

DEMOBILIZE FIGHTERS DURING OCTOBER

CARLISLE HEADS WAR ON PRICES

FORMER FOOD
DICTATOR IS
BACK ON JOB

War-Time Organization of State
and County Will Fight
Rising Costs.

Authorized by the United States government, a committee, headed by Charles Arthur Carlisle, former food administrator, has been organized in South Bend to crush profiteering in South Bend and St. Joseph county.

The organization to array its efforts and influence against the high cost of living and unfair prices here will be practically the same body that controlled food prices in the county during war time.

The first step in the determined move to stamp out the evil in this county was taken Tuesday morning when Mr. Carlisle received a request from H. E. Barnard, former food administrator of Indiana to reorganize the food control body that operated during the war into a "price" committee.

The "price" committee will not only investigate food costs but also the price charged for shoes, clothes and other retail necessities. Violations of the law such as hoarding

TO ALL DEPUTY FOOD ADMINISTRATORS AND TO ALL OTHERS INTERESTED IN THE EQUITABLE AND FAIR REGULATION OF FOOD PRICES.

The office of the food administrator for St. Joseph county is located at 407 Citizens National bank building, South Bend, Ind., and your cooperation is asked for. Please report promptly any and all violations.

C. A. CARLISLE,
Food Administrator for St. Joseph County.

and excessive prices will be promptly reported by the St. Joseph committee and will be vigorously prosecuted by the federal government.

For the guidance of the St. Joseph consumer Mr. Carlisle and his committee will publish lists of what they have found to be honest and just prices of retail necessities.

Barnard Makes Request.

Following the request from Mr. Barnard received Tuesday morning, Mr. Carlisle spent the greater part of the day at his office in the Citizens bank building getting out word to members of the old food administration organization and perfecting plans for the coming campaign against South Bend profiteers.

Food prices are not the only questions to be taken up by the organization but the scope of the committee's work is broadened to shoes, clothing and that one other great item in the cost of St. Joseph county living—rent.

Following is the letter received by Mr. Carlisle from Mr. Barnard:

TO COUNTY ADMINISTRATORS:

The industrial crisis our country is facing prompts our earnest consideration of the economic problems which lie back of unrest and social disorder. Atty. Gen. Palmer, remembering the splendid work of the United States food administration, has asked me to recall to service our entire food organization and to place the county administrators in full charge of the situation in their several counties. I am therefore asking you to take up again the work of food control and the enforcement of the Lever law, especially as it relates to hoarding, profiteering and waste.

To Farm Committee.

Atty. Gen. Palmer instructs me to ask you to form a "fair price committee" which will include one retail grocer, one wholesale grocer, one dry goods dealer, your labor representative, your county chairman of food clubs and as well, several representatives of the consumer. May I suggest that you include other trades or businesses, if you desire, as it is our wish to secure data on the price of all commodities which may be unfairly priced, such as coal, ice, shoes, rentals, etc.

Letters are going out today to all

COVENANT WOULD
FETTER AMERICA
LODGE DECLARES

Asserts United States Could
be of Greater Service
Alone.

WASHINGTON, D. C., Aug. 12.—America, independent, can be of greater service to the world than America "fettered" by the League of Nations, Sen. Lodge, Massachusetts, republican leader of the senate, asserted today in a senate speech on the League.

"By meddling in all the differences which may arise among mankind, we simply fritter away our influence and injure ourselves to no good purpose," said Lodge.

"We shall be of far more value to the world and its peace by occupying, so far as possible, the situation we have occupied for the last year, and by adhering to the policy of Washington and Monroe."

Lodge denied this means a policy of American isolation. That, he said, is no longer possible, because the United States became a world power at the time of the war with Spain.

"Nobody," said Lodge, "expects to isolate the United States or to make it a hermit nation. But there is a wide difference between taking a suitable part in world responsibilities and plunging our country in every controversy and conflict on the face of the globe. One great element of our strength in the war just closed was that we had held aloof and had not thrust ourselves into European quarrels; that we had no selfish interest."

