A cold codger was put off the train here last night and today sent to Lafayette. He was as dirty as could be and Trustee Stackhouse found that he was literally alive with ticks. He said he was tired of traveling and wanted to be taken to the country farm to live, but as he had been sent here from Hammond Mr. Stackhouse properly did not want to burden the tax payers with him and he did not like the impudent manner of the old man. He told some fish stories about having come from the west and having been robbed in Chicago. The "shove along" policy is about the only thing to hand to such fellows.

Earl now has a fine large brick rooming house at Mayville, which he has furnished throughout and which they will fill with students at the state normal school, unless he finds a trade that looks good to him. Earl would probably sooner be in Rensselaer than any other place on earth and it is not improbable that he will some time get back here.

"The Wolf" Highly Endorsed.

Manager Ellis of the Rensselaer opera house received a letter last Friday from Joe Jennings, the manager of the Grand theatre at Anderson, stating that "The Wolf" had just played his house and that he had met Gus Phillips. He said that he understood that a number of people from Rensselaer were going to Lafayette to see the play, and he gives the performance this endorsement: "I want to say honestly that it is one of the best balanced companies I ever had in my house, and you can safely say that the play presented by the same cast as seen here is almost satisfactory in every detail."

Omar C. Ritchie, formerly of Rensselaer, and a leading furniture dealer at Anderson, wrote the Republican under the date of Nov. 7th, as follows:

"Enclosed you will find a criticism by our leading newspaper 'The Morning Herald' of the play 'The Wolf' as presented by the Shubert Co. last evening. It is unusual for this paper to pay attention to theatrical folk and I am glad to see it compliment Gus Phillips for his most excellent work as leading man. The play is an unusually strong one, stage settings are perfect in their realism and all of the cast have a fine understanding of their parts and the fine audience fully appreciated their efforts. To one familiar with the life in the far north, with all its romance, mystery and tragedy, this play makes a strong appeal, because of its fidelity to nature. I am glad to note that many of Gus's friends in Rensselaer are expecting to witness its production at Lafayette on the 10th inst. I can assure them an evening of pleasure and of pride in the success of their fellow townsmen. Gus Phillips is on the high road to success and may his star increase in lustre and add to the pride we now feel for him as one of Rensselaer's favored sons. Let all of his friends go to Lafayette and give him a rousing reception. He deserves it and is worth the money."
