

## FAIR LACKS \$1,500 IN CONTRIBUTIONS TO COVER ALL EXPENSES

Fifteen hundred dollars in contributions, besides the money to be derived from concessions have still to be raised to cover all expenses of the Wayne county fair.

This statement was issued by the finance committee at noon Wednesday. The committee has been making re-solicitations and has succeeded in raising several thousand dollars of the expense money, but are still lacking the sum mentioned. The committee says the fair will be a success.

Despite the delay in underwriting the fair expense, the program committee is proceeding on the plans originally contemplated in the belief that Richmond and Wayne county are desirous of an event worthy of the community.

**Accept Features.**  
In order to assure the two stellar attractions which are of an order usually found at state fairs, early action was necessary, and they were contracted for when it was discovered that they would be the means of "putting the fair over" in spite of its late start.

Another feature called for in the first plans was that the fair should be kept absolutely free of all gambling concessions, and in pursuance of policy over \$950 worth of gambling concessions, for which the money was subscribed in advance, have been rejected by the committee.

While the concession money would have been a great aid in meeting the expenses, the committee feels that the organization would rather have a deficit than a single game of chance.

**Like Program.**

Enthusiastic approval of the program announced by John C. Weber, director of the Weber band, was voiced by Prof. Maddy when it was submitted to him. Two afternoon programs, from 3 to 4 and 4:30 to 5:30, and two evening programs, from 8 to 9 and from 9:30 to 10:30, will be given on the three days. Wednesday, Thursday and Friday. Grand opera, comedies from comic operas and some of the best popular music, both from classics and from modern composers, are included in the selections named. Verdi, Wagner, Chambers, DaKoven, Strauss, Dalbey, Herbert, Massenet, Sousa, are a few of the better known musicians whose compositions will be given.

**Entries Coming In.**

Entries are coming in steadily to the secretary, Charles Hodge, at his office at 15-17 North Ninth street, telephone 2817, and interest in the county has assured a heavy attendance. Solicitations for contributions are being continued by the special finance committee and the executive committee announces that the complete program will be given as advertised. Contracts are being signed for amusement concessions and for other attractions in addition to the diving act and the Cincinnati band. One contract being for the local American Legion band, which has contracted to play during the fair.

## GERMAN MATERIAL TO AID REBUILDING OF STRICKEN FRANCE

(By Associated Press)  
PARIS, Sept. 6.—The agreement under negotiations between Hugo Stinnes the German industrial magnate and Senator De Lubersac, president of the Federation of Co-operative Societies of the French Liberated regions under which material delivered chiefly by Germany would be used in the restoration of the devastated areas has now reached a stage where all that is needed is the final consent of the government.

Senator De Lubersac, representing 130,000 proprietors in the devastated areas with more than 13,000,000 francs losses has just concluded a number of conferences with Herr Stinnes, the result of which has been the reaching of an agreement for the delivery of bricks, mortar, cement, etc. to the French. The negotiations were authorized under the French agreement concluded by M. Gillet, the French comptroller, in Berlin on June 3 last. The final consent of the government is expected soon.

**Willing to Assist**  
Herr Stinnes has assured Senator De Lubersac he is eager to do all in his power for the rebuilding of the devastated regions and the belief that the effective carrying out of this accord would greatly contribute to the welfare of Franco-German relations and might one day result in bringing about a close understanding between the two nations.

We desire at all costs to rebuild our homes," said Senator De Lubersac, "but up to now France, and France alone, has paid for the materials. Under the agreement we shall receive made-up materials from across the Rhine, and Germany will thereby be helping to meet her reparations bill."

**BERLIN, Sept. 6.**—The opinion of the German press on the Stinnes-Lubersac contract is that it represents first fruits of the Wiesbaden agreement for German industry and that it incidentally is a vindication of the reparations policy inaugurated by the late foreign minister, Dr. Walter Rathenau. The point is stressed that the agreement is the first step toward overcoming French hostility in the devastated regions.

## Tales of Great Battles To Be Retold When Vets Of Civil War Meet Again

(By Associated Press)  
DES MOINES, Ia., Sept. 6.—The fifty-sixth annual encampment of the Grand Army of the Republic will be held here during the week beginning September 24.

Aging veterans of '61, their ranks greatly diminished by death, will gather with their comrades for the fifty-sixth time since ending their services in the Union armies.

Tales of famous battles, charges at Gettysburg, Sherman's march to the sea, privations and sufferings which ended with the surrender of Lee at Appomattox, will be recalled and told with an enthusiasm which has increased at each annual encampment.

Only 93,000 of the "boys in blue" are alive today. Their numbers running into hundreds of thousands shortly after the close of the Civil war, have been thinned with increasing rapidity by the advance of time. Within a few years the Army of the Potomac will be but a memory. The encampment will open Sunday, Sept. 24, with special services in the Des Moines churches where veterans will be speakers. Monday will be registration day and the time for the exchange of greetings.

## BIG DEBTS OF STATES CONTRACTED SINCE U. S. ENTERED WAR

(By Associated Press)  
NEW YORK, Sept. 6.—Nearly one-half of the \$1,071,506,981 of outstanding state debts were contracted since this country entered the war and over a third since the beginning of 1920, it was revealed today in a survey made public by the Bank of America.

