

## 300 MEN AND WOMEN ARRESTED IN FLINT IN RUM JOINT RAIDS

(By Associated Press)  
FLINT, Mich., July 28.—More than 300 men and women were slated for appearance in police court today, the result of raids last night on every place in the city suspected of violating the liquor laws.

The wholesale cleanup was ordered by Mayor McKeighan, after detectives had made a quiet survey of conditions here and turned over to officers supervising the raid, a complete directory of suspected saloons, poolhalls and resorts.

The raids were conducted chiefly in the Fairview district, in the northern part of the city. The entire police force as well as hundreds of reserves participated.

The city jail was filled early last night and the later arrivals were taken directly to the courtrooms, where they were assigned seats and guarded through the night for the opening of court this morning.

A clean-up of the city was decided upon recently by the council following complaints from residents of Fairview that the prohibition law was being violated. The success of the raids was attributed by city officials to the secret work of the police department and the elaborate preparations and the precision with which the officers had worked.

## Officials Are Appointed To Boost Foreign Trade

(By Associated Press)  
WASHINGTON, July 28.—Assignment of Trade Commissioner John A. Fowler, of San Francisco, to Manila, for the promotion of American trade in the territory comprising French Indo-China, Siam, British Malaya, Dutch East Indies and the Philippine Islands, was announced today by Secretary Hoover.

Accompanied by Assistant Trade Commissioner E. B. George, of Pittsburgh, he will sail for Manila early in October and will immediately make a tour of inspection of the countries under his supervision. He is to inaugurate a new cable report service to the commerce department in co-operation with consuls at Saigon, Bangkok, Singapore and Batavia, starting on Jan. 1.

Mr. Hoover also announced the appointment of Osborn S. Watson, of

Blanchester, Ga., as an assistant trade commissioner assigned to Canton, China, where he is to establish a new office for the bureau of foreign and domestic commerce.

## Republicans to Discuss Activities of Women

Members of the Wayne county Republican club will meet in the office of Benjamin Ball, secretary of the club, at 8 o'clock Friday evening to discuss the part women are to play in the coming campaign. Ratification of the nomination of three vice-presidents for the organization will be undertaken at the meeting.

## COMMISSIONERS

(Continued from Page One.)

to go to the county at their death without restriction. The county board then appointed a hospital board, made up of myself as president, with Dr. L. F. Ross, of this city, and Dr. O. N. Huff of Fountain City, and Jesse Druley, of Boston.

"This board was without power to act until the hospital was built and turned over to it by the county. The board of county commissioners took charge of the fund and has spent a considerable amount of money on improvements.

"The first question facing the board was that of getting an adequate water supply. Three wells were put down on the farm without satisfactory results. Finally, water was located across the road on some land belonging to Clark Crowe, opposite the Smith residence.

"Land Is Purchased  
"The county purchased this land of Crowe, with a strip on the side of the hill opposite, where the superintendent's cottage was erected. The board also caused the barn to be moved back to the north and remodeled. A patch of timber on the west side of the farm was cut off and sold.

Jesse Druley, resigning from the board after the first year, was succeeded by William Scaney, who was appointed by the board of county commissioners. Dr. W. L. Misener was substituted for Dr. Ross. Plans were prepared for a hospital building, and as far as the board is concerned it is ready to start construction work.

"When the matter was brought up before the county council for action, that body declined to make the necessary appropriations although it had been making them up to that time for various improvements. The hospital board has never been able to do anything except consult with the county commissioners. It cannot function until the hospital has been built by the county and turned over to it."

**RUB-NO-MORE  
SOAP FLAKES**  
Are the perfect combination of soap and suds. There is no lathering and no rinsing for you. No boiling is necessary. No lather or suds are necessary. Rub-No-More Soap Flakes will not burn or fade any fabric that water will not burn or fade. Use it for washing your hands, face and clothes.

## Called by Death

WILL S. JENNINGS

EATON, Ohio, July 28.—Will S. Jennings, 45 years old, of Indianapolis, died Wednesday night in Hamilton, in Mercy hospital, and the body was brought to Eaton to the home of his sister, Mrs. John W. Cook, for funeral and burial. Services will be conducted Saturday afternoon at 3 o'clock in the Cook home, followed by burial in Monroe cemetery, near Eldorado.

Mr. Jennings was taken ill in Hamilton while in the city on business and was removed to the hospital on the Monday preceding his death. He was a special feature writer for the Indiana Farmers' Guide, farm publication. He was born in Preble county, on a farm, a son of the late Mr. and Mrs. Clark Jennings, and later lived in Eaton. He was a graduate of the Eaton schools and of Ohio State university. For a time he taught school. He was a member of the Masonic fraternity.

Surviving him are a son, two sisters, Mrs. Cook and Miss Elma Jennings, of Indianapolis, and a brother, Lee Jennings, of Hudson. His wife died 10 years ago and the body rests in Monroe cemetery.

