## GRAIN PRICES

(Markets by E. F. Leland & Company, 212 Union National Bank Building)  
CHICAGO, May 22.—Wheat showed moderate strength early with liquidation coming later, and at inside figures May was off 4 cents. There was little support to the market aside from that coming from shorts and a few local professionals who looked for a rally after the recent decline. Big receipts in all positions, more favorable weather, lower cash and lack of export demand and weakness in foreign markets were the bearish factors. There was some buying early on expectation of big decrease in the visible but when the figures were posted they did not show as big as was expected. Late covering of shorts resulted in a good recovery. Cash 1 to 3 cents lower.

Corn—Although corn slumped with wheat, there was a good recovery in the late session. The big decline in the visible had practically no effect; planting is progressing rapidly and is nearing completion in Missouri and Iowa. Export demand very slow; cash one cent lower.

Oats were weak up to half an hour of the close, when there was a rally which retrieved all of the early losses and brought about a very firm close. Receipts are running large; cash quotations 1 to 1 1/2 cents lower.

**RANGE OF FUTURES**  
(Markets by E. F. Leland & Company, 212 Union National Bank Building)  
CHICAGO, May 22.—Following is the range of futures on Chicago Board of Trade today:
