

TEACHERS OF PREBLE ATTEND INSTITUTE; DISCUSS PROBLEMS

EATON, Ohio, Aug. 22.—One hundred and fifteen school teachers in Preble county registered at the opening day of the annual county teachers' institute conducted here this week. The meeting will continue over Friday afternoon. The sessions are being conducted in the public assembly hall in the courthouse.

Dr. B. F. Dyer, Cincinnati, formerly head of the Cincinnati, and Boston, Mass., public schools, and Dr. T. L. Gibson, of Baltimore, connected with the Maryland state department of education, are instructors. Dr. Dyer talked on "Habit a Drill," and "The Higher Process of the Mind." Dr. Gibson talked on "The voice of the teacher," and "The Teacher Who Thinks She Has no Voice."

Other Speakers. W. S. Coy, secretary of the state teachers' reading circle, and Dr. G. W. Homsher, county health commissioner, also addressed the meeting Tuesday. "Matter and Method," and "How We Learn," were Dr. Dyer's subjects on Monday, while Dr. Gibson spoke on "Values in a Song," and "Types of Appropriate School Music." Miss Edwina Morrow, Preble county woman, also spoke Monday. Walter Wagner, West Alexandria, conducted devotionals Tuesday, while the Rev. A. C. Barnhart, Eaton, conducted devotionals Monday.

The program for each day's session is being arranged from day to day. County School Superintendent W. S. Fogarty has charge of the program arrangement and the general management of the institute. A. R. Piesinger, of Dayton, is president of the institute organization, is presiding over the sessions; Miss Mary Swartzel, of Eldorado, is secretary.

File Expense Accounts. According to expense accounts filed by candidates in Preble county with Oia Potts, clerk of the county election board, the total campaign expenses of the Democratic candidates spent a total of \$156.84. Only one office on the Democratic ticket was contested for, while the Republicans had several contests, with several candidates for each contested office. Three or four candidates failed to file their expense accounts before the time limit expired.

Married Tuesday. Walter Nelson Roberts, son of Alvadore Roberts, of Preble county and Miss Marjorie Miller of Dayton, were married Tuesday afternoon in Dayton, in the home of the bride's parents, Mr. and Mrs. L. K. Miller. Mr. Miller is general treasurer of the United Brethren denomination. The couple will make their home with the bride's parents. Mr. Roberts is a student in Bonebrake Theological seminary, Dayton, where he is preparing for the ministry and for missionary work.

White Snakeroot Found On Losantville Farm; Check Climbing Milkweed

During a weed survey of Randolph county conducted by A. A. Hansen of the Purdue university agricultural extension department, a poisonous plant known as white snakeroot was located on a farm at Losantville.

The white snakeroot is the cause of a fatal disease known as Trembles among sheep and cattle. The poison is carried in the cow's milk, causing a disease among humans known as milk sickness. The plant already has caused the loss of five sheep on this farm. Eradication measures are now under way and the plant will soon be cleaned out of the pastures. White snakeroot grows typically in woodland pastures and is rarely found in the open.

Another interesting discovery of the survey was the discovery of a climbing milkweed on a farm near Winchester. Climbing milkweed is a vine that climbs on corn, frequently to such an extent that the corn is overwhelmed. Since the seeds may be carried long distances by the wind in a similar manner to ordinary milkweed seed, the climbing milkweed is a very dangerous plant. As far as could be learned, only two patches occur in Randolph county, and measures were taken for destroying these patches before the seeds have a chance to ripen and scatter over the neighborhood. The plant is now in full flower, although a few young pods have already formed.

Women employed as readers in press-clipping bureaus often have to memorize 5,000 names and subjects.

WOMAN COULD NOT WORK

Made Strong and Well by Lydia E. Pinkham's Vegetable Compound

St. Paul, Minn.—"I took Lydia E. Pinkham's Vegetable Compound for a

feeling worn-out, and painful periods. I used to get up with a pain in my head and pains in my lower parts and back. Often I was not able to do my work. I read in your little book about Lydia E. Pinkham's Vegetable Compound and I have taken it. I feel so well and strong and can do every bit of my work and not a pain in my back now. I recommend your medicine and you can use this letter as a testimonial." — Mrs. PHIL. MASER, 801 Winslow St., St. Paul, Minn.