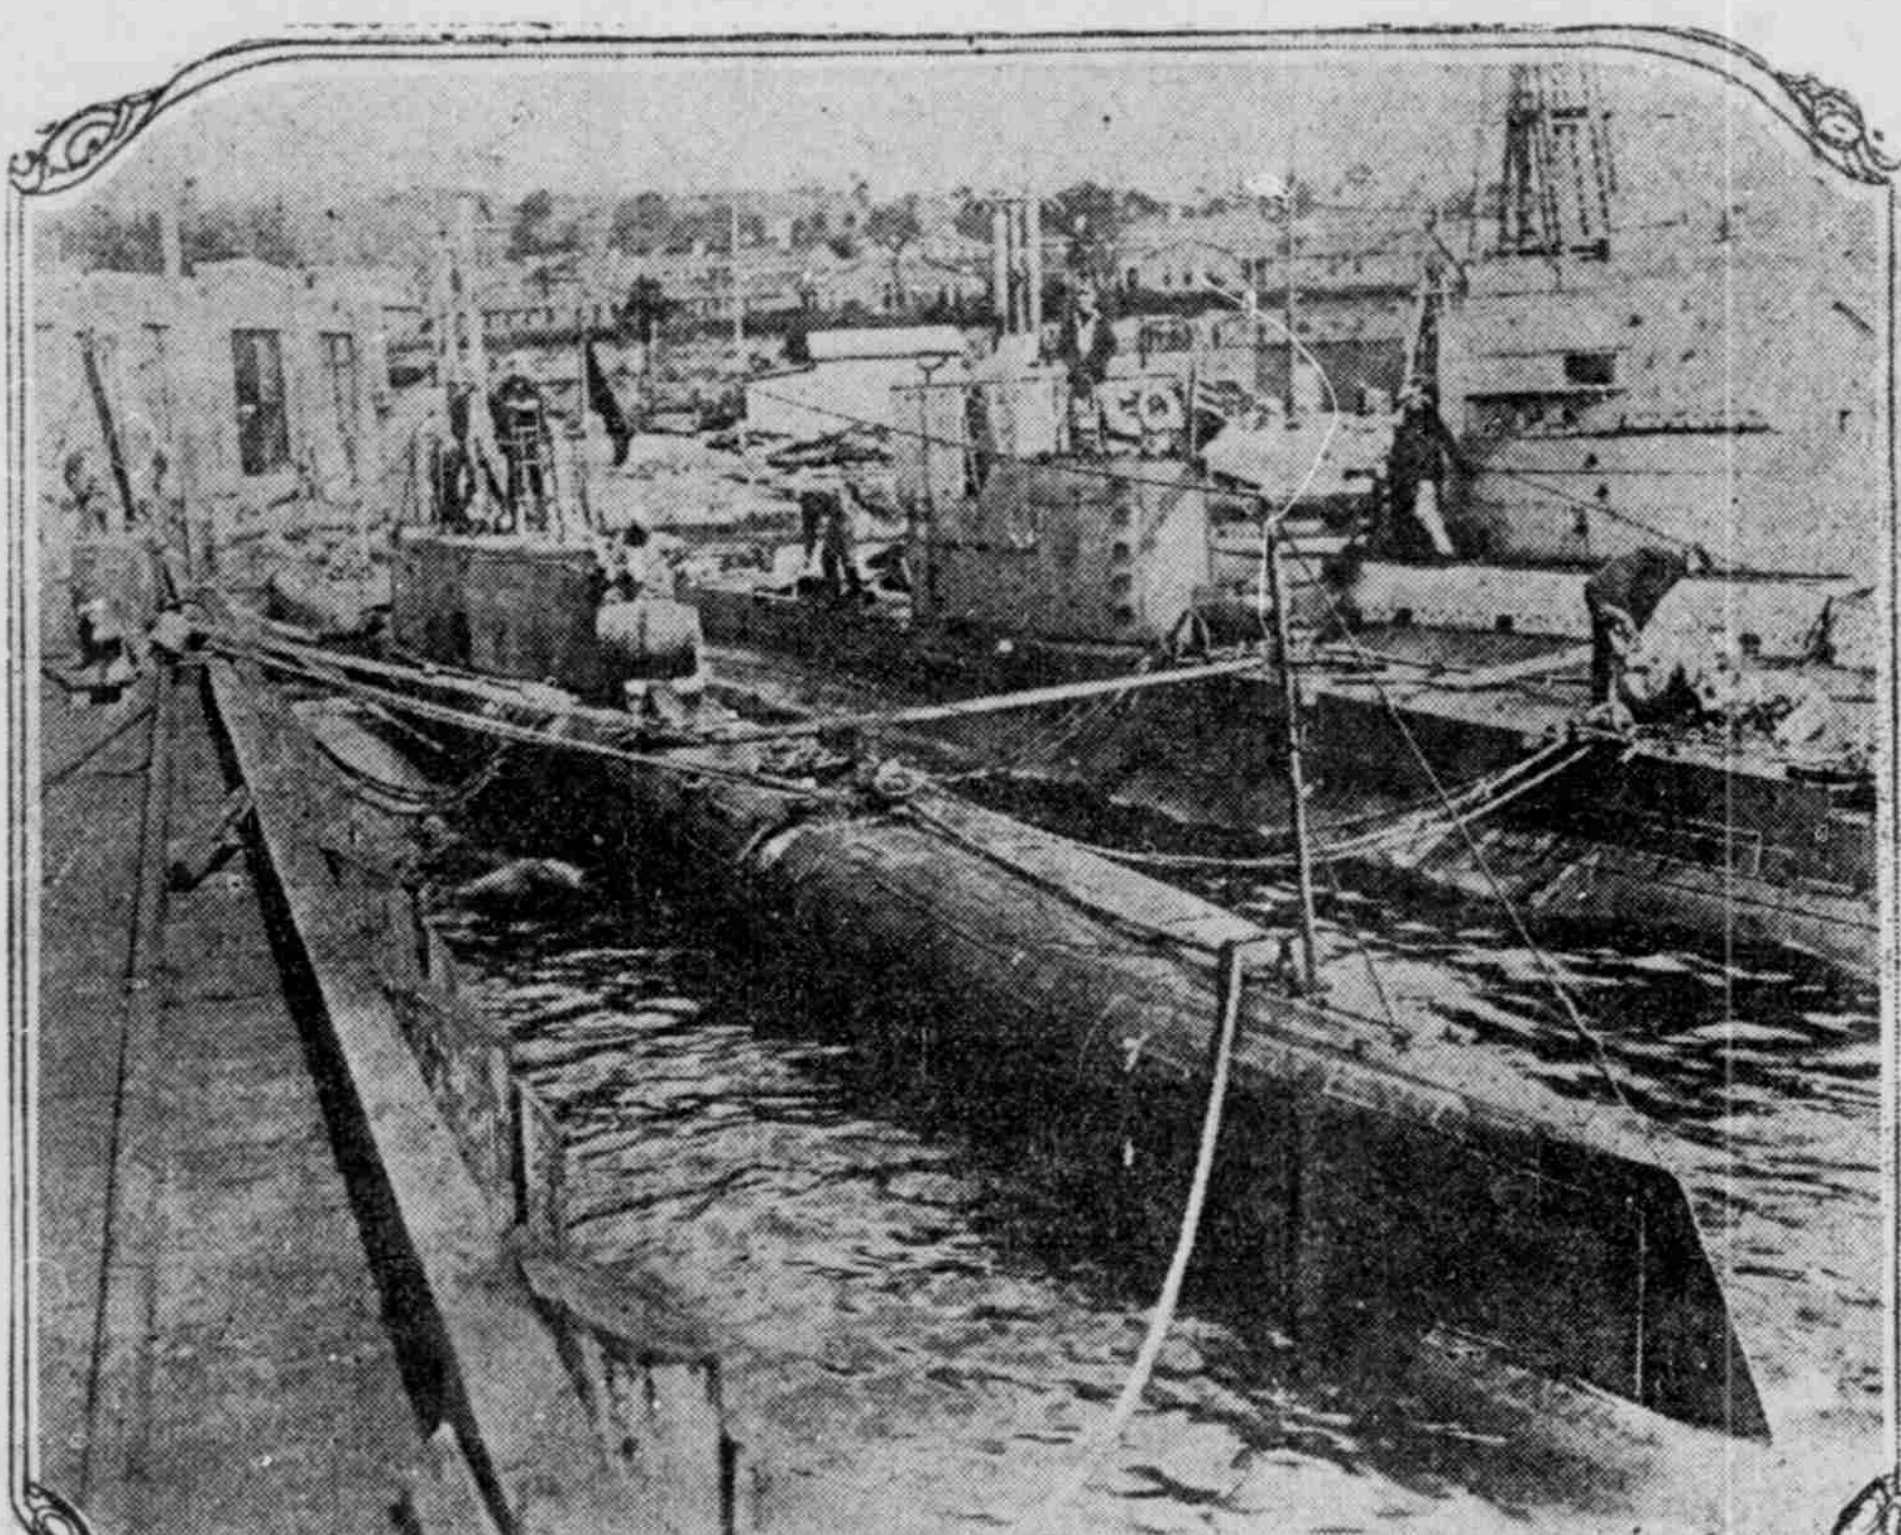

Lodge declared that the League covenant, instead of providing for perpetual and universal peace, as its advocates declare, really sets up an alliance, the principal provisions of which are for war and not peace.

If the League were a peace League it should have given more attention to establishment of an international court and less to providing for war in case of violation of its orders, Lodge declared.

"The conditions for which this League provides are political, not judicial," said Lodge. "Such being its machinery the control being in the hands of political appointees whose votes will be controlled by interest and expediency, it exhibits the most marked characteristic of an alliance—that its decisions are to be carried out by force. The development of international law is neglected. The court which is to decide disputes fills but a small space. This League to enforce peace does a great deal for enforcement but very little for peace."

