

M'GRAY IS PRAISED BY 1,000 CITIZENS FOR STRIKE STAND

(By Associated Press)
 INDIANAPOLIS, Aug. 10.—Congratulatory telegrams and letters from more than a thousand persons in all walks of life have been received by Governor McCray as a result of his action calling out the Indiana National Guard to the coal fields.

The governor's employees literally have been swamped with mail from all over the state endorsing the executive's effort to see that essential industries and state institutions obtain coal. Leaders in industries, real estate men, merchants, lawyers and other citizens, both men and women, are included among those who have written to Governor McCray.

J. S. Cruise, a local business man, in a letter praising the governor's attitude, said: "Such courage as you have shown in this matter, acting as you have, certainly is deserving of comment from every citizen, not only of the state of Indiana but of the United States."

J. E. Houston, a business man of Connersville, wrote: "Were there other executives with the same backbone and determination which you are displaying, the present deplorable conditions would soon be adjusted."

Democrat Praises McCray
 A Tipton man wrote: "Will you please accept the congratulations and earnest approval of your position in the strike troubles from a Democrat? We are with you."

"More men like yourself, and fewer politicians, would be a considerable help to this country today," Charles B. Myers, an Anderson manufacturer, said in a letter of praise to the governor.

A Wabash man said: "I commend you most heartily for the position you have taken in regard to mining coal that the people and industries of this state may not suffer because of the acts of a few leaders on both sides." A Fort Wayne resident asserted the stand of Gov. McCray to be "unquestionably righteous" and added that everyone was "back of you."

The letters and telegrams are being answered by the governor as rapidly as he can find time to write. In each letter he has written so far, he has expressed his appreciation of the endorsement by citizens of the state of his attitude in the coal situation.

Beauty Chats

By Edna Kent Forbes

COMPLEXION MILK
 A very fine and cooling lotion to whiten the skin and preserve its freshness is called Lait Virginal, or Virgin's milk. It is made by mixing one-half ounce tincture of benzoin with two drachms tincture of vanilla. To this one and one-half pints of triple rose-water is added. It should be added very slowly and thoroughly stirred and beaten to prevent curdling. At the end you should have smooth, milky emulsion.

This is a general formula for a bleaching complexion milk. With this as a foundation a great many elaborate formulas are built up. Blended almonds, almond milk, almond oil, the juice of cucumbers, and various other things are added, but if you wish an easily made formula this one given above is really excellent.

Similar to this but a little more elaborate is the following Eau de Beauté, or beauty water:
 Tincture of benzoin.....1 ounce
 Tincture of musk.....2 drachms
 Tincture of ambergris.....4 drachms
 Rectified spirits.....5 ounces
 Orange-flower water.....1 1/2 pints

The three tinctures are added to the spirits, mixed well and then added to the perfume water. The perfumes are of the purest and best quality; the result will be a milky emulsion which is cooling and refreshing to the skin, and effective in removing tan and freckles. Several famous beauties are supposed to have used this or a similar lotion. This, by the way, is particularly good for oily complexions and also as a means of softening hard water. A teaspoonful to a large basin is all that is necessary.

JITNEY—Sugar water will not injure your hair and if it keeps it in curl without matting it, there is no objection to using it. The girl of 15, 5 feet 1 1/2 inches, should weigh 115 pounds or a trifle less and the girl of 17 will be normal at 110 pounds.

O. S. W.—Finger nails that are as soft and thin as yours indicate a lack of something in the system. A tonic

CROWD OF AGITATORS GATHERING IN ROME.

Here is shown a crowd of agitators gathered in the principal streets of Rome. The ultra national group now holds seven cities in war against Socialists. Fearing the Fascists, who are extreme nationalists, may attempt to seize the city, troops with machine guns are on guard at the Chamber of Deputies, where the Fascist leaders have ordered their adherents to concentrate. Police and military authorities have orders to prevent their concentration.

HAGERSTOWN CANCELS LEASE FOR LIGHTING PLANT TO BE SOLD

HAGERSTOWN, Ind., Aug. 10.—By the adoption of an ordinance and a resolution, the town council at its meeting Wednesday night completely revolutionized the system of lighting the streets and homes of Hagerstown.

The ordinance which was enacted cancelled the lease which had been given to Robert M. Cass, of Indianapolis, who has been operating the lighting system here for some time. The system, as managed, had been giving unsatisfactory service, it is alleged. The cancellation of the lease becomes effective Sept. 11.

The resolution authorized the sale of the plant and the distributing system of the Hagerstown lighting concern and authorized the attorneys of the town to file a petition in the Wayne county circuit court for the appointment of appraisers for the equipment of the company.