Since April 6, 1917, there has been issued a total of \$518,937,414 of the securities now outstanding of which \$384,899,997 were put out since January 1, 1920. All of the outstanding bonds of Arkansas, Illinois, Iowa, Michigan, Ohio, South Dakota, Washington, and West Virginia were issued since the spring of 1917.

The world war was responsible for \$139,281,772 of the outstanding indebtedness, or 13 per cent of the total. This of course does not represent the cost of the war to the states nor even all the securities issued for war purposes.

**Portion of Debt**  
These bonds represent 28.6 per cent of the outstanding debt incurred since the United States entered the war. Of this sum the payment of soldiers' bonuses takes up altogether \$130,022,000, or 12.1 per cent of the grand total debt, and the remaining is the cost of other warfare work for veterans and for war memorials.

The construction of highways and bridges is by far the leading single purpose for which the outstanding debts were incurred, over a third of the total having been contracted for this purpose. Among the noteworthy highway systems financed by large issues are those of California (\$55,000,000); New York (\$100,000,000); Oregon (\$31,700,000) and Pennsylvania (\$50,000,000).

Waterways and harbor improvements come second in the list of purposes with a total of \$218,891,400. The paternalistic experiments of the agricultural states are reflected in the \$45,156,139 total classified as "agricultural aid," representing 4.2 per cent of the aggregate.

and Mrs. Emily Doan of Richmond called on Mrs. Ida Strong Saturday. Mr. and Mrs. Forest Lacy and children, Mr. and Mrs. Lester Lacy and son and Mr. and Mrs. L. O. ## FARMERS HAVE SHARE IN PROPERTY SAYS VICE PRES. COOLIDGE

(By Associated Press)  
HANLINE, Minn., Sept. 6.—The farmer has not failed to have a share in the general advance in prosperity which has resulted from "wise government policies" in reducing expenses of the government, declared Vice-President Calvin Coolidge, in an address at the Minnesota state fair here today.

Tracing the development of agriculture in the United States down to the present day, Mr. Coolidge said it now involved "the courage and character of 40,000,000 American citizens." "It affects and is affected by all markets, all industry, all business, all prosperity and all adversity, the world over," he continued. The ultimate prosperity of the farmer is the prosperity of his customer. "The successful tillage of the nation's soil requires the precision of a skilled trade, the science of learned professions and the ability of experienced management. It calls for the investment of a tremendous amount of capital.

**Restores Prosperity.**  
"It is in accordance with this theory that the government is undertaking to restore and maintain the agricultural prosperity of the nation." The government, Mr. Coolidge said, "is emerging slowly but surely, from a period marked by economic difficulties and depression."

"One of the first relief requirements was to preserve such American markets as existed for the benefit of American production. This was done by an emergency tariff act which prohibited the dumping here of foreign merchandise, in order that the employers of American workmen might continue the payment to them of wages with which they could purchase the products of the farmer."

**Emergency Relief**  
"While applying this emergency relief on the farm the government at once started out to ascertain and provide the fundamental remedy for a general reconstruction and restoration. Drastic action was taken to reduce government expenses."

Government expenditures of \$5,538,000,000 for the fiscal year ending June 30, 1921, Mr. Coolidge said were reduced to \$3,795,000,000 for the fiscal year of 1922, while the appropriations for 1923 have been further reduced by \$319,000,000. This, he said, represents an estimated reduction of \$2,000,000,000 in two years. During the past year the national debt was reduced \$1,014,000,000.

"This great reduction made possible a revision and reduction of taxation," said Mr. Coolidge, "in the general advance which has already resulted from these wise government policies, the farmer has not failed to have a share. His staple products have had marked increases in price in the primal market exchanges."

after his family Sunday. Mrs. Roller and children spent the past week with her parents at North Manchester. Mr. and Mrs. N. S. Mendall and Mr. and Mrs. Marshall report a fine trip to Iowa. Ed. ## People Face Starvation Result of Fishing Stamp

(By Associated Press)  
SYDNEY, N. S., Sept. 6.—Complete failure of the Shore fisheries on the northeast coast of New Foundland this season is threatening the people of the district with starvation next winter, according to reports received here. Schooners engaged in the northern fisheries this season were only a boat one third as many as ten years ago, yet individual vessels report the scantiest catches on record. Reports from the Labrador coast describe the fishing there as the worst in 25 years.

## BORAH URGED TO SEE EUROPEAN CONDITIONS

(By United Press)  
WASHINGTON, Sept. 6.—Influential Englishmen, who are working to bring about co-operation between the United States and European nations for the world's rehabilitation, have urged Senator Borah to go to Europe "to bring home to the masses of the people the stern truth" about reparations, war debts and disarmament, and "help us to regain sanity."

Members of the British parliament, who have taken the lead in urging that Borah make this trip, want him to convey to Europe by means of a speaking tour, "the real message of America to the old world."

The invitation to Borah was inspired by his recent interview given the United Press, in which Borah declared it would be utterly useless to raise the question of cancelling European debts to the United States so long as Europe continued existing policies respecting reparations and armaments. A member of the British House of Commons, writing to an American friend, urging that Borah be induced to make a speaking trip through England and certain continental countries, said Borah's service ought to "be brought home to the European people in no uncertain way."
