## You Can Easily Operate This Typewriter Yourself

Don't worry your correspondent. Don't write him anything by hand that takes him time to make out—that may leave him in doubt that he can't easily read.

And don't fill out legal papers or card memos—make out accounts or hotel menus in your own hand writing.

It looks bad, reflects on your standing, makes people think you can't afford a stenographer, and is sometimes ambiguous.

You can write out your letters—make out an abstract—fill in an insurance policy—enter your card memos—make out your accounts, or a hotel menu—or do any kind of writing you need, on any kind, size or thickness of paper, and space any way you want to

## The OLIVER Typewriter

**The Standard Visible Writer**  
You can write any of these things yourself if you do not happen to have a stenographer. For you can easily learn, with a little practice, to write just as rapidly, and as perfectly, as an expert operator on the OLIVER. Because the OLIVER is the simplified typewriter. And you can see every word you write. About 80 per cent more durable than any other typewriter, because it has about 80 per cent less wearing points than most other typewriters.

80 per cent easier to write with than these other complicated intricate machines that require "humoring"—technical knowledge—long practice and special skill to operate.

Than machines which cannot be adjusted to any special space—with which it is impossible to write abstracts, insurance policies, or odd-size documents except you buy expensive special attachments requiring experts to operate.

You can adjust the OLIVER to any reasonable space—you can write on any reasonable size and thickness of paper, right out to the very edge, without the aid of any expensive attachment or special skill, and your work will be neat appearing legible and clear. For the OLIVER is the typewriter for the doctor, the lawyer, the insurance agent, the merchant, the hotel proprietor—or any man who does his own writing.

Write us now for our booklet on the simplified features of the OLIVER.
