

VETERANS OF 124TH HOLD REUNION HERE; PROGRAM TONIGHT

The forty-sixth annual reunion of the 124th Indiana Infantry opened at the courthouse Wednesday morning with about 20 veterans registered up to noon. More were coming in hourly from cities in all parts of the state.

Grizzled old campaigners clasped hands in memory of days long gone by, as the reunion headquarters gradually filled with the buzz of talk arising from reminiscences of the days of '65. Now and then the talk touched on a comrade who had dropped from the ranks in the past year, and a momentary tribute of silence was paid to the memory of the departed one.

The evening program will consist of a campfire held in the G. A. R. post rooms. A welcome address by Judge W. A. Bond, a song by Esther Meek, reading by Erpha Lundy, and short talks by comrades will make up the program. It opens at 7:30 o'clock, Standard time.

RUSSIANS OPTIMISTIC OVER JAP PARLEY

(By Associated Press)
MOSCOW, Sept. 6.—Russian soviet officials appear extremely confident that the conference with the Japanese at Chang Chung will bring peace to the far east and re-extension of Russia's sphere of influence to Vladivostok.

The railway administration is understood to be preparing to restore service on the European-Asia route, with direct through trains from Moscow to Vladivostok, while the newspapers yesterday announced the formation of a limited company to operate airplanes from Petrograd to the eastern city.

Already Russian trains de luxe are operating again as far as Chita, and Moscow now for the first time since 1918 foresees the Russian or a Russian allied flag waving again on the Pacific.

A dispatch from Chita says delegates representing the far eastern republic recently went to Nikolavsk, where they conferred with the Japanese. The Japanese merchants there are declared to have expressed the wish to remain when the far eastern republic takes over the government. The Chita delegates also conferred with the American Consul Thomas and the American military attaché.

Red partisans have occupied the district near Vladivostok and the White Russians in the city fear they may be cut off.

which he asked LaFollette's retirement from public life because, he said, the senior Wisconsin senator is an obstructionist in congress, and as such is of no use to his state in the upper house. Mr. Ganfield also charged LaFollette with being radical in his tendencies.

Returns from 815 precincts show that the entire LaFollette state ticket decisively overcame its opponents by large majorities, with the exception of Solomon Levitan, who was leading in a close race for treasurer against Henry Johnson, incumbent for six successive terms.

Governor John S. Blaine led the state ticket, his victory being decisive over Attorney General Wm. J. Morgan. The vote in 1289 precincts was Blaine 148,326; Morgan, 72,523, and McHenry, 7,888.

The anti-saloon league endorsed all the candidates opposed to LaFollette.

Pera Withdraws From League After Election

(By United Press)

GENEVA, Sept. 6.—Pera has withdrawn her delegates from the League of Nations assembly because a Chilean, Augustin Edwards, was elected president. Bolivia instructed her delegates to remain away from Geneva for the same reason. The Tacna-Arica dispute, believed practically at an end since arbitration at Washington, was the basis for the Chilean-Peruvian split. Bolivia's enmity toward Chile also had its root in this South American controversy.

FRIENDS NAME

that the influence of these early leaders is still seen and felt in some of the most remote corners of those devastated lands, that through the hate and wickedness of war the flame of friendship had not been extinguished. With an "open door" which will permit the free social intercourse of all people one with the other, this fire can be rekindled, was the view of Mr. Harvey.

Recommendations made by the executive committee of the Five Years Meeting in part were as follows:

"The executive committee recommends that the work which has in the past been under the care of the Publication board and the Bible school board be differently distributed and somewhat enlarged according to the following plan, namely: That instead of the two boards just mentioned, the Five Years Meeting should authorize, first, a board on publications, and second, a board on religious education.

Want Seven Members

We recommend that the proposed board on publications shall consist of seven members appointed by the Five Years Meeting, and the chairman of the board on religious education, who shall be a member ex-officio of the board on publications. We further recommend that this board on publications be responsible for the publication both of The American Friend and of our Bible school publications, and for the business management of The American Friend, the Bible school publications and the book and supply house.

"We recommend further that the proposed board of religious education shall consist of one member from each yearly meeting, to be appointed by the yearly meeting delegations, and five members at large to be appointed by the Five Years Meeting, this board to have charge of the promotion of the Bible school work, the encouragement of the reading of Friends literature and other forms of religious education through the various agencies of the church."

Recover 25 Bodies From English Coal Mine Pit

(By Associated Press)

WHITEHAVEN, Eng., Sept. 6.—Twenty-five bodies had been recovered this morning from the coal pit in which 40 men were entombed by an explosion yesterday. Heavy falls of rock and the presence of much gas are hampering the rescue squads and it is feared the pit will have to be sealed as was the case when 135 workers were lost in a neighboring mine in 1910. Tragic scenes are being enacted at the pit head, where the women relatives of the entombed miners are gathered.

Eighty-six Cement Manufacturers Unite to Serve You

The Portland Cement Association means this: that valuable scientific, advisory and educational work which no one cement manufacturer could reasonably undertake alone is at your disposal. This means that you can be absolutely sure of yourself in using Concrete.

You can be sure in the first place of the cement you buy. Any manufacturer of Portland cement may join the Association, and no manufacturer has to belong to it. But Association By-Laws require that members' products shall measure up to the high standard of specifications of the United States Government and the American Society for Testing Materials. Cement bought from a member of the Association is therefore dependable.

You can be equally sure of the way to use it. If you want information about its usefulness under certain conditions, or about how to mix it or place it to get the best results most economically, you can get it from any one of our 24 offices, one of which is near you.

Supplying dependable information without charge, by booklet, or by personal correspondence or by conference when necessary, is the work of the Association. To supply it authoritatively, the Association maintains a large research laboratory and a staff of more than two hundred engineers.

The Association is, in effect, the joint research and educational foundation of 86 manufacturers of cement in the United States, Canada, Mexico, Cuba and South America. You are invited to use it freely.

Suggestions as to how our work may be made more useful to you are invited.
