

COUNTY CHRISTIANS HOLD BIG MEETING AT BEECHWOOD PARK

Approximately 1,000 persons representing the Christian churches of Wayne county participated in the annual county Christian church gathering, held at Beechwood park Sunday.

Roy Copeland, superintendent of the Cambridge City Christian church, supervised the Sunday school service at 10 o'clock, with the Rev. F. C. McCormick, of Milton, in charge of the communion service, which immediately followed.

The sermon by the Rev. Roy L. Brown, of Bethel, given in the afternoon, was a feature of the great all-day meeting. "The World's Need of the Old Testament Gospel" was the theme upon which the Rev. Brown spoke.

Musical Selections

Musical numbers at both morning and afternoon sessions were given under the supervision of Mrs. W. G. McVay, of Richmond. In the morning Mrs. Ruth Harris Rudecil, of Fountain City, daughter of Mr. and Mrs. Benjamin F. Harris, Sr., of this city, sang a solo.

Sunday school services were held with members from all churches of the county, being grouped into classes. A class attendance of 373 was reported. Mrs. Emma Sutton, of Dublin, served as secretary, with W. G. McVay, of Richmond, treasurer. Vocal and instrumental music formed a part of the afternoon service. A quartet composed of Mrs. W. G. McVay, Mrs. E. A. Daggy, Ralph Little and Harry McMin, with Mrs. Ralph Little presiding at the piano, sang "The Story of Love." Ralph Little sang a solo number, "A Little While." Miss Helen Adleman played a violin solo, a serenade from Schubert.

Basket lunches were spread at noon at several large tables. Numerous groups of families also banded together for the occasion. Games were played in the park by the younger people.

While the Sunday school service earlier in the day was attended by less than 400 persons, the great crowd that swelled the attendance at the park during the afternoon brought the estimated attendance for the day up to the 1,000 mark.

DIVORCE IS GRANTED ON CRUELTY GROUNDS

GREENVILLE, Ohio, Aug. 7.—Pauling Hall Lee of Versailles was granted a divorce in common pleas court Saturday morning from Melvin Lee on the grounds of extreme cruelty. The decree was granted by Judge Miller of Colina, who came here to hear the case. The testimony in the case indicated that Lee abused his wife in a shameful manner when she refused to give him money. The case was not contested.

Stanley Bard was arrested Saturday afternoon on suspicion of being implicated in a robbery which occurred in Greenville several weeks ago. He was locked up in the city prison. He has not yet had his hearing.

New Cases—Common Pleas
Lillian Wagner vs. Hiram Wagner, action for divorce and alimony.

Probate Court
Jesse Maurer committed to Dayton state hospital.
Hazel Campbell, administratrix of the estate of Albert M. Cromer, deceased, filed inventory and appraisal.

John F. Maher, guardian of Raymond L. Bowers, filed second account.
Wilson Richert was committed to the Dayton State hospital.
G. L. Toman, administrator of estate of M. A. Kerns, deceased, filed public sale bill.

SENATOR

(Continued from Page One.)

led to the election of six out of the 12 presidents the country has had since the Civil war, and would have provided even more than this striking proportion but for the accidents that brought Arthur and Roosevelt to the office through vice presidency.

If Pomerene, after winning the Democratic primaries next Tuesday also wins the election in November, he will be in an extremely strong position for the Democratic presidential race in 1924. Senator Pomerene is undoubtedly in a position where the presidential lighting is reaching out toward him. Almost every episode in his career has helped to qualify him for the formula "a good safe middle of the road man from Ohio." Having taken the precaution to get himself born in the state which is the fountain of presidents, he has seen to it that his record should make him a middle of the road man.

In Wyoming, the other state which holds senatorial primaries next Tuesday the outcome is even more certain than in Ohio. The Wyoming senator whose successor is to be chosen is Kendrick. Kendrick is the rara avis, a Democrat representing Wyoming in the United States senate. Kendrick came in as a result of the Wilson tidal wave which carried Wyoming for the Democrats in 1916. He will win re-election next Tuesday.

Upon the same date in the Republican primaries his Republican opponent will be nominated in the person of Frank Mondell, who, after 26 years of service in the lower house, the latter part of it as floor leader, is now to have the opportunity for promotion to the senate. Thereafter the fight will be between Kendrick and Mondell for the election in November.

