HUNGARIANS HAVE FISTIC ENCOUNTER

Mix-up in North Side Flats Leads to Arrests of Two People.

Like Sharvak, 809 E. Battell st., this city and Julius Hadron, 501 E. Scott st., South Bend, were arrested by the local police last night. The arrests are the results of trouble which occurred in the Hungarian flats on the north side. Sharvak is charged with intoxication and Hadron with assault and battery.

The men got into a quarrel over a trip to South Bend in Hadron's machine for which the latter had charged Sharvak \$2.00. In the heated argument which followed Hadron is alleged to have struck Sharvak across the face causing severe injuries to the latter's nose and eyes. Sharvak became angry and started after Hadron. He saw his car on the street and attempted to destroy it. In the process he ran his hands through the window shield sustaining severe cuts.

Both men will be arraigned before Judge Feig in the city court Friday morning.

BERLIN, Aug. 21.—Reorganization of the foreign office will begin soon but it cannot be expected to move very swiftly since the newcomers must take some time to become acquainted with their new work, says the Deutsche Allgemeine Zeitung.

Already one new minister, an undersecretary, a political director and a personal reporter have undertaken their new duties at the foreign office.

The system will be altered so that one individual will control all relations with one given country where, as now, political, commercial and new relations were handled separately.

Fifty Diplomatic Posts.
There are about 50 diplomatic posts to be filled besides countless legation and consular positions.

The rank which diplomats will take is still uncertain and it is considered probable that many countries will appoint charge d'affaires, an example which Germany must follow.

The Allgemeine says that the general commissary at Versailles, Director Simonne after leaving the state service, will become business director of the imperial association of German industry.

Troops Pursue Captors

Troops of the eighth U. S. cavalry are now in Mexico, searching the mountainous country near the border for the bandits who captured and held for ransom Lieuts. H. G. Peterson of Hutchinson, Minn., and Paul H. Davis of Southmore, Calif., pictured above. Dispatches today reported that two Mexicans had been captured, but that the prisoners denied any connection with the band who caught the American aviators when they were forced to descend on Mexican soil.

CLEVELAND HOLDS SHIPS OF WORLD

Anchors Manufactured There Are on Vessels of the Seven Seas.

CLEVELAND, O., Aug. 21.—Wherever ships rest at anchor on the seven seas or their tributaries some of them held by Cleveland made anchors and anchor chains, according to Cleveland vessel men. For in Cleveland, an inland port, more anchors are fashioned and chains welded than in any other city in this country, and perhaps in the world.

Eight carloads of steel anchors, the largest single consignment on record, recently was shipped from Cleveland to the Emergency Fleet corporation at Hog Island. They will be placed on the fleets of modern trading ships which America is sending after the trade of the world.

They are modern "national stockless" anchors of the latest approved design. The old-fashioned "T" bar at the top has been eliminated but the rabbit-eared flukes are turned and built to hold to the ocean floor wherever cast.

Before the war, Cleveland anchors were famous in Great Lakes. But it was only when ships went down to sea the anchors made inland became world famous. Now they are carried not only under the American flag but under the banners of almost every nation.
