

## "Bunko Men" Get \$700 In Sale of Empty Suit Case

Special to The News-Times: HAMMOND, Ind., Aug. 20.—By a clever ruse, "bunko men" here, Tuesday afternoon managed to separate Paja Mikulichan, of Indiana Harbor, out of \$700 cash. Mikulichan was enjoying a day of rest and was sitting in one of the local parks when two strangers with a suit case approached him. Out of the corner of the suit case stuck four one dollar bills.

They stopped at the bench on which Mikulichan was sitting and had little difficulty in explaining to him that the suit case contained \$18,000 which was to be distributed to the poor of the city. They told him that they would let him do the distributing provided he could assure them that he would do the job properly.

Mikulichan immediately went to his home and returned with \$1700, which he gave to the men. They in turn gave him the suit case. When Mikulichan opened it he found that it was stuffed with paper, but the men were gone.

## News of the City from the Official Records

## "Burning the Midnight Oil"

THAT, literally, is the reason why the American has won the proud distinction of being the best educated man in the world.

Because a cheap, dependable, illuminating oil made from petroleum was developed first in the United States, the people of this country had the opportunity of studying late into the night long before such luxury was possible elsewhere.

The petroleum industry, in which the Standard Oil Company was a pioneer, has made it possible, even in remote places, for man to read, study and acquire knowledge in comfort, after the day's work is done.

The tremendous development of America shows that the American has "burned the midnight oil" to good purpose.

The seven men who manage the Standard Oil Company (Indiana), the 19,568 men and women who carry on the business, and the 4623 stockholders, all are proud of the fact that their Company has been, and is, such a potent influence in the development of the nation.

Today the Standard Oil Company (Indiana) operates the greatest and most complete refinery in the world, together with several others of lesser output.

Throughout 11 states the Company distributes the refined products so thoroughly that even those in the remote corners are able, at all times, to get their requirements at a low price.

Thus is shown another marked benefit accruing to all from the activities of the Standard Oil Company (Indiana) as a public servant.
