August Fur Sale

Our August Sale of Furs gives customers an opportunity to buy Furs at the lowest prices of the year.
The reductions are genuine, being Advance Prices—ahead of the season and average 15 to 20 percent savings over mid-season prices.
The reasons for this saving are that early prices are always lowest, and we simply give the customer the benefit—that by selling a quantity of Furs ahead of the season—we can afford to sell for less.
All the new styles are here in the many kinds of Furs, both low in price, medium in price and the finer qualities.

August Blanket Sale

Our August Sale of Blankets has become a standard Money Saving Sale. For many years we have made it a point to have three or four thousand pairs of Bed Blankets in Cotton, Cotton and Wool, and All Wool in many grades, many weights, colors and patterns.
A large portion of these Blankets are salesmen's Samples—that are bought by us considerably under price and sold to our customers in the same manner. Some of them are slightly soiled, but are decided bargains.
This year it is more important than ever to buy your Blankets ahead. Our stock has been purchased a long time and the prices we are making are the prices of last season or as near those prices as we can make them.
