

MAY SEND SWEDISH COMMISSION TO U. S. TO STUDY DRY LAWS

(By Associated Press)

STOCKHOLM, April 28.—Swedish commission may be sent to the United States to make a study of the effects of prohibition in that country and report to the Swedish people before the consultative plebiscite on prohibition to be held in Sweden next autumn.

The proposal has been made by the Central Board of the Swedish Students' Association For Absolute Prohibition. This organization is composed of students in the higher schools and in universities. They suggest that the commission shall be composed of an equal number of "wets" and "drys", the "wets" to be appointed by the newly organized National League For Temperance.

The students' organization points out the immense importance of the American experiment to the development of prohibition all over the world, stating that the Swedish people, before casting their vote on this issue, should receive reliable information concerning the general effects of the dry law in the United States.

The report to be submitted to the Swedish voters must be based on thorough study of the social, economic and cultural effects of prohibition.

It is further pointed out that reports from the United States on the effect of the dry law are extremely contradictory and an investigation by a body composed of open-minded persons selected from both ranks should gain general confidence and be of great value to the Swedish public in deciding the wet and dry issue at the polls.

Suburban

LOSANTVILLE, Ind.—Rev. Thorne and family of the M. E. church moved here Tuesday. Rev. and Mrs. Eli Cross and son attended meeting at Jonesboro Sunday, returning home Tuesday afternoon. Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her old, worn, faded things new. Even if she has never dyed before, she can put a new, rich color into shabby skirts, dresses, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods. Diamond Dyes never streak, spot, fade or run.—Advertisement.

Each package of "Diamond Dyes" contains directions so simple any woman can dye or tint her old, worn, faded things new. Even if she has never dyed before, she can put a new, rich color into shabby skirts, dresses, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods. Diamond Dyes never streak, spot, fade or run.—Advertisement.

STAG TROUSERS

THE Spring Showing of Stag Trousers is attracting a lot of attention among the men of this community. They are finding it possible to buy, at reasonable cost, trousers that look well and wear well.

We have sold Stag Trousers for a long time and know that every pair carries the guarantee of the manufacturer, that they are made of high grade material by first class workmen.

The best recommendation for Stag Trousers is, that every man who buys a pair keeps on buying them because he is satisfied.

Stop in tomorrow and look them over