Lodge declared that so long as Article 10 remains in its present form and provisions covering withdrawal, Monroe doctrine and control of domestic questions unaltered, he will not vote for the treaty.

The Shuberts have filed suits in the United States district court for \$500,000 damages against the Actors' Equity association, collectively and nearly 200 members individually.

Florenz Ziegfeld, Jr., obtained a temporary injunction against officers of the Equity association, preventing them from interfering with the "Ziegfeld Follies" and another agreement, preventing them from walking out.

The Shuberts' suit, based on the forced closing of two of their productions, will be followed by similar actions, brought by other managers, it is understood. Among the prominent actors named in their suit are Joseph Santley, Sam Bernard, Ernest Truex, Eddie Foy, Mary and Florence Nash, Alla Nazimova, Fred Stone, Otis Skinner, Julia Sanderson, Francis X. Bushman, Richard Carle, Douglas Fairbanks, William Hart, Laurette Taylor, J. LOVGREN, QUSTED,
HAS NO COMPLAINT

"I Should Worry," Says Former Policeman, "I Was Really Guilty."

Arthur Lovgren, dismissed "under a cloud" from the South Bend police force after a hearing by the board of safety Monday night, beamed upon his former fellow workers at the police station Tuesday morning and said:

"I have no complaint to make." "I certainly can't kick," he told an acquaintance as he smiled reminiscently following his "grilling" before the board Monday night when he was found guilty of inefficiency and conduct unbecoming an officer. "I mean to say that I was really guilty of the two charges upon which I was discharged."

The former policeman seems no more worried or concerned over his dismissal than does Bert Miller, also recently discharged from the force for connection with the disappearance of booze from the city hall "bull pen." Asked what work he now intends to take up Lovgren smiled still more broadly.