The sale probably will be closed some time during the month of October and it is understood that there will be three bidders. The sale will be made with a view to the protection of the town in regard to lighting in the future.

WAR WAGED AGAINST RATS AT SOUTH BEND
 SOUTH BEND, Ind., Aug. 10.—Fifty thousand rats have been driven from public buildings in South Bend during the last few weeks, according to an announcement issued from the Chamber of Commerce, from which headquarters the campaign for the extermination of rodents is being carried on.

In which there are phosphates and lime may supply your needs and correct this trouble, but it is best to have a good doctor prescribe for you. As you state this condition has been a matter of years in which the nails did not grow, it is possible that you have not had the right treatment. But it should not be a difficult thing to overcome.

A. J. E.—An oily skin with a tendency to too much color shows that the system is not cleared. Perhaps you overeat or eat too much meat at this season. A mild astringent such as witch hazel will relieve the skin, but the cause for this trouble should be corrected.

All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in these columns in their turn. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

Plan Your Home Carefully

Successful home building depends greatly upon the plan you choose. You must use first class material and reliable labor in order to build a house that will wear well, but after all, it is the plan that provides the starting point for the home that will give you year after year satisfaction.

Why not let this Bureau aid you in the selection of a plan for that home you have been wanting to build for so long? We will be glad to mail you entirely free a booklet giving exterior views and floor plans of 50 modern homes. These are the plans of actual homes that have been lived in and found practical, substantial and beautiful.

Write for your copy today. Enclose two cents in stamps for return postage. Write your name and address clearly.

(Do not send the coupon to The Palladium. Mail it direct to Washington, D. C.)

Washington, D. C.

U. S. SOON TO SELL THREE WAR MUNITION PLANTS

WASHINGTON, Aug. 10.—The large war time munition plants, the Chicago storage depot and the Rochester, N. Y., gun plant, will be offered for sale soon by the war department, announcement being made today that orders had been issued for the real estate division to prepare for the sales. The ordinance department is working to dispose of valuable machinery stored at the two plants, and this will be offered at public auction before the real estate is disposed of.

Crew Killed By Islanders After Quarrel Over Cannon

[From the Detroit News]
 There are on Nauru, or Pleasant Islands, the richest island in the South Seas, two monuments to contact with American whalers. One is of flesh and blood—a native family whose curly hair is in striking contrast to their straight-haired neighbors, witnessing that the ancestors was a runaway Negro sailor. The other is a small cannon, which stands before the house of the British administrator, according to Rosamond Dobson Rhone, in the National Geographic Magazine.

In the fifties, a whaling ship out of New Bedford, Mass., called at the island, and the natives paddled out in their outrigger canoes and swarmed over the decks, examining everything with lively curiosity. They especially admired a small cannon, and they offered to buy it, paying for it with coconuts. A price was agreed upon. They went ashore and returned with the required number, but the captain raised the price, asking double the number.

The natives again went ashore and brought back the stipulated number; the captain again raised the price. It was now late in the day, and the natives said they would bring back the remainder in the morning. They beached their canoes and retired to their huts. In the night the natives went out in force, surprised and overcame the officers and crew, and killed every man save one sailor, who secreted himself. They set fire to the ship and took the cannon; they took nothing else.

Men who have had much experience in judging high temperatures, as those in steel works, can tell at a glance how hot a thing is by its color.

BAND HIRED FOR TRIP TO BOOST FREE FAIR

Plans for the Dublin free fair, to be held Aug. 30 and 31 and Sept. 1, were laid at a meeting of the committee held in Dublin Tuesday evening. The committee hired Straugh's band and decided to start a booster trip on Saturday and Monday.

Concessions and merry-go-rounds are wanted by the committee. This is to be the third year of the fair.

A considerable increase in the size of the hog exhibits is to be noted, according to a member of the committee. Stock and grain exhibits, races, baseball and other attractions will be provided.

GOSPEL WORKERS GATHER ALEXANDRIA, Ind., Aug. 10.—Delegates began arriving here today for the seventeenth annual camp meeting of the Indiana Holiness association, which opens at Beulah park Friday. William Jennings Bryan has been invited to deliver an address here on the closing Sunday of the meeting and it is probable he will accept.

LAUNCH IDENTIFIED AS ONE SEIZED AT SEA BY PIRATES
 KEY WEST, Fla., Aug. 10.—Identification of the launch in which two men giving their names as James R. Burns and Fred Smith were picked up at sea, as the Cuban launch Murgados, was made by a Havana newspaper man who came here last night. The captain and engineer of the Murgados were killed when the boat was boarded by two men several days ago near Havana. Burns and Smith are under arrest on request of the Cuban authorities.

Peas were raised in Europe more than 1,000 years ago.
