afternoons you'd spend in looking for an available and attractive house or apartment this spring would hardly prove exhilarating.

But all the hard work of hunting has been done for you and the results are neatly tabulated in the "Apartments for Rent" and the "Houses for Rent" columns in the classified section.

Compare the descriptions in these ads—then go look over the places that sound as though they'd suit your particular needs.

Save your time and energy—turn to Classifications 74 and 77 today.
