

EVANGELIST WILL OPEN CAMPAIGN SUNDAY MORNING

Work on Tabernacle Building Will be Completed Saturday.

Indications from the 26 churches of South Bend which are affiliated with the Bob Jones revival meetings point to a record breaking crowd for the opening meeting at 11 o'clock Sunday morning, April 11.

Work on the large tabernacle on the banks of the St. Joseph river between Washington and Colfax ays. is progressing and will be completed Saturday. Workmen were busy Friday on the benches that are to seat the crowds during the five weeks revival.

"Many men who promised to work on the tabernacle have not shown up yet," said Don Cochran, advance agent for Bob Jones, and in charge of the construction of the tabernacle. "If I get these workmen Saturday afternoon the sawdust can be spread over the ground and everything should be in readiness."

Arranges Music. Loren Jones, who has conducted the music in the Jones meetings for six years, arrived in South Bend Friday and had everything ready for the first rehearsal of the chorus of over 600 voices to be held in the tabernacle Friday evening.

Mr. Jones, as first announced, is not a brother of Bob Jones, but a brother of Bob Jones, and is assisted by his wife who will be at the piano and have charge of the work among the women.

Bob Jones, the evangelist who will lead the five weeks meetings, was born near Dothan, Alabama, 36 years ago on a small southern farm. Ten other brothers and sisters had arrived before Bob and one came after him.

Was a Farmer. Bob passed the early part of his life on the farm in an uneventful manner until he reached the age of 16. At this time he lost his mother and soon after left the farm and began his studies in a neighboring high school.

At the age of 20 he was pastor of a church and had been preaching since he graduated from high school. He studied in one of the colleges of Alabama during spare time and soon after began evangelistic work. He has been in that field since that time and has conducted meetings in nearly every section of the country.

Rev. Jones' sermons are filled with southern anecdotes of the life among the negroes and other little homelike sketches. He has a strong southern Alabama brogue and a quick delivery that causes his audiences a little trouble until they become accustomed to his delivery.

Preacher Since Youth. Unlike most of the evangelists of today, Bob Jones is not a reformed preacher. Since his early youth he has been a preacher and for over 16 years has been pastor of churches or in evangelistic work. He loves fun and funny stories and enjoys a joke, even though the joke be upon himself.

Rev. Jones is primarily a man's preacher. In nearly every campaign he has conducted he has made a decided strong impression with the male members of his congregation. He uses forceful argument and strong delivery in his sermons that have a direct appeal to every man that listens to him.

SEEK LOWER PHONE RATES IN MUNCIE

MUNCIE, Ind., April 9.—Suit was filed in the circuit court here Friday against the Indiana public service commission by the city of Muncie asking that the city set aside the judgment and order of the service commission recently made granting higher rates for telephone service to the Central Union Telephone company. The city charges that the rates are discriminatory, unreasonable, unlawful, and unjust. The domestic telephone rates in Muncie were raised 25 cents the first of April.

CLOSING OUT SALE. Having sold my lease will sell entire stock groceries and fixtures at once, regardless of cost. F. J. HYDE QUALITY GROCERY, 909 S. Michigan St. 2262-11

Odd Pants, Patches and Protests Are to be "The Thing" in Men's Attire

Odd pants, patches and protests are to be "the thing" in men's attire this season.

That was the "hunch" today of local tailors who said men are bringing in their old clothes to be made over again.

Said one old clothes "surgeon"—"The price of men's suits are too high. Instead of buying new suits men are bringing in their old trousers to be patched up or buying an odd pair of trousers to replace the old."

New suits are being worn chiefly by workmen, said one tailor. "The people who have money won't pay the price," he said. "The workmen are our best customers and demand the highest priced clothes."

Tailors' assistants are rolling in wealth, he said. Button hole workers and cutters who formerly received \$15 and \$20 a week are now getting \$50 and \$60.

WEARING CLASSY CLOTHES.

INDIANAPOLIS, Ind., April 9.—Paul Brummels today would rather have classy roadsters and pay servants than follow Paris style dictates, cleaning and dyeing establishments here agreed today in explaining their unprecedented increase in business.

"A lot of people are having clothes rejuvenated until the last so they can pay the price of gasoline and live in fashionable neighbor-

hoods," one cleaner said. "We know a lot about the price of the majority of Easter clothes this year."

BUY MORE CLOTHES. DETROIT, April 9.—Detroit residents in all walks of life are buying more clothes than ever in spite of high prices, inquiries at a number of retail clothing and tailoring establishments disclosed today.