To Live on Farm.

"I should worry," he said. "I haven't decided just what I'm going to do yet."

CONGRESS TAKES
UP LIVING COSTS

Farm Representatives Confer
Over Abolishing U. S.
Grain Control.

BY RAYMOND CLAPPER.

WASHINGTON, Aug. 12.—Congress today took up a number of measures designed to reduce the cost of living.

The Myers resolution to study the advisability of legislation to regulate exports of foodstuffs, clothing and other necessities was before the senate for action.

Sen. Reed, Missouri, expected to speak on the cost of living in the senate today.

"I am not in favor of letting great quantities of food, shoes and clothing go abroad while we are required to pay tribute to profiteers here," Myers said, in urging adoption of his measure.

The grain situation engaged the attention of the senate agriculture committee. Heads of farm organizations were in conference with the committee over proposals to abolish the United States grain corporation, wipe out the minimum wheat price guarantee and revise grain grading regulations so millers cannot take cheap wheat and make high priced flour from it.

Pres't Wilson's recommendations for new legislation contained in his cost of living message last week before a special sub-committee of the interstate commerce committee headed by Sen. Townsend, Michigan.

The sub-committee has full authority to draft measures along the lines proposed by Pres't Wilson and will consider bills introduced by other senators.

Sen. McKellar, Tennessee, was preparing a speech in favor of regulating cold storage, which he expects to deliver tomorrow.

In the house the agriculture committee was trying to decide on some government legislative action that would force onto the market some large amount of food in cold storage warehouses. With the plan for licensing declared ineffective and probably unconstitutional by government attorneys, the committee was today considering the bill to put a heavy tax on articles kept in storage longer than six months. The tax increases with the number of months the food is stored.

WHOLESALE
MAKE CUTS IN
FOOD PRICES

Government Campaign to Reduce High Prices Is Having Effect.

By United Press:

WASHINGTON, Aug. 12.—Wholesale food dealers have begun to make big reductions in prices of vegetables, dressed meats and fruits, government reports showed today.

With the campaign to reduce the high cost of living in full swing, comparison of quotations of July 28 with those of Aug. 11 showed a marked decline, which set in after the attack on unjustified prices began.

Potatoes have been cut from 50 cents to \$3.40 a barrel since July 28, according to quotations collected by the bureau of markets.

Slashes in the prices of dressed meats range up to 50 cents a pound for pork loins.

The cutting also has been extended to beef, the figures showed.

Big drops are noticeable in quotations for Boston, New York, Philadelphia and Chicago. A few price increases are shown for some grades of meat. The figures indicate the downward trend is general and that increases are exceptional.

Meat Prices Take Drop.

For meats, 182 comparisons were made of quotations collected by the bureau of markets yesterday and on July 28. In 167 comparisons price cuts were found. Increases totaled 50, while in 25 comparisons there was no change.

In vegetables and fruits the proportion of price cuts was greater. Cuts numbered 22 and increases only three while the no change comparisons were limited to one.

Some vegetables and fruits that have been depressed in price are onions, which dropped 45 cents a hundredweight in New York and 50 cents in Chicago; peaches, 50 cents a carrier of six baskets in New York, 25 cents in Baltimore and 75 cents in Chicago. Watermelons declined from \$1 to \$1.50 per carload in New York and Chicago. Cantaloupes per crate of 45 melons, dropped from \$2.50 to \$2.75 in New York; \$1 to \$1.75 in Baltimore and 50 cents to 75 cents in Chicago.

Pork Is Much Lower.

Dealers in pork loins have made big cuts in prices charged retailers in Boston, New York and Philadelphia. Loins weighing 14 pounds or better sold for from 30 to 32 cents per pound in Philadelphia July 28. Yesterday they brought from 25 to 27 cents a pound, showing a reduction of five cents per pound.

Wholesale dealers in loins have put down prices from one to four cents in Philadelphia and slightly less in New York.

