

## BOBJONES OPENS REVIVAL CAMPAIGN WITH BIG CROWD

Famed Evangelist Will Continue Meetings for Five Weeks in Tabernacle.

(CONTINUED FROM PAGE ONE.)

down a street can come to Jesus but Jesus will tell him that he must give his soul some attention before he is worthy of the sight."

He struck at the modern dance, the liquor evil, swearing and hypocrisy, which he declared were the outgrowth of a culture in the country which is superficial and the culture of the world which is all on the surface.

**Need More Thinkers.**

"This is too much the age of the deer and too little the age of the thinker," he said. "If this campaign for five weeks does nothing but force this city to think of God it will be worth while."

"Why let it be said," that today the best people can indulge in amusements and give entertainments to which they are afraid or ashamed to invite their pastor? Why don't they ask preachers to go through their voluptuous whirl of an adulterous dance or take a drink?"

"Only the other day a prominent woman said to my wife, 'Oh, Mrs. Jones, I am so anxious to have something which you may attend. I am arranging a special party for you.' A preacher can go anywhere anyone ought to go and a preacher's wife can go anywhere any decent woman ought to be found."

"You are trying to paint the picture of Jesus in your faces through your heart. If the way some of you folks whirl in the damnable dances was the only means, the world would never see the face of God."

**Not Environment.**

"As you think, you live. Don't lay the blame on environment, but on your thoughts. Environment is not all of the temptation to sin. The worst tragedy the world has known took place in the safest environment the world has known. Adam wasn't endangered by evil environment but yet he fell before temptation."

"The most inexcusable thing any man ever did is to let Uncle Sam had turned the railroad over to me I would have placed ahead of the diners and the smokers, away from decent people, a car for cussers, next to the engine."

"There is no temptation to cuss. The man who cusses, cusses through pure cussedness. No gentleman ever lived who cussed. The man who walked about spitting out profanity and I know that there are some church members here tonight, big men in South Bend business, who expose the vileness of their souls every day by cussing. The man who does it is no better than the dirty dog."

**Reclaiming Sinner.**

He told of the reclamation to God of an old sinner of 72 years, a man with whom profanity was second nature. He drifted into a meeting and through the sight of God, he came to him from the pulpit, redeemed not only himself but his entire family, whom he had dragged to the depths of degradation along with himself.

"From the lips of that old sinner on the occasion of our last meeting," he said, "there came the sweetest prayer I have ever heard. 'Every man reflects his soul, not only through his face but through his words and actions,' he declared in concluding his prayer. 'You can walk around and say, 'You can buy anybody,' means that he is for sale. The pure woman looking out of the eyes of the impure man, understand how another woman can be other than pure. The impure woman when a tale is brought to her of some other says, 'I expected as much.' The man who is crooked all the time. Looking from the eyes of the impure she expects others to be soiled.'"

**As the speaker closed with prayer he pleaded that every man and woman who felt at heart that he or she was not at peace with God rise while the audience sang in prayer. From the audience and choir a score or more responded.**

Every congregation in the city was represented at the dedicatory services which were held at 10 o'clock Sunday morning. Practically all of the Protestant church dispersed with their morning services and the congregation of the tabernacle at the conclusion of the Sunday school services.

**Choirs Combine.**

The combined choirs made their special appearance at the meeting with renditions of "Come, Thou Almighty King" and "Revive Us Again," and a special number, "The Awakening."

Dr. U. S. Davis, in making the opening talk, reviewed the present chaotic conditions of the world and stressed the need for revival work at this particular time.

He brought into his talk the quotation from an address by Vice President Marshall, in which he declared that the need of the hour is a universal old-fashioned revival, and quoted the declaration of Will Hayes that "it will be not either the republicans or democrats who will save America, but the church of God."

**Rev. Beck Offers Prayer.**

Rev. Davis introduced Rev. B. D. Beck, who offered the closing prayer for the success of the campaign in South Bend for a universal revival which will turn the world back to its present day materialism to the thought of spiritual salvation.

C. P. DuComb, of the general committee, made a talk in which he thanked all of the workers who had aided in the erection of the tabernacle and all of those who gave their help in making the campaign possible.

Mr. DuComb then introduced Mr. Jones. The evangelist in a short talk expressed himself as being most optimistic as to the outcome of the campaign here and gave an outline of the plans for the coming weeks.

