## FOUR FINED \$100 ON LIQUOR CHARGES

Four fines of \$100 and costs, with suspended sentences of 60 days on the penal farm, were assessed in police court Wednesday morning as a result of police activities Tuesday night.

Frank Y. Thomas and Simon Atwell were fined as the result of a raid made at "Corneob college," south of Pennville, when Sheriff Wadman, Chief Eversman, Probation Enforcer, Sheriff Officer Mulrove and Officer McNally seized a still and 20 gallons of mash, besides some "white mulle."

The stills and the mash were in different houses, the stills being boarded up under a stairway on the Thomas place.

Officer Clesie Kendall and his keen nose furnished the other two recipients of fines.

John Mills and Orben Stalzer were in a car standing at Fifth and Main when Kendall smelled the liquor. The men when arrested claimed that they had secured the liquor in Dayton.

The cork had come out of the bottle and had spilled the stuff on Mills' shirt, it was said.

## OBTAIN NO CLUE TO ABNER'S WHEREABOUTS

Police officers are still without any clue as to the whereabouts of Taylor Abner, who suddenly disappeared Saturday noon, leaving his automobile parked behind the Himes Brothers dairy.

No cause for his disappearance could be found by the police, or surmised by Mrs. Abner. His wife said, however, that he did seem nervous and said that he was going to drive to Fairfield.

The description which was given to the police says that he was 37 years of age, 5 feet 6 inches tall, and weighed 133 pounds. He had light brown hair, and was slightly bald. He has a small blue mark on his cheek bone. Four children make up the family, which was left without support by Abner's disappearance.

## FUNK'S LAKE TRACK BEING MADE FASTER, SAFER BY CHANGES

WINCHESTER, Ind., July 19.—The Funk's Lake Speedway, west of this city, is undergoing extensive improvements. Plans are being worked out for making the local track much faster and safer. It is thought that when the improvements are made cars will be able to turn the track at a speed of 90 miles an hour. The local track is already one of the fastest half-mile dirt tracks in the country.

The plans call for raising the outside edge of the track several feet in some places and the construction of a concrete retaining wall completely around the outside edge of the track. A new circular stand will be erected, which will seat more than 3,000 people. The stand will be high enough so that the entire track may be seen from any seat in the stand.

Pits are to be built in front of the main grand stand on the inside of the track for the convenience of drivers and mechanics. An electrical timing apparatus will be installed, also. Racing fans all over the country are showing a marked interest in this track.

The purse for the Labor day race calls for \$1,000 first prize. The Labor day race is for 100 miles, a new feature for this track. The September race promises to be the biggest ever held at the speedway.

## Propose Bounty Awarded Local Potash Producers

As a substitute for the potash tariff which has met with strong opposition from agricultural interests, it is now proposed to award a bounty to local potash producers, thus escaping the probability of taxing the farmer by higher prices and at the same time allow sufficient financial inducement to foster native potash development. Dr. Jacob Lipman, director of the New Jersey state agricultural college, is enthusiastically supporting the bounty proposal.

"Local potash deposits must be developed," says Dr. Lipman. "We have the plants and should use them, and as we progress and make use of the many by-products of our beds, the potash can be produced at an ever decreasing cost. We have inexhaustible deposits, enough in the green sands of New Jersey to supply the country for hundreds of years."

Elliott will be present at the meeting to make a short talk and to assist in the organization of the club and encourage its extension throughout the county.
