

HARDING CONSIDERS PLAN TO REORGANIZE FEDERAL MACHINERY

(By Associated Press)

WASHINGTON, May 5.—President Harding has under consideration today the proposals of the joint congressional commission on reorganization of government departments and bureaus preparatory to submission of the plans to the congressional committee which is to draft legislation to put them into effect.

Only a few questions remain to be smoothed out," according to Commissioner Smoot, Republican of Utah, a member of the commission, and the program is to be submitted to the committee.

The report was submitted to the president by Walter F. Brown of Ohio, chairman of the commission, at a conference at the White House last night, attended by the members of the body.

Other conferences are expected to be held by the executive with members of the commission and other congressmen on the reorganization proposals, which are understood to include consolidation of the war and navy department and rearrangement of several bureaus.

FINAL PREPARATIONS FOR FESTIVAL MADE

Final preparations for a great May Festival chorus are being completed with the first concert only a little over a week away. The event is absorbing the attention of the children in the schools, who are working hard to memorize every line before the performance.

Group rehearsals are being held several times a week and final rehearsals will be held next week in the tabernacle. The combined grade school orchestra will meet Monday after school in the high school auditorium and the choruses from all the schools will meet in the tabernacle Wednesday and Thursday.

The third and fourth grades meet Wednesday and the fifth and sixth Thursday after school. The huge choir loft at the tabernacle affords an opportunity for much larger choruses than have ever been heard before in Richmond, and approximately 1,500 children will take part in the performance Monday afternoon, May 15.

The large seating capacity of the tabernacle also enables the Civic Music association to lower the admission prices to 25 cents for adults and 15 cents for children. Children, however, will not be admitted unless accompanied by their parents or teachers. Teachers from grade schools will accompany all children from their respective schools who wish to attend concerts.

British Explorers Back From Isthmian Jungles

(By Associated Press)

PANAMA, May 5.—The British explorers Mitchell and Major Fitzwilliam have just returned from a trip into the San Blas and Chucunaque river country, the first white men it is said to penetrate that section of the Isthmian jungles.

They brought back with them a large collection of Indian idols and primitive weapons, also pieces of cloth woven by the natives. These objects resemble in many ways those produced by the ancient Egyptians.

Street laborers in Japan have an easy time of it. They swing their picks to an accompaniment of a song, and the slowest man is chosen for the work of setting the pace.

IF KIDNEYS AND BLADDER BOTHER

Start with Nature's Herbs and Roots to Flush Kidneys and Neutralize Acids.

Help your kidneys—don't overtax them. Lighten your diet a little; eat less meat; drink lots of water and avoid rich foods. Our bath is filled with uric acid and toxins which the kidneys strive to filter out; thus they weaken from overwork, become sluggish; thus the pores get clogged and the body full of wastes, resulting in kidney trouble or bladder weakness and eventually in Bright's Disease or Bright's Gravel. If you have the slightest pain in the kidney region, don't neglect it or delay; flush your kidneys with this normal activity. Our bath is PRESCRIPTION NO. 777 which the kidneys strive to filter out; thus they weaken from overwork, become sluggish; thus the pores get clogged and the body full of wastes, resulting in kidney trouble or bladder weakness and eventually in Bright's Disease or Bright's Gravel. If you have the slightest pain in the kidney region, don't neglect it or delay; flush your kidneys with this normal activity. Our bath is PRESCRIPTION NO. 777 which the kidneys strive to filter out; thus they weaken from overwork, become sluggish; thus the pores get clogged and the body full of wastes, resulting in kidney trouble or bladder weakness and eventually in Bright's Disease or Bright's Gravel. If you have the slightest pain in the kidney region, don't neglect it or delay; flush your kidneys with this normal activity. Our bath is PRESCRIPTION NO. 777 which the kidneys strive to filter out; thus they weaken from overwork, become sluggish; thus the pores get clogged and the body full of wastes, resulting in kidney trouble or bladder weakness and eventually in Bright's Disease or Bright's Gravel. If you have the slightest pain in the kidney region, don't neglect it or delay; flush your kidneys with this normal activity. Our bath is PRESCRIPTION NO. 777 which the kidneys strive to filter out; thus they weaken from overwork, become sluggish; thus the pores get clogged and the body full of wastes, resulting in kidney trouble or bladder weakness and eventually in Bright's Disease or Bright's Gravel. If you have the slightest pain in the kidney region, don't neglect it or delay; flush your kidneys with this normal activity. Our bath is PRESCRIPTION NO. 777 which the kidneys strive to filter out; thus they weaken from overwork, become sluggish; thus the pores get clogged and the body full of wastes, resulting in kidney trouble or bladder weakness and eventually in Bright's Disease or Bright's Gravel.
