

## CORN IS AMERICA'S PRINCIPAL PRODUCT; GREAT FOOD SUPPLY

WASHINGTON, Nov. 22.—Corn, the Red Man's gift to the White Man, has come to be the nation's most important farm crop. Consumed either directly or in the form of meat and other animal products, it is the principal source of the nation's food supply. The 1921 year-book of the department of agriculture shows just to what extent the three billion bushel crop forms the basis of the livestock industry. Forty per cent of the crop is fed to swine on farms, 20 per cent to horses and mules on farms, and 15 per cent to cattle on farms. Only 10 per cent is used direct for human food.

Corn was one of the most important gifts America made to the rest of the world. The United States now produces about three-fourths of the world's corn crop. That corn also is an important crop in Argentina, Brazil, Mexico and some of the southern European countries, is shown in the report.

### Regulates Crop Size

Weather, insects and plant diseases have a great deal to do with regulating the size of the crop in the United States. The estimated loss caused by common smut alone during the period 1917-1920 was placed at about 80 millions of bushels annually. Of insect pests the corn-eat worm, where abundant, causes a loss of at least seven per cent of the grain on the ears attacked. The European corn borer also threatens to take a heavy toll.

The yearbook, which is obtainable through congressional representatives from the department, contains much data of interest and value to producers, including chapters on production costs and figures, financing, and advice on production according to seasonal supply and demand to act toward preventing future crisis for the corn grower.

## DODGE BROTHERS SEDAN

Many who could well afford more expensive cars are showing a marked preference for Dodge Brothers Sedan.

They find it easy to drive, economical to run, and comparable in beauty and elegance with cars much higher in price.

In the vast amplitude of Dodge Brothers closed body plant, this sedan is constructed with all the studious precision that marks the work of the finest custom builders.

Eighteen days are devoted alone to the 18 rubbing and varnishing operations which are responsible for the unusual brilliancy of its lustre.

Months of seasoning precede the use of the fine, critically selected ash which gives the body its rugged firmness.

The interior fittings, too, are chosen with thoughtfulness and rare good taste. The upholstery is covered with genuine mohair velvet of a singularly rich and beautiful pattern. The seats are roomy and luxurious.

Steel disc wheels (with cord tires) harmonize in a most effective way with the new grace and smartness which Dodge Brothers have recently brought to the lines of the body.

### HUNT FOR BOOTLEGGER REVEALS HE'S IN JAIL

CINCINNATI, Ohio, Nov. 22.—Ferd Bader, sheriff of Hamilton county, was conducting a zealous search for John Pope, following his recent indictment for burglary. He was rather concerned over his inability to find the man until he was told that Pope was in the Lebanon jail. The master looked simple enough then, and he wanted the man released. He was informed that Pope was serving out three liquor fines of \$500 and costs each, and would be in jail seven years unless he managed to raise money to pay his way out.
