OUTSIDE INTERFERENCE
[From The Bits, London]
"Mummy," asked Muriel, indignantly, "did you hear what auntie said to me?"
"Yes, dear," was the reply.
"Well, mummy," shrilled the little maid, rebelliously, "I'm not going to be brought up by another woman."

WITHIN REASON
Just as the guards were leading his client away, the lawyer stopped and shook hands sadly with the recent defendant.
"I'm sorry I couldn't do more for you, old man," he apologized.
"Don't mention it, sir," replied the prisoner, politely. "Ain't five years enough?"—American Legion Weekly.

Report 35 Additions

At Second Presbyterian

With 35 new members of the church and numerous applications made, the Second Presbyterian church Wednesday night began a series of special meetings as a follow-up campaign for the Billy Sunday meetings.

Thursday night at 7:30 o'clock the pastor of the church, Rev. Harry Sarkiss, will speak on the subject, "The Narrowness of Jesus."

"The fine sentiments of human life will not develop vitality," he said Wednesday night, "if those sentiments remain forever concealed and unexpressed. We are judged by what we do, either in word or action."

RAPID DEMOLITION OF FOREST WEALTH OCCUPIES SESSION

(By Associated Press)
SYDNEY, N. S. W., June 8.—The rapid demolition of Australia's forest wealth occupied the attention of the Australian Forestry conference, sitting in Brisbane, and plans were discussed to launch a campaign to curb what was styled "the wanton destruction of timber by mill and fire."

"There is a popular delusion that Australia has untold riches in her forests, but the contrary is the case," one speaker said. "A long course of improvident conduct has reduced our forests to 1-25 of our total area, and our permanent reserves to one-hundredth of the total area. India, with an area one-third that of Australia, has a population 125 times as large, has one-tenth of its total area reserved for forests and one fourth of the area under forests."

"A deplorable instance of the disregard for forest wealth and forest beauty in Australia is to be found in the Acherson valley in Victoria, once one of the most beautiful tourist attractions, but now a scene of desolation because of the operations of saw-millers, whose one object was to clear the country of its timber quickly and thoroughly."

The conference adopted a resolution urging that "frequent inspections by skilled foresters, protected from the interference of politicians," are necessary to preserve the forests.

ICE
is only
74
10000
of cost of living

A small item but very important
THE cost of ice in the average family is a very small fraction of the cost of living. An investigation made by Dr. Wm. E. Marsh, of the Bureau of Municipal Research, New York City, showed that ice is only 74/10,000 of the cost of living in an average family.
Without ice, food bills would double in warm weather, the spoilage would be so great; and health would be endangered.
Many people waste both food and ice by using too little of the latter. Their refrigerator may be too small, or they may let the ice get too low. That is false economy. A full ice chamber in a good sized ice box will save you money.