Mr. and Mrs. W. U. Martin, 226 S. Taylor st., have announced the engagement of their daughter, Lillian, to John M. Heintzberger, of Peoria, Ill. He is the son of Mr. and Mrs. John Heintzberger, of Doerflinger, Holland. No date has been set for the wedding.

## DEATHS

**MARCELLA E. BARKLEY.**

Marcella Elizabeth Barkley, three years old, died Sunday morning at 7 o'clock. She is survived by her parents, Mr. and Mrs. Frank Barkley; her brother, James Edward; and her sister, Venera Justine Barkley. She was born in Lakeland, Ind., on Feb. 29, 1917. Funeral arrangements will be announced later.

**GEORGE E. MARTIN.**

George E. Martin, 63 years old, died Saturday evening as a result of an automobile accident. His home was at 235 E. Eleventh st., and he is survived by his son, Victor Martin, residing in River Park, and a daughter, Mrs. W. R. Chadwick, also of this city. He has a sister, Mrs. Alice Shepard in Cassopolis, Mich. Mr. Martin had lived in South Bend since June 12, 1919. Funeral arrangements will be announced later.

**PICKING RIDES.**

Three ambitious and enterprising young men who harbored aspirations to win the presidency, Sunday afternoon, the three of them stationed themselves on Michigan st., out in the road, and flouted all passing motorists with this sign, "We Want a Ride." They were several rides, the first one being in a horse-drawn carriage. After that they got luckier and rode in a real automobile, a Ford. They came back about 6 o'clock and chucked to their friends: "We hung one on you, old daddies."

**CHURCH BLAZE.**

A small blaze occurred at St. Adalbert's church, 214 Huron st., at 11:30 o'clock Sunday night. The fire was caused by the overheating of an electric iron which was left standing on the ironing board. The heat caused the board to ignite and the board in turn ignited a basket of clothes. Damage amounted to about \$10. The call was answered by Central and number four companies.

## RAIL STRIKE CRISIS OVER, LEADERS SAY

Brotherhood Officials Claim Situation is Steadily Improving.

(CONTINUED FROM PAGE ONE.)

his aides declined to indicate what his recommendation to him would be. They did say, however, that a determination of the government's attitude must be had soon.

**Public Will Know.**

When this decision is reached "the public will know of it early," it was said.

The inquiry, ordered by Mr. Palmer, from Georgia, where he has been on a speaking tour, has developed a wider scope than was originally indicated. Staff men of the bureau of investigation, detailed to centers where disturbances have resulted in the walkout have been called upon for definite statements of the situation as they encountered it. Asst. Chief Burke, of the bureau, was said to have made ready "a full picture" of the strike from the angle of secret investigations.

It is known that staff attorneys at the department have been engaged for several days reviewing all cases of governmental action in strike crises. They were understood to have been given special instructions to study the old cases with a view to establishing parallels with the problem facing the department. Action can be taken by the government under the Lever act, in the present case, it was said. There was a slight hint, however, that in event Mr. Palmer decided to throw the weight of the government into the controversy it would not be by the injunction process which with the coal strike. Officials apparently favor the use of the original indictment to check the power of the so-called "outlaws."

FRANCIS OUMET

Francis Oumet, well known Boston golfer, defeated S. J. Graham in the final contest for the North and South amateur championship. Oumet outplayed Graham on his long game at practically every hole. Graham did much the better work on the greens where he was on the defensive.

## VICE PRESIDENT NOW CONSIDERED IMPORTANT POST

Various Combinations of Men Talked of for Leadership of Nation.

(CONTINUED FROM PAGE ONE.)

would suit Sen. Johnson's supporters down to the ground. They would be geographically well located to aid the ticket, and they are both good campaigners. If Gen. Wood should succeed in obtaining the nomination, then the second place on the ticket would go to a man in the west. The Wood people would be glad to see Sen. Johnson on the ticket with the General, but it is understood the senator has no desire to accept second place. Senators Borah of Idaho, or Kenyon of Iowa, both supporters of Johnson, also would be wholly acceptable. But it is understood they are not anxious to give up their places on the ticket of the senate to provide over that body. Other combinations have been talked of: Wood and Poinsett; Wood and Lowden; Harding and Allen; Allen of Kansas, Wood and Allen; Lowden and Poinsett. And so they go.

