# PUBLIC IS ADVISED TO BUY UNION GOODS

"When purchasing goods from your merchants, always ask for union label goods," urged Miss Anna Fields, of Chicago, in addressing the open mass meeting held in the high school auditorium, Friday night before union workmen.

Miss Fields stated that at a recent labor convention during a haters' strike, that among the 1,500 delegates only one-half of them were union made hats. Miss Fields urged that the 300 members of the local league become affiliated with the national organization.

"Union labor spends at least \$30,000,000 a year on strikes but if every union labor man and woman would insist on union made goods there would be no strikes," stated W. G. Shea of Louisville, Ky., of the painters and paperhangers' union.

Mr. Shea predicted that the present coal strike would end in about two months with a victory for the miners as 90,000 non-union miners are also striking.

About 100 persons were present for the meeting. J. C. McKinley presided.

# Garfield School Gets Memory Contest Picture

Presentation of the "Flower Garden" to the Garfield junior high school, winner in the junior high school group of the Famous Picture Memory contest, was made at the chapel exercises Friday afternoon. The picture was donated and painted by Mrs. Maude Kaufman Eggeneyer. Mrs. M. F. Johnson made the presentation speech which was received by Charles Rogers, a student, who responded with a speech of acceptance. Other members of the committee present were Miss Florence Williams, Miss Nellie Mawhood and Miss Caroline Heitbrink.

# Symphony Orchestra Scores Show Usage

Musical scores which have been circulated in use among orchestras of the country for about 20 years are being used by the symphony orchestra in rehearsing parts for the presentation of "Cavalleria Rusticana," with the May Festival chorus. The scores have been so remarked and so many notations pencilled on them that the notes are almost hidden from view. To make their own notations the orchestra members have had to equip themselves with erasers which are used profusely at rehearsals to make room for their own notations.

Alaska was discovered by Behring in 1741.

# RADIO CONCERTS NOW ARE "OLD STUFF" TO ONE OF CHICAGO'S YOUNG WIZARDS

Fourteen-year-old John Pringle with his home-made radio plant.

Before the present radio "craze" swept the country, John Pringle, fourteen, Chicago school boy, was doing a rushing business: giving his friends wireless concerts. Pringle charged admission fees of five and ten cents and didn't worry about war taxes. Uncle Sam did that.

Pringle has one of the best equipped radio plants in the country. And what is more he constructed it himself. The lad is a radio "wizard." In addition to building a tower in his back yard from which to suspend his aerial, Pringle went so far as to construct the batteries which he uses in his set.

The spread of the radio "craze" has reduced Pringle's income to some extent, but nevertheless he continues to experiment and improve his apparatus now considered one of the best sets in Chicago.

# WARNS RADIO FANS ABOUT FIRE HAZARDS

(By Associated Press)  
INDIANAPOLIS, April 22.—A warning to radio fans, that receiving and broadcasting instruments, must be installed according to established regulations in order not to create fire hazards, was given in a statement by Newman T. Miller state fire marshal, made public here today.

These regulations, he said are embodied in Section 36 of the national electrical code of 1920.

"Due to the increasing number of radio sets being installed throughout the state," the statement said, "the fire marshal deems it imperative that a warning be sounded. The season for electrical storms is here and the rules for safe installation should be strictly followed.

"All systems require an overhead aerial of some kind for short wave lengths this is usually inside the building, but for longer wave lengths and better results the aerials are installed outside and leads brought to instruments inside the building. Outside aerials are liable to be struck by lightning. Practically all danger from receiving stations is due to this cause, and these should therefore be safeguarded, with proper switches, lightning arresters and groundings," the statement said. Lightning losses in Indiana last year Mr. Miller said totaled \$272,577. Defective wiring Mr. Miller said often causes great fire losses.

