PRAISES RICHMOND HOUSING CONDITIONS; OFFICIALS REPORT

"The housing division of the Indiana state board of health is well pleased with the reports that have been sent in by Dr. C. E. Duffin," said Albert E. Wert, assistant director of the bureau, addressing members of the mayor's cabinet, late Thursday. Dr. Wert visited this city in the course of an inspection tour being made of the state.

"I am making my stay here very short because of this fact," continued the commissioner. "We are well pleased with the work he is doing and are satisfied that conditions here can be handled by him, if he is given the proper backing."

Dr. Wert took occasion to condemn the men who own a large amount of property, and are unwilling to spend anything to improve it. He said landlords of this type should be compelled to put in improvements, and the cost should be assessed against them if they refused to do the work voluntarily.

Reports from various department heads were received by the mayor. The report of the fire chief showed that 12 fires had been put out in May, and with a loss of \$16,300. Eighty-two gallons of chemicals were used, and 3,750 feet of hose.

Reports of the meat inspector, sanitary inspector, building inspector and chief of police were received. The chief of police asked that some form of alarm be purchased to put on the police car as the public is slow in getting out of the way at the present time.

To Meet Earlier.
Cabinet meetings will be held from 11 to 12 o'clock on the second Thursday in each month hereafter, instead of at 3 o'clock in the afternoon, as a result of a motion passed Thursday.

The motion was made by Walker E. Land, president of the board of works. Department heads were warned by Mr. Land Thursday that they should be preparing estimates for the budget which is to be made up in about two months.

Work of oiling streets would have been started Thursday morning, according to Dell B. Davis, city engineer, but the streets were wet from the recent rains.

A white line to regulate traffic at Ninth and South E streets, will be painted on the paving by the street department. The line is necessary in order to prevent traffic from cutting corners too much.

Building permits issued during the month of May, for new work, numbered 40, according to the report of J. Ed Higgs, building inspector. Seventeen remodeling and repairing jobs were given permits and 26 wiring and four heating permits were issued. Cost of new work for the month of May was estimated at \$70,050, remodeling and repairing work \$10,400, while fees collected for new work were \$148.60. Fees for remodeling and repairing amounted to \$26.95, for wiring \$17.50, heating \$2. Inspections of new work numbered 123.

Seventy-six permits to sell milk were issued by the milk inspector, four were rejected and 22 milk houses were revisited.

The meat inspector, Edward Elstro, reported 254 hogs, 101 cattle and 73 calves slaughtered during the month.

W. W. Keen, sanitary inspector, reported 23 houses carded, three disinfected and 107 sanitary calls made.

Club members are advised to keep close records, although this is not compulsory. However, special prizes are offered for those who do. Other prizes which may be won also are enumerated in the letter.
