

MEETING OF FARM EQUIPMENT MAKERS TO BE HELD OCT 18

(By Associated Press)
CHICAGO, Oct. 12.—A large representation of the country's manufacturers of farm machinery is expected to attend the twenty-ninth annual convention of the National Association of Farm Equipment Manufacturers in Chicago, Oct. 18, 19 and 20.

Addresses on the opening day of the convention include one by a member of President Harding's cabinet, to be held later, C. H. Markham, president of the Illinois Central railroad, and J. H. Hall, director of the National Institute of Progressive Farming.

William A. Durgin, chief of the division of simplified practice of the department of commerce, will address the convention the second day on the "Promise of Simplified Practice in the Farm Equipment Industry."

James H. Howard, president of the American Farm Bureau federation, will discuss agricultural conditions in America on the third day and the convention will close that evening with the annual dinner, where Dr. Burris A. Jenkins, pastor of the Linwood Boulevard Christian church, Kansas City, will speak on "This New Era."

"Because of the unusual conditions faced by the industry, the several departmental meetings being scheduled immediately following the convention and the character of the program, our meeting should be more attractive," declared H. J. Samnit, secretary.

CLEAN-UP CAMPAIGN AGAINST BARBERRY

Clean-up work in the destruction of barberry bushes was started in Wayne county Wednesday with the arrival of two experts sent by the federal department of agriculture. C. H. Miller, formerly of Purdue and H. K. Snively of Cornell university will have charge of the work.

This is a continuation of the campaign conducted this summer in Wayne county by Parker Druley and H. H. Rogers, which resulted in the destruction of a large number of bushes. The few which were overlooked are now to be uprooted also.

Agricultural authorities of Ohio and Indiana are co-operating in an especial effort this year, to clean up counties along the state line so that counties which have been covered will not be re-infected by plantings which may still stand across the line. Preble county authorities destroyed a large patch near Lewisburg last year.

The common and purple barberry bushes, formerly popular in ornamental plantings, are the ones condemned. The Japanese barberry is harmless. Great damage is done to the wheat crop every year by black stem rust one stage of which lives over on barberry. By destroying the host, the eight per cent average yearly loss in Indiana's wheat crop will be prevented.

Those who have the bushes or who know of any along roadsides or in woodlands, may have them destroyed by notifying the country agent's office. The importance of such action may be understood from reports of some Wayne committees which have suffered from rust. In one case a single bush was responsible for almost absolute failure of the wheat crop for a period of 15 years, within a 50 yard radius and a decrease of the yield for a whole 30 acre field.

Sportsmen Attention!

Here is the latest authoritative information for the man who may want to go hunting. It is the summary of the provisions of the federal and state game laws and of those of the provinces of Canada. It is published by the government and is just off the press.

It gives you the conditions under which you may shoot big game and little at any point between Mexico and the north pole. It tells you when the open season begins and closes in every state. It tells you what have been the changes in the conditions under which you may shoot deer in Maine, elk in Saskatchewan, grouse in New Mexico, quail in West Virginia or turkey in South Carolina.

It tells you what licenses are necessary and what they will cost. It tells you whether you may send your kill home or if you must eat it on the spot. It tells you if you may combine pleasure and business and sell the game you kill at a good profit. In fact it tells everything that a sportsman needs to know to map out his hunting time for the coming season.

This is a free government publication and our Washington Information Bureau will secure a copy for any reader who fills out and mails the coupon below, enclosing two cents in stamps for return postage. Write your name and address clearly.

(Do not send the coupon to The Palladium. Mail it direct to Washington, D. C.)

Galveston Man Replaces Title At Eaton Office

EATON, Ohio, Oct. 12.—F. T. Frantz, Galveston, Ind., has been sent to the Eaton agency of the Pennsylvania Railway company to replace W. M. Tittle, whose connection with the local office ceased two weeks or longer ago. Pending naming of a successor to Tittle, the affairs of the local agency were in charge of R. A. Grove, the company's regular relief man, who will remain here until such time as Agent Frantz has gotten the work here well in hand. At the time of his transfer to Eaton, Agent Frantz was filling the company agency in Galveston. He is a man of family and will come here to live as soon as suitable living accommodations are available. Former Agent Tittle had been here four or five years. It is understood the Pennsylvania will again give him employment, but at what point has not been announced, so far as known here.

PROMINENT BREEDERS AT JONES & PIKE SALE

CENTERVILLE, Ind., Oct. 12.—I. O. Trip, of Urbana, Ohio, John Painter, of Springfield, the Allen Stock Farm of Fort Wayne, owned by Governor McCray, Mothe of Cedarville, Ohio, Langdon, of Hartford City, Ind., and many other breeders from Ohio and even Kentucky, and from Wayne and adjacent counties, attended the Jones and Pike Big Type Poland China sale at Hawthorn farms, north of Centerville, Wednesday. The many bidders made possible a quick sale and an average price of \$53, the total being over \$2,300. Flesher, Button, Weddle and Hindman were the auctioneers.

The purchasers, with prices paid, were as follows: Everett Button, Knightstown, No. 1 for \$115, the high price of the sale; Jesse Gray, Rushville, No. 38 for \$105, the second high price, while the Allen Stock Farms paid the third price of \$97.50 for No. 8. I. O. Trip, Urbana, Ohio, No. 2, \$55; No. 7, \$60. Cal Davis, Cambridge City, No. 3, \$50; No. 23, for \$35. No. 55, \$40; I. M. Louck, Cambridge City, No. 62, \$32; No. 43, \$32; Sam Kinsinger, Dublin, No. 29 for \$51; John Dickey, Connersville, No. 32 for \$60; Henry Bertach, Pershing, No. 11, \$45; No. 44, \$31; Gordon Brothers, Mays, No. 23, \$60; John Manlove, Bentonville, No. 52, \$86; Jenkins Brothers, Jacksonburg, No. 51, \$33.

Cor 6th & Main—The Hoosier Store—Pay Cash, It Buys More

Studebaker

The Studebaker Light-Six Roadster and Coupe-Roadster were primarily built for business use. In meeting the urgent demands of business, they naturally have fulfilled the needs of the small family.

Each is built for hard usage, day in and day out. And as they are completely Studebaker built—you know they will stand up under hard going.

The bodies are attractive, roomy and thoroughly comfortable for all-day travel. Ample

luggage space is provided under the rear decks.

There's an internal hot-spot to reduce gasoline consumption to a minimum. Valves are inclined at a 20 degree angle to give a new measure of power, greater flexibility and better acceleration. Crank shaft and connecting rods are machined on all surfaces, thus eliminating vibration and insuring longer life to the motor.

Studebaker low prices are made possible by great volume and complete manufacture. Studebaker quality is traditional.

The Studebaker Light-Six Coupe-Roadster seats two passengers; has side coach lamps, rain venter, and windshield wiper; eight-day clock.

The three-passenger Roadster has cow lights; storm curtains opening with the doors; large plate-glass window in rear curtain, and inside and outside door handles.

Both models are upholstered in genuine leather; have ample space under the rear deck for luggage; ignition and thief-proof transmission locks, and cow ventilator.