Just another case where a woman found relief by taking Lydia E. Pinkham's Vegetable Compound. Many times these tired, worn-out feelings and pains about the body are from troubles only women have. The Vegetable Compound is especially adapted for just this condition. The good results are noted by the disagreeable symptoms passing away—one after another.

Lydia E. Pinkham's Vegetable Compound is a Woman's Medicine for Women's Ailments. Always reliable.

COMMANDER OF U. S. MARINES DECORATES MOTHER OF BOY HERO KILLED IN ACTION

Center Township Farmers To Mix Own Fertilizers

CENTERVILLE, Ind., Aug. 22.—About 25 members of the Center township farmers' association attended the meeting at the schoolhouse Monday night called to discuss co-operative purchase of fertilizer for fall use. The methods and results of home mixing were explained by R. H. Commons of Eaton, township county manager of fertilizer purchasing, and were heard with great interest by those present. Orders were taken for raw materials for use in home mixing. As local head for the county fair, Gaar Eliason was appointed by the chairman, Justin Reynolds.

from that state. The Montana primary election will be held Aug. 29 and reports which have been received in Washington the last few days indicate that Riddick will be nominated although there are five strong candidates in the field against him.

Riddick is almost as well known in Indiana politics as he is in Montana politics. He served as secretary of the Indiana Republican state committee during the campaigns of 1906 and 1908. In 1910 he so this Winamac newspaper and settled on a government homestead and immediately made himself acquainted with the politics of his adopted state. He was elected county assessor of Fergus county in 1915 and served until 1918 when he was elected to congress. He was re-elected to the present congress. He continues a very active party worker and is now chairman of the publicity bureau of the Republican congressional campaign committee.

In the event of his nomination Riddick will make the race for the senate against Henry L. Myers, Democrat.

who has been a member of the senate since 1911.

The civil service commission will soon announce the date for holding a competitive examination for the appointment of a postmaster at Brownsville, Ind., in Union county, a fourth class office. The commission has announced that an examination is to be held at New Castle, Ind., Sept. 9, to fill the position of rural carrier out of the postoffice at Spiceland, in Henry county. Women may enter both examinations but they will not be considered for the rural carrier appointment unless they are the widows of former service men or the wives of ex-service men who are physically disqualified for examination by reason of injuries received in the line of military service.

BONDS SOLD

Bonds aggregating \$6,000 issued to pay Eaton's share of improvement of the Richmond pike from the intersection of Main street to the corporation limits, were awarded Monday by the council to the Eaton National bank at its bid of \$145 premium. Davies-Bertram, Cincinnati, bid \$144 premium for the issue and Seasongood & Mayer, Cincinnati, bid \$105 premium. The bonds bear interest at the rate of 5½ per cent, payable semi-annually and run 12 years.

Two bids for the contract for construction of the improvement are on file and are being considered by the council.

RADIO NEWS

Palladium Government Call is 9 ZAE — Fred Clark, Operator

Telephone conversation between New York and London or Paris are predicted as a common event within a few years due to recent experiments. The powerful station being developed at Carnarvon, Wales, will be excelled by the station at Port Jefferson, Long Island, where even more powerful tubes are being installed. The two stations will communicate first in code and then experiment with direct trans-Atlantic telephone communication.

Lighting Circuit Antenna. The new attachment for plugging into an electric light socket and using the wires for an antenna is proving especially popular in cities and in apartment wireless set installations, where landlords are likely to object to outside aerials. The device, which is simply a plug with condensers contained in a compact case, and several feet of wire, has been on the market for several weeks, and one is used by Robert Pierson, of Liberty. He reports distinguishable and satisfactory signals received through it, although they are considerably weaker than those from the usual antenna.

Locals. Maurice Druley, with a new receiving set, is on the air again, in spite of lingering static. Gerard Harrington is another local amateur who is making records for his station, and making the acquaintance of many relay operators.

