ENGINE HITS AUTO ON E.-W. TRACK

Motor Goes Dead — Passengers Jump for Lives—Machine Demolished.

Barney Rabenstow, manager of a saw mill on E. Marion st., and an employee, had a miraculous escape from death Friday afternoon when the car in which they were riding was struck by an engine on the crossing of the E. and W. near Clark's laundry. When on the middle of the track the motor stalled, and efforts to start the machine, a Studebaker six, failed. A freight, which had just left the Woolen company was approaching at a rapid speed, but was unnoticed by the men until a few yards from the machine. They jumped to the ground not a moment too soon. The engine ripped into the car demolishing it completely. The men were unhurt.

SHOW MANAGERS MAKE STATEMENT

Declare Actors Are Highest Paid Workers in the World and Strike Is Unjust.

NEW YORK, N. Y., Aug. 30.—Declaring that actors are among the highest paid workers in the world, and have shorter hours than those of any other occupation, the Producing Managers' Protective association Friday night issued a statement defining its anti-labor position in the present actors' strike.

"The strike is neither founded upon a demand for increased wages or for shorter hours," says the statement, "and as the demands are the primary inducing causes for the formation of unions and affiliation with other unions, it is evident that the actors are strangers to the fundamental needs of unionism."

Make Definite Statement.
The Producing Managers, who had not made a definite statement of their position before Friday night, said it had been purposely withheld until representatives of the association could confer with Samuel Gompers, president of the American Federation of Labor. This conference was held in Washington yesterday, with George M. Cohan and Ar-

thur Hopkins representing the managers.

"From the standpoint of the employer the chief hardship of unionism is the closed shop," the statement added. The actors agree that the closed shop would be a serious menace to the theater and have publicly declared that they would not bring it about.

"Failing to secure from the managers a satisfactory contract, the Actors' Equity association affiliated with the White 'Rats' of America, which in turn was affiliated with the American Federation of Labor. This placed the actor under probable obligation to various other branches of labor, and in an instant his liberty was gone."

In New Zealand it is proposed that the railway locomotives shall each receive a patriotic name to perpetuate some of the great events of the world war.

MAY FORM LABOR PARTY IN STATE

Convention at Indianapolis Endorses Movement to Cover All of Indiana.

INDIANAPOLIS, Ind., Aug. 30.—Formation of a state labor party was endorsed by the Indiana State Federation of Labor delegates in convention here Friday and a referendum vote among members will begin at once to determine if a majority of them approve the action of the delegates.

The labor party resolution was introduced by a group of delegates

from District No. 11 of the United Mine Workers of America, Terre Haute. All but one member of the resolutions committee signed a report favoring rejection of the resolution, but O. W. Miller, of Fort Wayne, made an oral minority report favoring the new party and it was endorsed despite the majority report of the resolutions committee.

Several delegates spoke in favor of the party resolution from the convention floor.