COUNTY AGENT SOIL TEST FOR ACIDITY CLAIMED ACCURATE, CONVENIENT, QUICKER

(By Associated Press)

COLUMBUS, Ohio, Aug. 7.—County agricultural agents are beginning to use a new test for soil acidity which, chemists at Ohio State university say, is as accurate as the Truog test, quicker and more convenient. A letter just sent from the university to field workers of the agricultural extension service informs them that the thio-cyanate reagent, which is necessary for the new test and which they have found hard to obtain in rural districts, now may be secured through the University laboratories.

Soil testing for acidity and for lime needs is, the scientists explain, of extreme importance in Ohio, as much land in the eastern half of the state already has gone sour from continuous cultivation and the "sour land line" steadily is moving westward. Lime applied in amounts determined by the Truog or thio-cyanate test, does more for eastern Ohio land than any other one thing, these soils specialists state.

The need of land for lime, they continue, can be indicated by as simple a process as applying blue litmus paper, such as dentists and physicians use on their patient's tongues, to wet soil. If the paper turns pink, the land is acid. But to get a quantitative reading, indicating the amount of lime that is needed to correct the acidity, a more complicated test is needed.

In this new test, the thio-cyanate solution is shaken up with soil in a bottle, and allowed to stand. The mixture develops a color which, read against a standard color chart, indicates accurately how much lime is needed to sweeten the land.

W. F. Schilling, noted dairyman of Minnesota, will speak at the state fair grounds here today, at a dairy picnic, and continue a speaking tour through the state through Aug. 12. He was brought here, and is making his tour, under the auspices of the Ohio Farm Bureau Federation.

Other dates announced for Mr. Schilling are:
Belmont county picnic, Aug. 9;
Gallia county picnic, Aug. 10; Miami Valley Chautauqua (near Dayton), Aug. 11, and picnic in Warren county, Aug. 12.

Ohio will have more apples this year than it had last year.

This news comes from R. B. Cruickshank, secretary of the Ohio Horticultural society, who points out, however, that the apple crop in the state will fall considerably below the five-year average this season.

"The total apple crop is estimated at 190 million bushels," Mr. Cruickshank said. "Last year's crop was 98 million bushels, and the average crop of the five years preceding was 179 million bushels."

"Peaches, taking the country as a whole, probably will make a bumper crop, and pears a normal crop of about 15 million bushels."

Except oranges, lemons, and grapefruit, all kinds of fruit appear to be better than they were last year, as to total crop.

"The Pacific Coast states except a commercial apple crop of about a million less barrel than it had last year. New England will have a 140,000 more barrel crop than last year, and New York will have 5,000,000 barrels, double its last year's yield."

Insects in wheat or other stored grain may be destroyed by making the bins air tight and fumigating them with carbon bisulphid at the rate of 5 to 8 pounds of the poison per 1000 cubic feet of space, according to a leaflet published by the Ohio Experiment Station, Wooster.

DEMOCRATS EXPECT TO CAST LARGE VOTE IN ARKANSAS AUG. 8

(By Associated Press)

LITTLE ROCK, Ark., Aug. 7.—A number of contests and vigorous campaigning are expected to bring a record vote to the polls tomorrow for the Arkansas Democratic state primary election. Predictions are that the total vote cast, with favorable weather, will reach 140,000. The total vote cast for governor in the last general election was 130,113.

The Ku Klux Klan, while an unknown factor, is expected to play some part in the outcome of the election. While most of the fights are within various counties throughout the state for county officers, it is believed in some quarters that agitations both for and against the Klan will effect state wide election results.

In several counties, according to newspaper reports, the Klan had secret elections to determine which of two or more Klan members, candidates for the same office, should be supported by the Klan and file as candidates for the nomination. In Little Rock, headquarters for most of the candidates for state offices, the Klan, according to an account published in the Arkansas Gazette, endorsed an entire slate ticket.

Governor McRae was endorsed by the Klan, it was reported, although he is not a member of the organization. Many of the other state officers endorsed are not members. The only issue which apparently has been raised by either side is Klan or anti-Klan.