A new cage antenna has been erected by Robert Clark. Joseph Winder also is getting ready for winter relay work again.

DX Club Meeting. The first meeting of the DX Radio club, which suspended meetings during the summer will be held on Sept. 6, the first Wednesday of the month.

New Receiving Set. A receiving set for listening to concert broadcasts has been installed by the Weisbrod Music store for the convenience of its patrons. A Zenith set was the one selected, and it is installed by Matthews of Chicago, in co-operation with Fred Clark and Harold Cutler. A test was run with the Richmond broadcasting station on Monday. The set includes a two stage amplifier and a loud speaker.

Biggest Radio Horn. The largest radio horn, so far, is located in Idora Park, California, where it is used for broadcasting concerts for public amusement. It measures 35 feet in length and has an opening 12 feet square, giving a volume that has a carrying range to cover an area of 29 square miles. A thousand feet of airplane spruce was used by the Magnavox company in building it.

Radio Fire Fighting. The use of radio has proven of great assistance to forest fire fighters, per-

mitting much quicker reporting of fires and at a time when minutes count, this insures many being put out that otherwise might get beyond control.

In one case a look-out, with his station surrounded by fire, put his set on a raft, floated out into a lake, and made his reports from there.

Formerly signals made by airplanes, messages dropped from them by parachute, or land telephone lines, were the only ways of reporting fires, except by the tedious method of flag signaling.

NO BETTER MEDICINE FOR MY

That is what Frank Miller of Bingham Canyon, Utah, says of Foley Kidney Pills. "I was so bothered with kidney trouble I could not work and the many medicines I tried did me no good. I took just two bottles of Foley Kidney Pills and they put me on my feet and at work again. Why suffer when this reliable medicine for kidney and bladder ailments is so easily had. Prompt and tonic. FASHION EXPERT DIES

BOSTON, Mass., Aug. 22.—Mrs. Belle Armstrong Whitney, fashion expert and a former newspaper woman of this city, is dead in Paris, according to a cablegram received here today. Mrs. Whitney was decorated by the French government for her work during the war. She was the widow of Dr. Charles A. Whitney of New York.

TO BE ACTING SECRETARY

WASHINGTON, D. C., Aug. 22.—Secretary Charles E. Hughes began today to arrange affairs of the state department so that they might be taken over Wednesday by Under Secretary Phillips, who will become Acting Secretary of state that date, due to the departure of Mr. Hughes for Brazil to attend the Centennial Exposition there, beginning Sept. 7.

All these ways were slow except land telephones, and these were subject to damage by the fires. Radio cannot be interrupted except by thunderstorms, which eliminate danger of fire, and thus it furnishes a medium with none of the previous disadvantages.

Instead of generators, which are cumbersome to carry into the forest, B batteries are relied upon for power, 270 batteries being connected in series to furnish the 350-volt plate current.

An additional use of the radio was in patrolling a fire line by airplane and reporting danger spots so that the few men working on it could cover it without allowing the fire to break over in any place.

This Leaves the Arms Free from Hairy Growths

(Toilet Talks)

A simple method for completely removing every trace of hair or fuzz is here given. This is painless and usually a single treatment will banish even stubborn growths. To remove hairs, make a thick paste with some powdered delatone and water, spread on hairy surface and after about two minutes rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disappointment, be certain you get delatone.—Advertisement.

New Castle Fair Patrons Pay 50 Cents for Near Beer

NEWCASTLE, Ind., Aug. 22.—With the aid of a little imagination and a suggestion helped by stage managing, one of the concession holders at the county fair succeeded in selling a complete stock of near beer, usually retailing at five cents a drink, at prices of 25 and 50 cents a drink. A two-year-old stock of a brand of soft drink no longer manufactured was bought at bargain prices by the stand owner, and no sampling proved so much "nearer" beer than usual that he bought all he could get. Stocking his stand with it, he hired half a dozen loafers to hang around the stand with an imitation of a real drunk. A rush of custom cleaned out all available stock at prices of 50 cents a bottle, and no complaints have been heard from any of the customers.

Two million quarts of milk is consumed in New York every day.
