

DISCUSS GIVING BAND CONCERTS IN VARIOUS PARKS THIS SUMMER

Concerts to be given in the various parks of the city one night each week during the summer season, were discussed as a possibility at a special meeting of the board of works and the city council, held in the city hall Friday evening. The object of the concerts, according to one member of a special committee appointed Friday evening to handle the matter, is to make the parks popular and to give the people something in the way of outdoor amusement.

Funds for the concerts are to be raised by popular subscription, the money to be collected at the various stores, according to the plans laid Friday evening.

Joseph L. Waltermann, Harry Stillinger, George C. Steinkamp, and Frank Waldeide were named on the committee. One concert is to be given in each ward of the city, it was stated.

Will Place Banks

Miniature banks, to be placed in various well known business houses in the city, will be the receptacles for the contributions of those citizens who wish to contribute to the concert funds.

Concerts will start at Glen Miller park one week from Sunday. Bids are to be received Monday.

The meeting of the council and the board of works was held at the city hall for the purpose of discussing insurance rates on city property. In addition, accident insurance is to be carried on the workers in the light plant in accordance with a plan worked out by Superintendent D. C. Hess. Educational work, in the way of pointing out the various dangerous practices at the city plant, has been carried on under his direction for some time.

MILDRED WHITELY EXCELS IN RECITAL

The superiority of the performance of Miss Mildred Whitely in the recital given Friday evening in the auditorium of Morton high school by pupils of Miss Cecelia D. Lebert was unquestioned. Miss Whitely possessed the grace and skill of an accomplished pianist and charmed her auditors with her facile and masterful control of the instrument.

The playing of Miss Vera Kinet also was of unusual quality, displaying excellent poise and more than usual appreciation of her composition. Several other numbers, especially those in which two pianos were used, also are deserving of mention for the skill of the players in working in co-ordination on difficult passages.

Miss Gertrude Williams, soprano, who assisted with the program last evening, possesses a full, sweet voice, well sustained and of good volume and sympathetic color.

The performances of the intermediate pupils Thursday evening were very creditable and well received. Miss Charlotte Colvin, who assisted, showed talent in her appreciative use of her violin.

The capture was revealed today by officers of the Union Pacific railroad. Brown was known here as the "Omaha chain bandit" since he restrained two women in chains recently in Omaha.

He was traveling through the wild Medicine Bow country in a stolen automobile. He was trying to get out of the mud when the posse came upon him. Leaping from their car, the pursuers covered Brown and ordered him to stand in the open. He sprinted toward the rock and was shot above the heart.

SPECULATION IS RIFE ON EFFECT OF ACTION IN BLAIR-DOVER FUSS

WASHINGTON, June 17.—Speculation was rife today as to what effect the memorial to President Harding by members of the house, upholding the efforts of Assistant Secretary Dover of the treasury department, to reorganize the internal revenue bureau, might have upon the outcome of his controversy with Commissioner Blair, who opposed the reorganization plan.

The memorial which came to light yesterday at the same time that another document, later characterized as "false," by Secretary Mellon, was circulated anonymously among members of congress, charging that key positions in the treasury were largely held by Democrats, had not been presented to the president today, and there was no indication of any definite plans for its presentation.

In a statement endorsed by President Harding, Secretary Mellon yesterday characterized as "false" and "the product of selfishly ambitious employees and some discredited former employees" the document circulated with the memorial and which listed almost 150 officers as key positions said to be held by Democrats, many of whom it was charged were disloyal to the present administration.

The treasury secretary's statement asserted that the administration of the treasury was in the hands of Republicans and "governed by Republican policies" and that where Democrats had been held in office it was "because of their qualifications."

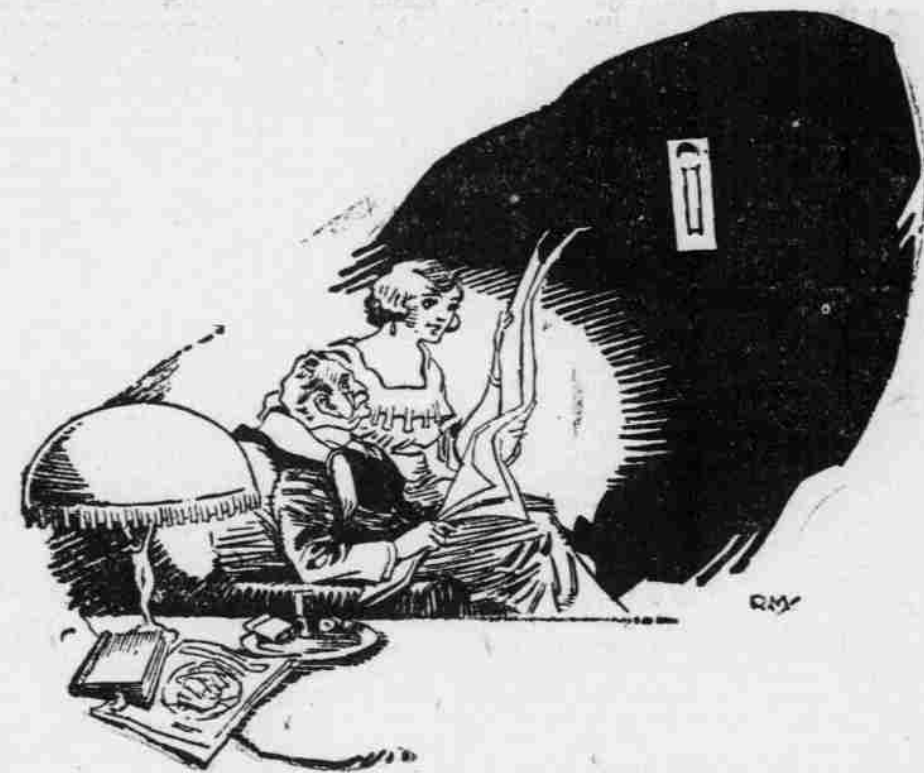

Mr. Blair still declined to discuss the memorial to the president or the treasury situation today and Mr. Dover had not returned from New York.

Monkeys Threatened With Extermination

(By Associated Press)

WASHINGTON, June 17.—Fashion's demand for monkey fur threatens the extermination of Abyssinian monkeys, according to a report to the commerce department today from Aden, Arabia. The dictates of fashion, particularly in Paris, the report said, have made a strong demand for black and white Abyssinian monkey skins to be used for trimmings and as a result the mortality is high among that variety of the species and shows no tendency of abatement. The supply of skins is very limited, it was added, and not more than 15,000 or 20,000 can be obtained in a year without exterminating the monkey.

The Evening Advertisement

THE morning may be a good time to practice on the piano, but it isn't the time when people lean back and enjoy music, or wish that they could lean back and enjoy it.

Morning is the period for that phase of music which is work; evening is the time for that phase which is pleasure.

In the evening, with the man of house here, the woman of the house there, the daughter of the house on this side of the table, and the son of the house on that---that's the time somebody says: "I wish we had a piano or a phonograph!"---and the next step is to get the advertisements in the evening paper and talk them over.

So, if your advertisement is one that invites consideration and discussion, you naturally place it in the evening paper.
