

CITY TO ASK APPEAL OF RULING AWARDING LAND-DILKS DAMAGES

Motion to appeal the Land-Dilks damage suit decision, which set the amount of damages to be paid by the city at \$2,000, will be filed as the result of council action Monday. The city was sued by the company for damages alleged to have resulted from a defective sewer which allowed the basement of the plant to become flooded.

The company asked \$5,000 damages and after a trial lasting several days the jury awarded the company \$2,000. Council voted unanimously to appeal the case, on recommendation of the city attorney.

Despite the assertion of Frank Waidele, councilman from the seventh ward, that business men of the city were losing business because of the operation of the daylight saving plan, council voted to continue the ordinance at the meeting Monday evening. John E. White, Frank Benn and Harry Stillinger voted with Waidele for the repeal of the measure.

"Daylight saving works a hardship on the working man, who loses an hour of sleep in the coolest part of the morning," said Mr. Waidele. "Some of the business men of the town have told me they are losing the trade of their out-of-town customers because of the operation of this plan."

Claims Opposition
Frank Benn also manifested active opposition to the plan. "Some families in the city are going by both times," he said. "That means they must have two sets of meals, one for workers following the old and one for those following the new time. All over the city are families split up in this way."

Council voted against the repeal of the measure six to four. The vote stood: For repeal, Benn, White, Stillinger, Waidele; against repeal, Fahlberg, Salzrulo, Steinbamp, Strate, Wautermann, Williams.

Acting largely upon the insistence of Councilman Wautermann, who said conditions required immediate action, council passed an appropriation of \$576 to install a lighting system in South Seventh street park. An ordinance appropriating money for a truck for the Municipal Light plant and the trading in of an old truck was also passed.

Restore Police Fund.

It will no longer be necessary for persons or firms holding bills against the city police departments to wait for council to "take action" before they are paid. Council passed the \$1,700 appropriation which restored the police fund to its former state of affluence, Monday evening. The fund had been empty for two weeks.

Amendments to the traffic ordinance, brought in by the ordinance committee, were discussed and ordered incorporated into the body of the measure which comes up for reading at a later meeting.

Action to have the alley between North Thirteenth and Fourteenth streets paved, a matter which had been brought before council, was delayed indefinitely. Objection to paving the alley was expressed by some property holders because, they said, they could not pay for it at that time.

Council also decided to allow the question of paving the alley between South Seventeenth and Eighteenth streets to take its usual course. A remonstrance had been filed against the improvement and the matter had been referred to the council by the board of works. The ordinance has two more readings before action will be taken.

Another measure which council decided not to hurry was that of excluding carnivals from the city. An ordinance providing for this was introduced and given first reading. It absolutely forbids the showing of any carnival within the city limits, and the use of advertising in the city for any carnival showing within two miles of the city.

An ordinance regulating the activities of hawkers, and establishing their location in the future to South Fourth street was passed through the second reading. A resolution was passed instructing the court to appoint appraisers for the truck to be traded in by the light plant.

**These Twin
Babies escaped
Chafing, Rashes and Skin Irritation
by use of Sykes Comfort Powder**

Grand Rapids, Mich. — These twin babies have been under my care since birth. Not a day has passed without the use of Sykes Comfort Powder. They have a beautiful skin and have never had any chafing, rashes, scalding, prickly heat from which so many babies suffer. I wish every mother could know about Sykes Comfort Powder. — Nettie C. Lavan, R. N., Grand Rapids, Mich. The reason Sykes Comfort Powder is successful in such cases is because it contains six healing, antiseptic ingredients not found in ordinary talcums.

Hold SELF-CONFESSED AUTOMOBILE THIEVES

Capture of Ralph Culbertson, 18 years old, and Howard Davis, 17 years old, self confessed members of a gang of automobile thieves which had just started operations in this city, was reported by the police late Monday evening. Both Culbertson and Davis signed confessions in which they admitted having helped Elmer Hickey, a third member of the group, steal cars.

Charges will be filed against Culbertson and Davis in circuit court.

In his confession, Davis states that while Hickey was in jail for stealing a touring car from Eaton, Davis stole the car from Hickey, and drove it south of town, ditching it near the Test bridge. Other cars stolen by the trio were a small sedan from E. Clayton, a small touring car from Karl Wolfe and a roadster from A. Munbauer.

Hickey went to the penal farm Monday. Statements made by him led to the arrest of Davis and Culbertson.

**Indianapolis Trust Company
Buys \$240,000 Bond Issue**

Sale of the \$240,000 bond issue to the City Trust company of Indianapolis at a premium of \$1,057 was announced by the city school board after opening of bids on the bonds late Monday. The bonds bear four and one-half per cent interest.

The money derived from sale of the bonds will be used to erect the new east side junior high school.

Screen stars can show the punching ability that Mr. Tearable does. He is a finely developed figure of a man in the ring, and on top of his physical prowess there is his already well known and widely acclaimed acting ability.
