

LEAGUE OF NATIONS HEAVILY BOMBARDED WITH CRANK LETTERS

(By Associated Press)
GENEVA, Nov. 2.—The general offices of the League of Nations receive daily an enormous number of letters from pretty well all over the world, and in these contributions the crank is well represented. The mail clerks are busy individuals, for theirs is the duty of sorting and redirecting. Countries outside the league produce the largest number of correspondents. The United States is far in the lead, and the cranks in America who feel called upon to tell the league what it should do are seemingly without number.

But Germany and Soviet Russia also aid generously in keeping the mail clerks occupied. Africans and Asiatics, as well as Europeans and Americans, find the most extraordinary excuses for communicating with the league, showing there is a world-wide mis-conception as to what the league is and what it was set up to do.

The Secretariat gets a vast amount of mail matter that ought to go to the foreign office of different governments, and it receives also a greater number of suggestions, applications and petitions that ought to go nowhere. Men and women bring to the league in all languages of the world their heart-aches, their head-aches, and the aching voids in their pocketbooks.

Asked Many Questions
The Secretariat is asked for the addresses of reliable doctors; begged to find lost husbands, and appealed to settle domestic as well as other quarrels. The requests for funds come along in a steady stream. The league has not even been immune from the beguilements of the confidence men, several Americans of this species having tried to use the Secretariat to help them out with their passport troubles.

Among the most frequent appeals are these: that the league makes the world bone dry, that it suppress tobacco as well as all drugs and drinks; that it institute a universal religion; that it reform the calendar; that it adopt a universal language; and that it give votes to women the world over.

The suggestions are mostly for the cure of the world's economic and financial ills, but some correspondents want to show the league how universal peace can be restored through the general adoption of their particular religion, want to design a new world flag, or make the league all over again after their fashion.

The league is often asked to settle strikes and to pacify divided families. The latest curious demand was from a romancer who wanted material to write an exciting novel about the league; he was referred to the Near East section.