# WIDOW OF HARRY FEE GETS POLICE PENSION

The widow of the late Harry Fee, former member of the police force, was awarded a pension of \$30 a month, and his 15 year old daughter was awarded \$8 per month pending her arrival at the age of 16 years, when the pension board met Friday. A portion of the funeral expenses were paid out of the police fund. This is the first time the pension fund has had any large demand made upon it, since it went into effect.

# These Cars Were Used— But Their True Value Remains

Our principal business is selling new motor cars. Necessarily we have acquired a number of used cars which have been traded in.

These used cars were not bartered for with the idea of selling them at a profit. They came to us merely as a part of our regular business—the sale of new cars.

The original owners of the trade-ins have naturally sacrificed something. The mere fact that the cars have been used, ever so slightly, necessitates such a sacrifice. But the real value of the car is still there unimpaired.

Consequently at the price we are able to offer them our used cars are truly a rare investment opportunity. In dollar-for-dollar value they are nothing short of remarkable.

Furthermore, when you buy a used car from us you are dealing with a responsible business concern that gives you all the facts about a car and will back up its statements.

We suggest an immediate examination of the opportunities our used car stock now offers.

We guarantee our used cars to be exactly as represented or money refunded

# FOREIGN WAR VETS OBLIGATE MEMBERS

A considerable number of new members were elected and obligated at the meeting of Genn-Lichtenfels post, No. 748, Veterans of Foreign Wars. A. E. Jenkins, post adjutant, announced that meetings will be held each Tuesday night and Sunday afternoon from now until the time of the state encampment to enable applicants to be taken in promptly. Those admitted to membership Friday evening were: James S. Johns, Lloyd E. Baker, W. E. Baker, Howard C. Huffman, Russel Cummins, Earl Brunner, Jesse D. Hoover, Ernest M. Rockhill, James M. Holmes, William H. Stevenson, Charles W. Whit-

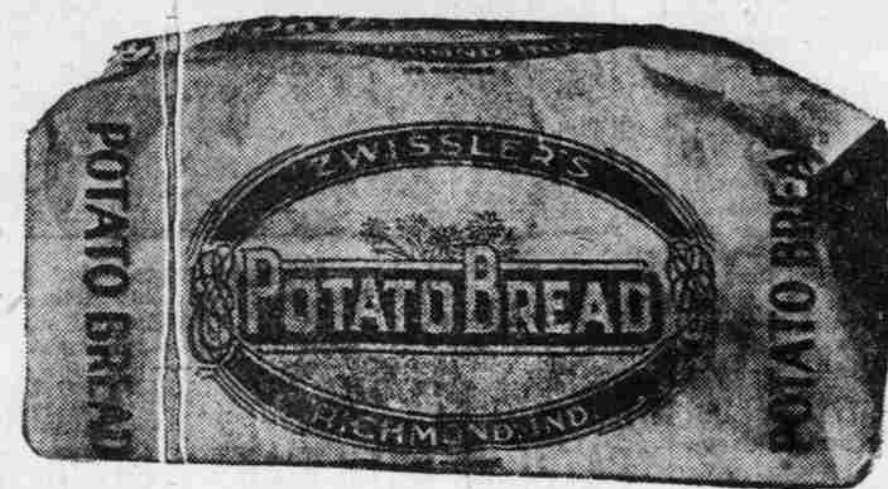

aker, Otto D. Peters, Paul W. Kring and Marshall Jack.  
"We extend the hand of comradeship to all who saw actual service in any war or campaign with a foreign foe," said A. E. Jenkins, post adjutant, Saturday. "Those who helped humble the Hun in '18, who helped stamp out insurrection in the Philippines from '98 to '06; who scaled the walled cities of China with the relief expedition in 1900 and 1901, and those who served outside the United States in the war with Germany, and her allies, the men who helped drive the brutal Hun back to his own borders in the war for Democracy, are welcomed to our organization."  
Before the war, chewing gum was practically unknown in England. Now the sale amounts to more than \$1,000,000 a year.

# FINAL "A" ORCHESTRA CONCERT APRIL 28
