

TOGOLAND NATIVES ARE RACE OF LIARS, REPORT INDICATES

(By Associated Press)
LONDON, July 29.—The natives of Togoland are a race of liars, says an official report on that British mandated sphere in Africa, which was taken over from Germany. The report has just been issued as a "White Paper." Togoland was at one time a German colonial possession in West Africa, and has a population of 900,000. "The natives have no letters, arts or science," says the report. "Concealment of design is the first element of safety, and as this axiom has been consistently carried out for generations of the native character is strongly marked by duplicity. Even in matters of little moment it is rare for them to speak the truth. "They are unstable of purpose, dominated by impulse, unable to realize the future and restrain present desire, callously indifferent to suffering in others, but profuse in pretension of affection and good intention, afterwards woefully belied by actions. "The native is attracted irresistibly by noise and uproarious gaiety; he loves music, rhythmic sound and motion, and has pronounced aversion to silence and solitude, and excessive excitability and utter lack of reserve. "There are no specific grounds for divorce," continues the report. "The mere disinclination of one of the parties to continue the union being sufficient to warrant its being dissolved. Moral laxness is not unprevailing."

Suburban

NEW PARIS, Ohio.—Mr. and Mrs. W. H. Wisman returned Saturday noon from an automobile trip of 184 miles through Pennsylvania, where they visited relatives and visited also many points of historical interest. A Free Canning Booklet

There are certain essentials for the successful canning of fruits or vegetables.

These include clean, fresh materials, perfect containers, with good rubber rings if used, heating for sufficient time to insure preservation, and airtight sealing.

These essentials must be secured in any method of canning. The details of procedure may differ, yet all have as their object the prevention of spoilage.

The Department of Agriculture has issued a revised booklet explaining in detail the proper methods of home canning.

This booklet also gives recipes for preserves, jams, jellies, conserves and marmalades.

It is a free Government publication and our Washington Information Bureau will secure a copy for any reader who fills out and mails the coupon below. Enclose two cents in stamps for return postage. Be sure to write your name and address clearly.

(Do not send the coupon to The Palladium. Mail it direct to Washington, D. C.)

AMBASSADOR HERRICK WANTS HER IN LEGATION WORK.

Miss Lucille Atcherson, the subject of this photograph, is the first woman permitted to apply for position "on carrier" in the American diplomatic service. The post in the service leads to that of Minister of the Legation. She is a Columbus, Ohio, girl, who served in France with the American Committee for Devastated France.

FUNDAMENTAL CHANGE IN SPIRIT OF SOCIAL LIFE IS ADVOCATED

(By Associated Press)
CHICAGO, July 29.—A fundamental change "in the spirit and working of industrial life" is necessary to restore the world peace and order, according to a declaration of the social service principles which has been adopted by the National Council of the Episcopal church. The declaration has been recommended for adoption as the fixed policy of the church by the Episcopal General Convention, which will meet at Portland, Ore., Sept. 6. The fundamental change proposed can only be effected, according to the declaration, "by accepting as the basis of all our relations the principle of co-operation in service for the common good, in place of unrestricted competition for private or sectional advantages."

A definition of the meaning of social service, and the platform embodying that definition, were adopted at a recent meeting of the department of christian social service of the national council, and by that body referred to the national council, which has now given them its endorsement with the recommendation that they approved by the national church.

Approximately 4,750,000 tons of wheat feeds are annually produced by flour mills in the United States. It would require 237,500 twenty-ton cars or a train about 1,800 miles long to transport this material.

Vibrationless Motor Will Be Shown Here

Amazing New Engine that Revolutionizes Motoring to be Exhibited in Richmond.

The long-sought vibrationless automobile engine has at last become a reality. Velle engineers have built it. The proof is the performance of the engine itself, and L. V. Rowley, representing the Velle Motors Corporation of Moline, Ill., is bringing the proof to this city.

For six days, beginning Monday, July 31, Mr. Rowley will publicly exhibit in Richmond the new, vibrationless Dyna-Motor power-plant—talk of all the automobile shows.

The perfection of this marvelous engine by Velle engineers opens up a new era in motoring.

With gears in neutral and throttle wide open, this new motor simply purrs like a dynamo on a concrete base. Put your hand on this racing motor and you can not detect the slightest tremor. Standing beside the hood, you can converse without raising the voice. Drive it up to forty miles an hour in second gear and you can not feel a quiver of vibration.

The people of Richmond and nearby points who are interested in motoring, as well as auto dealers and garage men, are invited to see these things, and many others that are equally astonishing, during the big six-day Dyna-Motor exhibition in Richmond at 5 North Tenth street, Westcott hotel building. No dealer has been appointed for this territory as yet. Exhibit open daily and evenings.—Advertisement.