**McAdoo and Cox.**

On the democratic side, McAdoo and Gov. Cox of Ohio are, perhaps more talked of than any other combination, both because of McAdoo's chances for the presidency and because of Cox's record in the senate. Both are driving in the same direction when the accident occurred. No one was hurt. The patrol wagon was called to the scene and was to pull the auto out of the ditch.

**SLIGHT COLLISION.**

A combination collision between an automobile and motorcycle at Lake and Division sts., Sunday, resulted in but a slight dent in the ditch. The automobile was being driven by August Solitary, 812 Duham st., and the motorcycle by William Chilly, of the Duham st. Both were driving in the same direction when the accident occurred. No one was hurt. The patrol wagon was called to the scene and was to pull the auto out of the ditch.

**Should Wilson Run.**

Should President Wilson again be the democratic nominee for chief executive—a remote possibility in the opinion of the politicians here—it is likely that a blue running mate would have to be selected for him. It is understood that Vice President Marshall positively will not consider a running mate again. Enough is enough, and eight years is a plenty, according to Mr. Marshall.

"Mr. Dooley" once said that the principal job of the vice president was to take the place of the president in the morning and ask after the health of the president. Joking aside, the office of vice president is of considerable importance. It is often credited with the vice president is president of the senate, and must preside over its sessions, and frequently render decisions of great importance. That is his chief official duty. In the event of the disability or death of the president the vice president becomes chief executive of the nation.

The disappearance of "Mighty Michigan" illuminated "M" still rankles in the hearts of those to whom it is a matter of pride. More than mere pride. Traces of the giant wooden monogram letter which was mysteriously stolen from the Michigan Club, Sunday, are still visible in the interurban depot last Friday night, while the members of the Michigan Glee and Mandolin club dined and danced as guests of the local alumni following the concert, have led in many directions.

The fruitless efforts to find the treasure were carried on, as predicted, by many friends of Michigan, in this city, Saturday morning. It was reported that two men were seen carrying the big letter through the streets of the city. Investigation of the matter was started. To date nothing has come of the matter and it is feared that the trail was a blind planned by the real culprit.

**Blazed at Notre Dame.**

The latest word in the case brings the startling report that the big "M" was seen on the roof of the building on the porch of one of the residence halls at Notre Dame university. This report substantiates in a small way the opinion voiced by the Michigan "Glees" after the loss of the effect that the thief had a decided "Irish" tinge to it and that they feared the worst in its capture. The police were urged to investigate the matter at Notre Dame soon after the loss was reported and it is said they declined with pleasure saying that they would not venture out there for anything short of murder.

**May Cause Intense Rivalry.**

The fact that Notre Dame and Michigan have been named as best rivals in athletics may have a lot to do with the case. Michigan's baseball team is due to meet Notre Dame on Carter field late this month and the disappearance of the "M" may have had something to do with the plans to rout the Michigan jinx, which till last year shadowed the Gold and Blue warriors' record.

**Colby's Letter to Chile is Published.**

SANTIAGO, Chile, April 11.—The American embassy here has given out for publication a letter from Bainbridge Colby, the American secretary of state, to Chairman Pepper of the Chile-American association, in reply to a letter addressed to Dr. L. S. Rowe, chief of division of Latin-American affairs of the state department at Washington on recent Chilean note.

After clearly outlining the origin of the troubles between Peru and Bolivia, with the assurance that the intentions of the United States were such that they could never be misunderstood by the Chilean government, Secretary Colby refers to the telegram of the American Chamber of Commerce at Valparaiso in which the chamber disapproved of the terms of the American note. The secretary asserts that harm done by the inexplicit attitude of the American citizens residing in a friendly country, who, instead of being helpful, merely added to the erroneous views concerning the position of the United States at a critical moment, when a proper investigation must have shown that it was a mistake to consider a friendly act as intervention.

**HIGH RATE RECORD.**

WASHINGTON, April 11.—A high record for interest rates on war or government securities was disclosed Sunday by Secretary Houston in announcing two new issues of treasury certificates of indebtedness, one for \$50,000,000 and six months and bearing interest at five per cent and five and one-quarter per cent respectively.

