WINCHESTER COUPLE CELEBRATES WEDDING

WINCHESTER, Ind., Feb. 7.—Mr. and Mrs. Conrad Meyer, of West North street, celebrated their fiftieth wedding anniversary Tuesday at their beautiful home. Serious illness of their daughter, Mrs. Joseph Funk, who is at present in the Randolph county hospital, caused the celebration to be a quiet one. Mrs. Meyer was Miss Louise Guertner and was raised in this city. Mr. Meyer came to America from Germany in 1870 and to Winchester in 1872. They lived on a farm north of the city for many years. They are the parents of five daughters and one son, Otto, who is employed in the Winchester post-office. A daughter, Mrs. W. W. Knecht, lives in Pasadena, Cal. They have several grandchildren. Many relatives and friends called on the venerable couple during the day and evening.

Mr. Meyer is 82 years old and Mrs. Meyer is 69 years old. The day also was the eighth birthday anniversary of the marriage of their daughter, Mrs. Funk.

Former Green's Fork Woman Reported Dead

GREEN'S FORK, Ind., Feb. 7.—Word has been received here by F. O. Underhill, of the death of Mrs. Elizabeth Ford, former resident of Green's Fork, which occurred Friday at St. Augustine, Fla. She leaves one sister, Mrs. Mary Brown, and many nieces and nephews, all living here.

Blackheaded Pimples Quit With S. S. S.

Why? Pimple-Poison Goes When Red-Blood-Cells Increase! S. S. S. Builds These Red-Blood-Cells.

You can be sure of this, nature has no substitute for red-blood-cells. Pimple-poison can't live in the red blood as long as there are enough rich red-blood-cells in it. More red-blood-cells!

The shame of a blemished face!

That's what you need when you see pimples staring at you in the mirror. Black-headed pimples are worse! Eczema is worse yet! You can try everything under the sun,—you'll find only one answer, more cell-power in your blood! The tremendous results, produced by an increase in red-blood-cells is one of the A. B. C.'s of medical science. Red-cells mean clear-pure rich blood. They mean clear, ruddy, lovable complexions. They mean nerve power, because all your nerves are fed by your blood. They mean freedom forever from pimples, from the blackhead pest, from boils, from eczema and skin eruptions, from rheumatism impurities, from that tired, exhausted, run-down feeling. Red-blood-cells are the most important thing in the world to each of us. S. S. S. will build them for you. S. S. S. has been known since 1826, as one of the greatest blood-builders, blood-purifiers and system strengtheners ever produced. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

S. S. S. makes you feel like yourself again

FULL HOUSE TO GREET FRITZ KREISLER FRIDAY

Fritz Kreisler, greatest violinist of our time, will be greeted by a full house when he plays Friday evening at the Coliseum. Most of the seats have been sold for his recital. Carl Lamson will be the accompanist.

The program to be given will afford full play of his power in technique and interpretation. It is to be presented as follows:

Sonata C Minor.....Grieg
Allegro molto appassionato
Allegretto espressivo all romanza
Allegro animato
Concerto No. 1, G Minor.....Bruch
Prelude—Allegro moderato
Adagio—Allegro energico
(a) Lotus Land.....Cyril Scott
(b) Polichinelle (serenade).....Kreisler
(c) Farewell to Cuchullan, London Sketches from "Scheherazade" Rimsky-Korsakoff) and transcribed by Kreisler
(1) Chanson Arabe
(2) Danse Orientale

Tickets for the recital may be reserved at the Walter Fulghum Victrola Shop, where the plat has been open since Monday.

Kreisler has been unique in the hold he has had on the musical public in Europe as well as in the United States. He is one of the few violinists who, under any conditions and circumstances, could fill the largest halls of London, Paris, Petrograd and Vienna. He attracts not merely the general public, but the connoisseur, for which he has all the brilliancy the general public demands. Underlying his art is the soundest and solidest musicianship.

To Kreisler is due entirely the splendid enlargement of the repertoire of modern violinists. For years violinists had been going along content to play the hackneyed works of modern violin literature, forgetting

and ignoring the wonderful literature that Italy gave to the world through the 17th and 18th centuries. This early Italian music, which is as beautifully written for the violin as the best Italian composers have written for the voices, Kreisler sought out and revived. As a result, his programs cover a broader field than those of any artist now before the public.

One-Man Car Entrance At Front Fools Patrons

Officials of the T. H. I. and E. traction company are trying out a new one-man car on the Easthaven-Austin switch run. Three of the cars will be used if the one now in service proves satisfactory. Several patrons of the cars were somewhat surprised in attempting to board the car. In the majority of cases, persons would attempt to board the car at the rear, but the entrance is at the front by the side of the motorman. The conductor remains on the car at present, as the fare device has not yet been installed.

Samoor Grotto Banquet At Arlington Thursday

Members of Samoor grotto will attend a banquet at the Arlington hotel Thursday night, beginning at 7 o'clock. All members of the grotto are urged to attend as business of importance in connection with the March ceremonial will be considered. The ceremonial will be staged at the Murray theatre and a class of 200 is expected to receive the mysteries of the order. Petitions for membership will be acted upon Thursday night. Patrick Heery, chairman of the stunt committee, promises some unusual features for the banquet and his skill with electrical devices assures the prophets of some thrills. Members are urged to wear their fezzes.

READY TO OPERATE SEED CORN TESTER

Preparations were made at the county agent's office Wednesday for starting the operation of the seed corn tester the latter part of the week. Although nearly 20,000 ears of corn were tested last year, an even larger amount is in sight for this season. Already, according to the statement of Mr. Dolan, there is enough corn listed for testing to keep the office busy for three weeks. All who tested last year are repeating, some requesting that all their seed corn be tested instead of only portions of it.

