FROM OVER INDIANA

Walter J. Clark, a Danville, Ind., chicken fancier, says that he has a hen that has laid 240 eggs in 274 days. The hen is a White Wyandotte.

The Chicago, Cincinnati & Louisville railroad is completing plans to inaugurate a six-hour service between Chicago and Cincinnati, making the fastest time of any line operating between these two cities.

The reports of county health officers for the month of September now being received by the State Board of Health, show a decreasing number of contagious diseases and deaths. The improved condition is attributed to the dry weather.

A veteran of the civil war who has been a pensioner, says he was not entitled to the pension he has been drawing and he has returned to the government the sum of \$1,172. He does not sign his name in his confession and the money has been placed in the ever increasing "conscience fund."

Senator Hemenway called on President Roosevelt yesterday and informed him that Indiana will be for Taft by 25,000, and the President said "Bully." Senator Hemenway was compelled to cancel his speaking date in Rensselaer for Friday night because of business he had before departments in which the state of Indiana is interested.

Five voting machines will be given a test at the November elections in Addison township, Shelby county, the board of commissioners having decided to rent this number of machines at \$50 each. There are about 3,000 voters in the township and this will make an average of 600 voters to the machine. One vote will have to be cast at each machine every minute during the twelve hours that the polls will be open.

Litigation over a portion of the right-of-way of the Warsaw and Peru extension of the Winona traction line bids fair to delay the opening of the line until next spring. A. C. Hollaway, whose farm is penetrated by the survey of the road and whose land lies just west of Warsaw, has refused to accept a proposition made by the company and which was agreed upon some time ago. He refuses to allow the graders to go up on his holdings.

The unusual spectacle is presented in Laporte county of a grand jury indicting a railroad for building a fence across a public highway. The indicted railway is the Lake Shore & Michigan Southern. The officials directed the building of a fence across a highway at Otis. The township ordered the removal of the same. The railroad refused to comply with the township's mandate, with the result that an indictment has been returned which will bring the high officials of the railroad into the courts.

A ruling of the appellate court in the French Lick Springs and West Baden gambling resorts, owned by Tom Taggart and operated under his direction, is to the effect that the recent indictments if proven are sufficient to result in the forfeiture of the corporation's charter, and this is a severe blow to the leader of the state democracy. Fearing another raid under order of Governor Hanly the club room end of the resort has been shut down again. The Indianapolis News, which took a strong hand against county option and the governor's special session, says in its Wednesday issue "The gamblers fear Governor Hanly." It might have gone farther and said "So do the brewers, the saloon keepers, and all promoters of vice and immorality." But the people of the state, irrespective of politics, know this, and Governor Hanly's enemies can not say enough mean things about him to influence those who know that his determination to purify Indiana has been of inestimable and permanent benefit. And Governor Hanly is big enough to get the support of the majority in all important measures he has undertaken. And but for him the Tom Taggart vice-joints at West Baden would not have been molested and the moral laws of the state would not have progressed. He is fearless and powerful, and his administration will go down in history as the greatest Indiana has ever had.

Keep the Kidneys Well

HEALTH IS WORTH SAVING, AND SOME RENSSELAER PEOPLE KNOW HOW TO SAVE IT.

Many Rensselaer people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills.

John C. Humphreys, 612 Ottawa St., Logansport, Ind., says: "For 16 years I suffered from kidney and bladder trouble. Backaches, accompanied by pains through various parts of my body made me miserable, and I felt at times as though death would be a welcome relief. My lack was so lame that I could hardly turn from one side to another while in bed and it was just as difficult for me to raise from a sitting position. The kidney secretions contained a sediment and were so frequent in action as to be positively annoying. Finally I began taking Doan's Kidney Pills and one by one my troubles disappeared. It was not long before I was cured entirely and I have never had any return of the complaint since." (Statement made in 1897.)

CURED TO STAY CURED. On June 20, 1906, Mr. Humphreys said: "The statement I made in favor of Doan's Kidney Pills some years ago still holds good, as my cure has remained permanent."

Plenty more proof like this from Rensselaer people. Call at B. F. Fendig's drug store and ask what customers report.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

CARD OF THANKS.

We wish to thank the people of Rensselaer for their kindness during the long sickness and following the death of our beloved husband and father.