**MAY REPATRIATE REDS.**

WASHINGTON, April 11.—A dispatch from Bern says that active negotiations are in progress for the repatriation of 200,000 Russian prisoners of war in Germany and 200,000 German and Austro-Hungarian prisoners still detained in Siberia, Russia and Turkestan.

**WILL SUPERVISE RIVER.**

PARIS, April 11.—The Petit Parisien says it learned that four small gunboats armed with machine guns, have left Cherbourg for the Rhine where they will supervise the river.

**COMMITTS SUICIDE.**

NEW YORK, April 11.—Awaiting trial on a charge of violating the Lever act by profiteering for which he was arrested Saturday, Joseph Nicholson, age 35 years, a Brooklyn haberdasher Sunday committed suicide at his home by shooting himself in the head, according to the police. Nicholson was not a law abiding citizen. He is alleged to have averaged a profit of sixty-three per cent on articles sold in his store.

**CELEBRATE BIRTHDAY.**

A birthday party for William Schuster, Sr., 812 Smith st., River Park, was held Sunday afternoon and evening, when he was agreeably surprised by a number of his relatives on the occasion of his 70th birthday anniversary. Among the guests were: Mr. and Mrs. William Schuster, Jr., and daughter, Harry Schuster, and daughter, all of Chicago. Mr. and Mrs. Edward Luther and family, Mr. and Mrs. J. J. Kintzmann, and Mr. and Mrs. Fred Weaver, of Mishawaka. The house was decorated with spring flowers. Several congratulatory speeches were made. As a feature of the party a birthday cake with 70 candles was lighted at the luncheon hour.

**CLAIMS U. S. IS NOW REGARDED AS RACE OF QUITTERS**

Former Secretary General of League Gives Opinion on Senate Action.

By Associated Press.

## CLAIMS U. S. IS NOW REGARDED AS RACE OF QUITTERS

Former Secretary General of League Gives Opinion on Senate Action.

By Associated Press.

NEW YORK, April 11.—Failure of the United States to ratify the peace treaty and join the League of Nations has made up regarding the abroad as "a race of quitters" while "our professions of idealism and disinterestedness are marked down for sham and hypocrisy," Raymond B. Fosdick, who recently resigned as under-secretary general of the League of Nations declared here, Sunday night, Mr. Fosdick, who arrived here Sunday on the steamship Baltic, has spent the last month in London and Paris finishing up his work in connection with the organization of the league.

**Isolation Complete.**

"Our isolation is complete and we face the rest of the world in alliance," he asserted. "It is foolish to assume that the situation has no elements of danger for us. Our position is one of peril, a fact that is evidently realized in Washington, judging from the plans that are being made for the largest navy in the world. The price of our isolation will be armament."

"For it must not be forgotten that the ghastly business in Washington has left us without a friend anywhere. All that we won during the war we have deliberately thrown away. The influence that we had, our position of leadership as an association in which everything relating to America was held, have all gone by the board."

**Complete Change.**

"The last three months have brought about a complete change of opinion. Only one who has been in Europe recently can realize the depth and bitterness of the feeling against us. We started something we failed to seed through. We left Europe in the lurch in the middle of the game, after imposing on her our rules and conditions. We threw the league out of the window to satisfy a miserable political quarrel. That is the way Europe looks at it."

"In spite of the refusal of the United States to join the compact," he continued, "the League of Nations is now a going concern. Its machinery is practically completed. The finances are arranged and it is beginning to make itself felt in international affairs. Every country in South America, except Ecuador, is a member of the league and now a member of the central empires of Europe, Rumania and Jugoslavia are the only important countries that have not yet come in and their accession is a matter of time. China's accession is included in the Austrian treaty which will be signed shortly."

**Wave Will Pass.**

Mr. Fosdick expressed the opinion that "the wave of bitterness" against the United States will pass. He declared America's position as a creditor nation, while Europe is bankrupt, is a dangerous relationship to which the obvious inability of Germany to pay the large indemnities that were expected will furnish an additional source of trouble.

"As a member of the league," he said, "the United States could help enormously to tide over a dangerous and difficult period, to introduce peace and steady conditions into the tangled affairs of Europe, and to reestablish the economic and industrial life of the world. If she stays outside the league and cuts herself from any relationship with other nations except that of creditor, she must be prepared to arm to the teeth as the price of safety against a world alliance."

