

## WHEAT GROWERS PLANNING SESSION

National Wheat Growers' Association Will Thresh Out Problems at Conference.

KANSAS CITY, Mo., April 15.—Every angle of the wheat problem, including the cost of raising, harvesting and marketing, will be discussed at a meeting here April 22 and 23 of the National Wheat Growers' association, a section of the Farmers' Educational and Cooperative Union of America. Representatives from every wheat growing state in the country will attend, according to G. S. Barrett of Union City, Ga., president of the association.

Methods of safeguarding the interests of wheat producers will be given detailed consideration. It is explained in the call for the convention. It is probable that the establishment of cooperative market organizations in cities for the benefit of the wheat producer will grow out of the discussion of this phase of the wheat grower's problem, it was declared.

From 700 to a 1,000 wheat growers are expected to attend the meet-

ing, said Mr. Barrett when in Kansas City recently to make arrangements for the convention.

In addition to Mr. Barrett the officers of the association are: Vice president, A. V. Swift, Baker, Ore., and secretary, A. G. Davis, Gravette, Ark.