## 60-DAY COAL SUPPLY AT ELECTRIC PLANT

In a circular letter addressed to all power users, the Municipal Light and Power plant assures its patrons that enough coal is on hand to insure operation of the plant for approximately 60 days. The letter follows:

"In these days of uncertainty, due to strikes, when the papers are full of accounts of industries having to shut down because of lack of coal and transportation facilities, I thought you might appreciate receiving a letter from your service company which would at least be inclined toward encouragement.

"We have at the present time sufficient coal on hand to operate our plant under normal conditions, for approximately 60 days. In addition to this we have enroute approximately 15 days' supply. There is some question as to whether we will be able to get all of the coal that is enroute as we are afraid the government will see fit to divert this coal for railroad use. However, I wish to assure you that everything possible is being done to effect delivery.

"It is our purpose to work with our customers for mutual benefit and we will keep you advised during the present emergency so that it will be possible for you to plan your business in so far as our power affects it.

"Yours very truly,  
"Municipal Electric Light and Power Plant.  
"D. C. Hess, Manager."

**FARMERS ENJOY PICNIC**  
SHELBYVILLE, Ind., July 28.—Directors of the Shelby county farm bureau, with their families, held a picnic at Walnut Grove, on the Hal Gray farm, northwest of Shelbyville, Thursday. Mr. Gray is one of the directors.

## OHIOAN NAMED ASSISTANT U. S. BUDGET CHIEF

Judge Walter W. Warwick.

Judge Walter W. Warwick, former comptroller of the currency, again is on the job in Washington. He has just been named assistant to Brigadier General Lord, director of the government budget bureau.

## A. Bruce Bielaski Held As "Guest" In Mexico; Piqued at Turn of Events

(By Associated Press)

MEXICO CITY, July 28.—A. Bruce Bielaski and Mrs. Bielaski are still "guests" of George Summerlin, American charge d'affaires at the American embassy, where they are awaiting developments in the recent kidnapping case at Cuernavaca, which may or may not mean their detention in connection with charges of self-induction. Up to late last night no word had been received from Cuernavaca relative to anticipated action by the court there which was to determine their course of action. Mr. Bielaski's business shadowed Mr. Bielaski day and the Cuernavaca court has been properly advised of his intentions. He has made all preparations to leave for Laredo tonight.

It is considered barely possible that the former American department of justice officials may invoke amparo proceedings in order to free himself of the restraint imposed by the Cuernavaca court in ordering him to remain with the confines of Mexico City. The military and police secret agents who since the kidnapping incident have shadowed Mr. Bielaski day and night, returned to their labors yesterday following a few hours of relaxation the day before. They now are stationed close to the gate of the American embassy.

For the first time since the incident, Mr. Bielaski today appeared piqued at the turn of affairs which hitherto he had treated more or less

as a joke. He insists that unless he was legally restrained he was prepared to depart for the United States at the earliest possible moment. It was pointed out at the embassy that Mr. and Mrs. Bielaski were not in asylum there and that if a demand for their surrender is made they must be turned over to the proper authorities.

## CUBA MUST SOLVE FINANCES, CROWDER

HAVANA, Cuba, July 28.—Included in the list of 27 special treasury funds exceeding \$9,000,000 which Representative Bartolome Sagaro alleged yesterday in a denunciation of the supreme court had disappeared from the national treasury, are postal money orders aggregating \$1,820,077, port works funds totalling \$2,254,140 and civil retirement funds amounting to \$2,370,428 it was disclosed today.

Copies of Representative Sargaro's charges have been furnished to Major General S. E. Crowder, special American representative in Cuba, who was quoted in a memorandum made public in part by the state department upon the financial measures taken by the executive and legislative branches in Cuban government.

The United States must be reasonably sure, the memorandum set forth that it would not have to act under the permanent treaty and the Cuban constitution to obtain prompt payment of interest and amortization of the proposed new loan or existing loans. It was evident, the memorandum added, that the Washington government's confidence that it would not have to perform such a disagreeable duty must proceed from the means which must be adopted by the legislative and executive branches of the Cuban government.

It was believed this portion of the Crowder memorandum was made public to set at rest attributed to the

state department, that Gen. Crowder had decided to abandon his mission as special representative in Cuba of President Harding if his suggestions were flouted.

**WILL RECEIVE BIDS  
FOR SCHOOL EQUIPMENT**  
CONNEERSVILLE, Ind., July 28.—Bids will be received during the second week in August, for electric lighting plants for Posey and Waterloo township school buildings. Lewis Rayl will receive bids Aug. 12 for the plants for the township school and community hall, in Bentonville. Forest Caldwell will receive bids for the Waterloo township plant Aug. 7.

## Senator Poindexter Opens Campaign For Re-election

(By Associated Press)  
TACOMA, Wash., July 28.—United States Senator Miles C. Poindexter opened his campaign for re-election here last night, with an address in a local theatre.

A reiteration of the impossibility of any pressure influencing his vote in the senate and his belief in the right of the working man to work or to quit "without interference from other workers," was the keynote of his address.

Street car conductors in Stockholm sell hatpin protectors for 1 cent each to all women who wish to buy.