The Best Shampoo For Bobbed Hair

Cleero Cleanses Hair and Scalp
Perfectly. Requires No Rinsing.
Leaves Hair Fluffy and Lustrous. Try It.

Does it take a whole half day to wash your hair?
You can do it in thirty minutes with Cleero.

Cleero, as you know, is the marvelous discovery of M. Dore, one of Europe's most famous hair specialists.

It contains only pure vegetable oils (oil of olive and oil of coconut), two beneficial solvents of grease and dirt, and a splendid emollient.

But the most wonderful feature of Cleero is the fact that you need not rinse your hair after its use.

When you shampoo the old way with soap, it is necessary to drench your hair with water time and again in order to get the soap out. For soap left in the hair dulls its lustre and may prove positively harmful.

Cleero removes all the dirt, leaves the hair fluffy and lustrous and requires no rinsing. That means that your hair will be normally dry in thirty minutes after a Cleero shampoo.

Buy a bottle of Cleero at your druggist's today and try M. Dore's famous beauty secret.

You will never go back to ordinary shampoos after you have experienced the luxury of Cleero.

Send 10c in stamps for a trial bottle of Cleero, enough for two shampoos.

For Shampooing Without Rinsing

A Free Canning Booklet

is waiting for every woman who will take the trouble to write and ask for it.

This Department of Agriculture booklet explains the modern improved method of putting up fruit and vegetables so that they will keep perfectly. It also gives tested recipes for preserves, butters, jellies, conserves and marmalades.

During the canning season no kitchen should be without this authoritative help to housewives.

Send for a copy today. Enclose two cents in stamps for return postage. Write your name and address clearly on the lines of the coupon.

(Do not send the coupon to The Palladium. Mail it direct to Washington, D. C.)

To every one who
joins before Aug 12th

One Ton
of Coal
FREE

Note how the Heatrola harmonizes with the furnishings of a modern home. It is a handsome piece of furniture, an ornament to any parlor.

This is the Estate HEATROLA

Looks like a phonograph works like a furnace
Heats 3 to 6 connecting Rooms

The Estate HEATROLA is the new-day heater for small homes, bungalows, apartments and stores, with or WITHOUT BASEMENTS. It looks like a handsome cabinet phonograph and works like a furnace. It will heat three to six connecting rooms—even more rooms in some houses—circulating warm, moist air, just like a furnace.

It is indeed a furnace—a parlor furnace—beautifully finished in grained mahogany enamel. Handsome enough to be an ornament to any home. You don't have to take it down in Summer, for it is a beautiful piece of furniture. The Heatrola is easy to keep clean. No iron to black, no nickel to polish. Just rub and dust it with a cloth, as you do your furniture.

As an inducement to order your Heatrola now, we are making this club offer. You pay only \$2 down and we will install the Heatrola at any time you may specify.

As an added inducement to join our Heatrola Club NOW we will give you absolutely FREE ONE FULL TON OF COAL.

We have only a limited number of Heatrolas to sell under this plan, and in any event, the offer is good for three weeks only. So it will pay you to come in soon. Your \$2 entrance fee is applied to the purchase of the Heatrola. And other payments for the heater may be made in small weekly or monthly installments.

Come in and see the Estate Heatrola. Get our full offer and terms. Let us explain the construction of the Heatrola and show you a wonderful book of letters proving how well it heats, and how economical it is. Does the work of a furnace, but uses no more fuel than a stove.

DIPLOMACY

[From the Birmingham Age-Herald]
"When Mrs. Peckton lays down the law do you acquiesce?"
"Yes," said Mr. Peckton, slyly, "as the diplomats do."
"Eh?"
"In principle."

24.4 eggs
per hen per month
on DIXIE

That's not a record—nor a special test. It's the experience of an average poultry raiser who feeds

DIXIE HEN FEED and DIXIE LAYING MASH

From a little pen of 8 hens, during January, February, and March, 1922, he gathered an average of 24.4 eggs per hen per month. Name and address on request.

DIXIE quality is the reason. DIXIE LAYING MASH, containing dried buttermilk, is real egg-making material. Feed it in combination with DIXIE HEN FEED.