"There does not seem to be very much basis for the idea that people are wearing their old clothes to avoid buying new ones," one dealer said. "They are buying now at a heavier rate than usual and our Easter business this year was almost phenomenal."

People are taking better care of their clothes, however, according to cleaning establishments and tailors.

PREDICT CHEAPER CLOTHES. WASHINGTON, April 9.—Clothing prices should begin to drop soon in the opinion of government officials who study raw wool and textile markets. The drop probably will not affect spring and summer clothing, but should begin to be felt this fall, they said.

The following conditions give promise to price reductions: Thousands of persons are not buying but are wearing out their old clothes. Raw wool prices seem now to have reached the high water mark. Labor conditions are quiet in the New England textile districts although wages still are high.

COLLEGE STUDENTS JOIN RANKS OF LABORERS

Calloused hands, grease and dust hold no terrors for more than 150 Notre Dame students who are spending the two weeks' Easter vacation in and around South Bend. They have turned to clinder piles, stables, hod-carrying and to other sources and forms of manual labor. A hundred of them are serving as common laborers in South Bend factories.

"The only trouble with them," says a factory foreman, "is that they work too damned hard. They're forever after more work to do. They keep us busy finding work for them."

The Easter vacation had hardly begun when students whose homes are too far-distant from the university to make an Easter trip while, desisted the employment offers. They got jobs. At Notre Dame a score of them were put to work carrying bricks and lumber for the new Scholasticate now in the course of construction. Twenty-five more donned the overall took picks and shovels and began to clear away the clinders that had accumulated outside the university heating plant.

confessed his ambitions to a group. "Boys, I'm going to be a rovin' marine and wear dem clothes. Les, I like Notre Dame but did you see dem clothes. Why boys, I'd do anything to wear 'em. Even if I has to be a lieutenant I think I'll join up wid dem rovin' marines."

EXECUTOR SEEKS JUDGMENT. George Vinson, as executor of the estate of Minnie Miller, asks \$1,200 judgment in suit filed against Edward Knowlton in circuit court Friday. Vinson said \$990.16 had been loaned Knowlton by Mrs. Miller before she died and he showed cancelled checks and telegraph receipts covering that amount.

But the monotony of the quest for higher education is palling on Sambo—he's a seeker for adventure, an explorer of strange paths. He's going to join the marines.

When the Roving Marines opened their two day performance in South Bend Tuesday Sambo was very much present. He gazed and followed and thought.

Downtown Tuesday night he

SELECT DELEGATES FOR CONVENTION

Various States Choose Party Leaders For National Meeting.

Twenty-two of the 48 states have selected their delegates to the republican national convention, either by primary elections or convention.

Thirteen of the states have picked their delegates today. Republican delegates have been named in the following states: Arizona, Connecticut, Florida, Georgia, Kansas, Kentucky, Louisiana, Maine, Michigan, Minnesota, Mississippi, New Hampshire, New Mexico, New York, North Carolina, North Dakota, Oklahoma, Rhode Island, South Dakota, Virginia and Wisconsin.

Action of States. Democrats have acted in these states: Arizona, Iowa, Maine, Michigan, Minnesota, Nevada, New Hampshire, New York, North Carolina, North Dakota, Oklahoma, South Dakota and Wisconsin.

The 22 republican primaries and state conventions already held represented 362 of the 484 delegates who will be at the national convention. Of these 95 are instructed and 248 uninstructed. Nineteen are contested. Added to these are two instructed delegates from the Philippine Islands. To carry the republican nomination a candidate must have at least 493 delegates.

Democratic Primaries. In the 13 democratic primaries and conventions 292 delegates have been selected, of which 73 are pledged and 219 unpledged. There will be 1,692 delegates at the national convention and 728 are necessary for a choice.

About one-third of the republican delegates thus far have been selected and less than one-third of these have been instructed. If this ratio is maintained less than 300 delegates will go to the convention definitely pledged to any candidate. Slightly more than one-quarter of the democratic delegates have been chosen and about one-quarter of these are pledged. Providing the same ratio obtains for the states yet to act the instructed delegates at the national convention will total around 300.

BURNT ORANGE AND NAVY BLUE ARE HIGH SCHOOL COLORS

Much agitation among the present generation of students of the local high school in regard to changing the school colors has culminated in the adoption of new color combination. The change was effected after a statement by Carl Prell, president of the high school alumni association announcing that the alumni had no choice in the matter, the present being evenly divided in regard to the adoption of new colors and retaining the traditional combination. A committee representing the four classes made a selection of three color combinations at a meeting held Thursday, these combinations were submitted to the general student body who chose burnt orange and navy blue. These colors possess a vigor that the students felt the old colors lacked.
