George Ulm came home Sunday to remain until after the election. He is working on a dredge ditch near Sterling, Ill. The dredge is being constructed by the government along the Hennepin canal. The banks of the canal prevent a natural drainage, and the ditch that is being constructed passes under the canal by means of a cement substructure.

Frank Hill went to Madison today to see his father, who is in very poor health. He is now 94 years of age, and cast his first presidential vote in 1836. He is a republican and had hoped to be able to vote today, but Frank thought it very doubtful if his health would permit of him getting out.

Silas Swaim voted early at Morocoo this morning and then came to Rensselaer to see how things are going here. He will spend a day or two at "the best town on earth" and then go to Dayton, Ohio, and then go up to the northeastern part of that state where he formerly lived and where he will remain for some six weeks.

The Chicago Bargain Store had an old fashion day Saturday. Crowds turned away that could not be waited on.

"Follow the Wise Few Rather Than the Foolish Man."

A very small percentage of humanity know the need to care for real teeth until some friend or other source suggest advice that is accepted and acted upon.

It only requires a little effort to be one of these few, and you will have a possession that many would give a fortune to own. The first step to follow these few is a careful examination of your teeth. What should be done and what should not be done, is a matter of importance that a dentist with long experience can best decide.

You will be glad to know what I tell you about your teeth.

A. E. Bolser returned to Rensselaer to vote today and then went to Indianapolis. After a short stay there he will go to St. Louis, where he will work at his trade as a baker. He has no plans for re-starting in business for himself, but will probably do that eventually. Mr. Bolser leaves many friends here, who regret that circumstances caused him to decide to leave this place.

Grover Ritchey returned yes'yerday evening from his trip to Lisbon, N. Dak., where he worked for the past three months. He says that the farmers there have prospered greatly the past year. "Bud" Hammond is getting along fine. He and his boys farmed 980 acres this year and had an enormous crop. Bud has 27 head of fine horses and is planning to buy a farm next year if he has another successful crop.

Aug. Rosenbaum and wife have decided not to move from the hotel Rosey, but just to abandon the down stairs office and dining room, and move up stairs, conducting the hotel as it used to be when the old Newells house. The office, dining room and room and kitchen are being painted preparatory to the removal. He will also conduct the bakery formerly run by A. E. Bolser as the Little Gem. Messrs. Robinson and Chapman have not yet rented the lower hotel rooms, but are entertaining one or two propositions for them.

It is probable that the men folks will not do very much sleeping tonight. Great preparations have been undertaken to get all of the election news and both the Western Union and the local telephone offices will be kept open to get the reports from all over the nation and the various precincts in Jasper county. The Republican has undertaken to get the news on the national and state results just as soon as counted and has arranged for a man at each precinct to get and telephone the result directly to this office as soon as the count is completed.

Ray Hopkins was considerably bruised up in the game of football Wabash played against the Michigan "Aggies" at Lansing, Mich., last Saturday. "Fat" had been getting through the lines and stalling off the Aggie backs at every turn and the correspondent to the Indianapolis Star gives him a great puff for his work, but about the middle of the second half he was knocked unconscious and thinks he must have been hit in the head. Wabash lost by the score of 6 to 0. Dobbins has been out of the game for about a month, but hopes to get in against Notre Dame Friday of next week. Ray was not seriously hurt, having only a black eye, a peeled nose and a cut lip. He has had a great deal of bad luck this year, starting in with a bruised shoulder.

There is said to have been considerable betting today on the result of the state election, it being an even shot between Watson and Marshall. One Marshall champion offered to bet \$200 on his man and the bet was taken by several Watson adherents.

There have also been a few bets on the national election. It is understood that one Rensselaer man wagered \$150 to \$50 on the election of Taft.

At Indianapolis last week the odds favored Marshall considerably, but Monday night they went to even and the Marshall money was all covered. There is no doubt that the last week has hurt the Marshall chances, by reason largely of the shift in favor of Taft, and of the belief all along that the election of Marshall can not result in the repeal of the local option law. Then it is said that many other temperance democrats have decided to resent the presumption of the brewers and support any thing that is against their interests.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them; and in justification of this conviction, he points with pride to the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic liver invigorator heart tonic and regulator and blood cleanser known to medical science. Dyspepsia, or Indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections, is clearly shown in a little book which is mailed free to any address to Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by the thousands of testimonialimonials contributed by grateful patients who have cured by it of catarrhal, nervous, rheumatic, pain, periods, irregularities, prolations, and other dislocations caused by weakness, ulceration of uterus and kindred affections, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the glycerine extracts of native medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially constructed for this purpose. Both medicines are entirely free from slop and all other harmful habit-forming drugs. A full list of their ingredients is printed on each bottle-wrapper.

That, "We mean right for our customers" and

That, "We do almost the right thing always."

Thousands of people in 100 counties, our patrons, in this and adjoining states know us and believe in us. The proof of the above assertions is the increase of business of this year—14 carloads of buggies, an average sale of 50 horses per week for a year—harness, wagons, trades and other things in proportion—25 years continuous sale days at Judyville—WEDNESDAY and FRIDAY—means a record of unbroken good intentions and promotion of public confidence.

We have favors in our line for every man who intends to do right—no complaint of bad treatment can ever be heard in the crowds always found at Judyville every Wednesday and Friday—how they howl at a distance from Judyville would make good stuff for a comic weekly.