ANTI-BOLSHEVICS
APPEAL TO ALLIES

Military, Financial and Railway Support Urgently Needed by Russia.

WASHINGTON, Aug. 12.—The anti-bolshevik government of the Archangel region in Russia today appealed to the allies not to withdraw their support. The note was made public by the state department.

Military, financial and railway support is urgently needed in the northern part of Russia, it was said from the bolshevik, the provisional Archangel government said. The note concludes:

"The provisional government is responsible for the fate of the region which has confided in it, and which has so far borne with patience all the war's burdens and is moreover bound before its own conscience and before its own native land to contribute its utmost to the reconstruction of Russia. Therefore, the provisional government of the northern region begs the allied powers to weigh all the consequences and again to examine the advisability of abandoning north Russia and leaving it without financial and military support."

FORM PLANS FOR
INTERNATIONAL
LABOR MEETING

Eight-hour Day For World Will be Considered at Conference.

By United Press:

WASHINGTON, Aug. 12.—With the international labor conference created under the peace treaty called to meet in Washington Oct. 29, interest centered today in the problems that will be taken up by this convention.

According to Dr. James Shotwell, American representative in the international organizing committee and E. H. Greenwood, assistant secretary of the conference, the following questions will be considered:

- 1.—An eight-hour day policy for the entire world.
- 2.—State help for unemployed.
- 3.—Regulation or prevention of child labor.
- 4.—Conditions of employment of women.

Several hundred delegates are expected to attend the conference, which will be the greatest labor gathering in history.

Only nations which have ratified the treaty may participate, however, and it was pointed out today there was a possibility the United States may be unable to take part.

The purpose of the conference is to draw up legislation on various phases of the labor problem—state help to remedy unemployment for instance—which will be submitted to legislatures of league of nation members.

With regard to child labor, a number of delegates are known to be ready to introduce resolutions against employment of children under 14 years of age.

The women in industry question, it was learned, will be divided into three phases—prohibition of work for expectant mothers, and those who have just become mothers, with a national fund for their maintenance during this period; abolition of night work for women and regulations to safeguard women in dangerous trades.

Pres't Wilson, it was announced last night, has sent word to American diplomatic representatives to invite the nations to which they are accredited to send delegates to the conference. Calling of the meeting so soon was believed to have been influenced by the general labor unrest and the labor problems requiring solution.

The national railroad conference to consider nationalization of railways will meet here two weeks before the international labor gathering.

MADE PUBLIC

"Universities in Khaki" Will Be Maintained in Permanent Camps.

By United Press:

WASHINGTON, Aug. 12.—Demobilization of combat troops will be practically completed by the last of October, Sec'y Baker stated today in announcing permanent home stations for the regular army divisions that served overseas. Their stations are:

First division, Camp Taylor, Ky.
Second division, Camp Travis, San Antonio, Tex.
Third division, Camp Pike, Ark.
Fourth division, Camp Dodge, Ia.
Fifth division, Camp Gordon, Ga.
Sixth division, Camp Grant, Ill.
Seventh division, Camp Funston, Kans.

The second division had been slated to go to Camp Kearney, Calif.

In the divisional camps and in permanent camps in the southeastern department and elsewhere the new "universities in khaki" will be maintained, Baker said.

In asking civilians to regard soldiers at the permanent camps in the same way that university towns regard students, Baker said:

"The nation's debt to the splendid units of the regular army can never be paid. Each one of them has traditions that should be inspirational to their effect upon the young men who belong to them, working for high standards of service and sound Americanism in the army and out of it. Let us realize this and show our gratitude by our helpfulness."

TO WIFE OF CARNEGIE

WASHINGTON, Aug. 12.—Pres't Wilson today sent a telegram of condolence to Mrs. Andrew Carnegie. The message was:

"May I not express my deep sympathy at the loss of your distinguished husband. His death constitutes a very serious loss to the forces of humanity and enlightened public service and takes out of the world a force which it could ill afford to lose."
