Milk Is a Perfect Food

There is no substitute for it. Save on other things if you must, but do not stint yourself or your family, particularly your children, where milk is concerned.

A meal of milk contains the same nourishment as meal made up of meat and eggs, sugar and cereals, oils and fats, with salt and water.

Milk contains the fuel needed by the body. It contains the lime so essential to building bone. Children must have milk—adults should have at least half a pint a day.

But in milk there may lurk dirt, disease and death. You cannot tell good milk from bad milk by looking at it, by tasting it or smelling it. But you can learn to protect your family by securing the new free booklet "All About Milk."

Our Washington Information Bureau will send a copy of this booklet free to anyone who fills out and mails the coupon below, accompanied by two cents in stamps for return postage. Be sure to write your name and address clearly.

(Do not send the coupon to The Palladium. Mail it direct to Washington, D. C.)