In case demand is strong enough and sufficient corn to justify it is listed at once, another tester will be constructed, the county agent announces. There was strong demand last year that another tester be operated in the western or northwestern part of the county, and the one tester that was operated was taxed to the utmost by late comers, being run until late in the spring.

ISAAC F. MARCOSSON TO GIVE SIDELIGHTS

Isaac F. Marcossion, world famous interviewer and magazine reporter, who is to speak in the Coliseum at Richmond Feb. 27, has met and has a personal acquaintance with many of the great political leaders of the world. No American writer has had a better opportunity to study Lloyd George than Mr. Marcossion. As a result of a long acquaintanceship, he is convinced that the fall of the recent prime minister is only temporary and that he will again return to power.

Mr. Marcossion has not only visited the famous English statesman at the official residence in Downing street, but on one occasion accompanied him on a railway trip from London to Bristol. During the journey Lloyd George made several speeches and dispatched an astonishing amount of business, while incidentally allowing himself to be interviewed by the American press.

These and other incidents are related by Mr. Marcossion in his interesting lecture, "Adventures in Interviewing," which he will deliver here.

Randolph Prosecutor Is Assaulted in Winchester

WINCHESTER, Feb. 7.—Prosecutor E. M. Dunn was attacked by Clayton Dudley, formerly of near Windsor, but now a resident of Muncie, while the prosecutor was standing in front of the Payne cafe, Tuesday. Dudley is believed to have thought Dunn "had it in for him" because of recent court action on liquor charges. The prosecutor sustained a cut lip. The assault was fined \$25 and costs on an

REGINALD McKENNA, head of the largest bank in the world, says that "Splendid isolation is a dream; a truth which every industrial leader accepts as axiomatic. Had he substituted monopoly for isolation he would have expressed another self-evident truth which would have been acclaimed by every man who has given serious thought to the development of business on a large scale.

The Standard Oil Company (Indiana) is a big business striving to do a big job in a big way, yet no thought is given to achieving a monopoly; for those who direct the Company's activities know that in any basic industry such an ambition is impossible of fulfillment. Competition is welcome, for no single organization can hope to serve the people of the Middle West with petroleum products as they should be served. The Standard Oil Company (Indiana) enjoys a large volume of business and is satisfied to let this volume take care of its profits.

There is a reciprocal bond between every great industrial organization and the social environment in which it operates. An organization is truly great only when the service it renders is great.

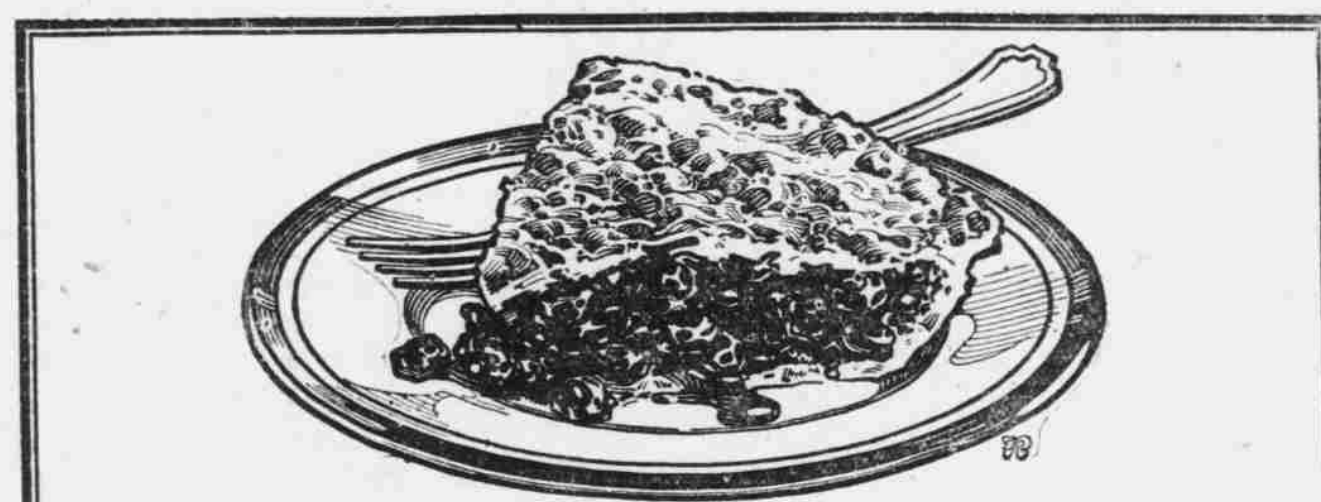

The Standard Oil Company (Indiana) is in daily contact with a community of about 30 million people.

It serves them through a host of useful products refined from petroleum. Through these products it touches the home and industrial life of the people. It enters the sick chamber with mineral oil and petroleum jelly. It enters the factory, the roundhouse, and the farmyard with lubricating oils for machines, engines, and tractors. It seeks the farm home with gasoline, kerosene, candles and paraffin. It touches the railroad right of way with Fortine Long Time Burner Oil for signal lamps; it supplies thousands of public and private garages with gasoline and lubricants. It feeds the furnaces of homes and factories with Stanolind Furnace Oil. It goes to the hospital with Stanolind Surgical Wax. It paves the streets with Stanolind Paving Asphalt.

These are but a few of the avenues of service which the Standard Oil Company (Indiana) maintains. To keep these avenues open the Company operates 1790 service stations, 3900 bulk stations, 7000 tank wagons serving thousands of garages, and 6 great refineries to supply their needs.

Thus does the Standard Oil Company (Indiana) acknowledge its reciprocal bond, and by creating a host of useful, essential products from a single basic raw material—crude petroleum—justify its claim to master craftsmanship in industrial husbandry.