**WILSON TAKES FIRST RIDE IN TWO WEEKS**

WASHINGTON, April 11.—President Wilson took an automobile ride on Sunday for the first time in two weeks. Accompanied by Mrs. Wilson, he drove around the city, along the Potomac river and then through Rock Creek park, returning to the white house within an hour.

**KILLED IN FALL.**

NEWARK, N. J., April 11.—Clifford Stapleton, a clerk at Heller flying field near here was killed and Fred W. Robinson, United States aerial mail pilot, is dying as the result of an airplane accident late Sunday. Robinson, with Stapleton as passenger, was giving exhibitions before a large crowd when the airplane went into a nose dive at 2,000 feet and struck the earth near the spectators.

**POLES REPULSE REDS IN MOSEIR REGION**

By Associated Press.

WARSAW, April 11.—A heavy artillery, infantry and cavalry action in the region of Moseir, according to an official communication, to bring the Poles to look favorably upon the bolshevik terms for peace, has been repulsed with large enemy losses, says a statement issued by the war office today.

Captured documents, the statement adds, show that soviet delegates addressed the red soldiers, explaining to them that the contemplated military action on various parts of the front was conceived to compel the bolsheviks to make peace quickly. Two fresh infantry divisions and one division of cavalry were thrown against the Poles between Beresina and the Pripiet river under command of Gen. H. C. Pleszyn, a former member of the Russian staff.

**STEPS INTO LIMELIGHT**

Japanese working people are allowed two days off a month, and are often induced not to take that many. There is no Sunday in Japan.

**DISQUETING RUMORS.**

By Associated Press.

CONSTANTINOPLE, April 10.—Disquieting reports have been received from Batumi, where Georgians, who have been opposing allied occupation threaten to join with bolsheviks and take over the whole region.

**HOLD DEDICATORY SERVICES SUNDAY AT LOCAL CHURCH**

First Church of Christ, Scientist, Holds Impressive Ceremony.

(CONTINUED FROM PAGE ONE.)

ing found and during the following years had purchased a lot on the northwest corner of Jefferson and William sts., but we found it was too small for our purpose. However, within a week after we decided to build we sold this lot and purchased 66 feet of our present location and had \$15,000 worth of building material. The cornerstone was laid in November, 1915, and the church, which had a seating capacity of 300 was dedicated free of debt on Communion Sunday, July 5, 1916.

"Within the following peaceful and happy years our congregation outgrew the capacity of the building and we faced the necessity of building our church edifice or building anew. To our first purchase we added 66 feet on the north of our property during the years 1915 and 1916, and the ground broken. The cornerstone was laid Sept. 9, 1916. During the building, services were held in the LaSalle theater until November, 1917. The Sunday school room was then occupied until completion of the auditorium, the opening services being held on Easter Sunday, April, 1918. Owing to the World war conditions, our efforts at this time were turned toward helping in every possible way the needs of the times and these with our building also given priority. The church, however, except the labor in vain that build it, we felt assured that by going daily about our Father's business we would open the way for us.

"The Sunday school has been a helpful and inspiring factor of this church. They have made substantial contributions to our building fund and paid for the entrance of the first church edifice. The confident expectation of good has been a beautiful reminder to us that if we enter the kingdom of heaven, we must first enter the kingdom of earth."

**Higher Conception.**

"We gain a higher conception of our own church through the church mother church as a church designed to commemorate the word and works of our master, who should reanimate primitive Christianity and its lost element of healing. In our text book 'Science and Health,' page 181, we find this definition of the church: 'The structure of truth and love or whatever rests upon and proceeds the divine principle. The church is that institution which affords proof of the reality of the divine principle, and should arouse the dormant understanding from material beliefs to the apprehension of spiritual ideas and the demonstration of divine science, and healing the sick.'"

The accordance with the example of the Mother church to 'be ye as men anything but to love him' we dedicate this edifice, free of debt, to the service of God, and ourselves to higher endeavor and holier consecration.

**NEW JERSEY AND OHIO PRIMARIES HOLD ATTENTION**

Wood People Confident of Landing Entire Delegation in East.

BY LOUIS LUDLOW.

WASHINGTON, D. C., April 11.—The eyes of the politicians are now riveted on the primaries in Ohio and New Jersey, which
