

KIWANIS OFFICER EXPRESSES POLICY OF ORGANIZATION

Joint Meeting of Kiwanis and
Rotary is Addressed by
Sec'y Cummings.

Declaring that the spirit of Rotary and Kiwanis portrayed the religion of sound business thought and evolution, O. Samuel Cummings, international secretary of the Kiwanis clubs of the United States and Canada, stirred the joint meeting of the South Bend clubs of Rotary and Kiwanis at the noon luncheon in the Oliver hotel Thursday.

The international officer expressed the purpose of the organizations which are composed of business men bound together by the ties of individualism, thought, and commercial theory. He pointed out how the fellowship derived from membership in either one of the two organizations was of untold value to the business man and how the individual was enabled to rejuvenate his business methods and his own personality through the agency of the club.

Frances Clubs' Ideals.

Mr. Cummings voiced the spirit and idealism of Rotary and Kiwanis by describing the community betterment that is made possible when the organizations function in the manner intended. Predicting that the combined forces will in the near future be relied upon to typify the spirit of the American business man to secure better living conditions and the realization of the dreams of the founders of the country, the speaker closed with an urgent plea for the support of the Kiwanis movement.

Preceding the main address, Joseph Taylor, leading light in the boy scout movement outlined the principles of the scout work and asked for cooperation. Mr. and Mrs. Loren Jones, musical directors of the Bob Jones, evangelistic party, rendered two musical selections.

PRAISE WORK OF FRANKS AT CLUB

At a recent meeting of the officers of the South Bend Country club resolutions were adopted expressing the appreciation of the club to Abe and Ben Frank who have been in charge of the club house since the opening. In view of the pressure of private business, have been forced to ask to be relieved from active management of the club house. They have, with their usual generous spirit, been assisting the new house committee in every way possible.

A portion of the resolution follows:

"In addition to the conspicuous share of Mr. Frank in effecting the change in the club house, and as much as or more than any other individual the success of the club, he and Ben Frank have rendered a service to us all in looking out for the management of the house, its rooms and restaurants, the value of which cannot be over-estimated. Without the advantage of their experience and devotion, the Americans, generous way they have devoted themselves to the club's interest, often at great personal inconvenience and financial sacrifice to themselves, the success of the club could not have been secured. While the Messrs. Frank felt compelled to give up the active management of the club house, they have, with their usual generous spirit, been assisting the new house committee in every way possible."

CHILDREN CONTRIBUTE TO FRENCH FUND

South Bend school children are now being given an opportunity to contribute their share toward "America's Gift to France," which is to be a statue located on the battlefield of the Marne at the point where the Germans approached nearest to Paris, and at which point 50,000 soldiers now lie buried.

Boxes have been placed in all school rooms of the city where voluntary contributions are to be made. The boxes will be collected and brought to the office of the superintendent of schools by next Wednesday from whence the fund will be forwarded to Indianapolis and be made a part of Indiana's quota.

In 1878 the school children of France contributed toward the work of erecting in New York harbor the statue of liberty and all school children of America are now contributing toward the erection of the statue on the Marne.

TALKS TO BOYS.
Victor H. Kupferer, boys' director of the Y. M. C. A., talked to boys of the junior high and the Madison schools Thursday morning and invited all who were not members of the association to join the free swimming classes which are to be given during the next two weeks. Mr. Kupferer extended a similar invitation to the boys of the Washington school Wednesday.

The Horoscope

FRIDAY, APRIL 16,

Again the planetary testimonies are of a conflicting nature, calling for good management in turning affairs into channels of success and progress. The most unfavorable position is that of Moon in conjunction with Mercury, which has a baneful force in all mercantile and professional matters. Great care should be used in the handling of all papers concerning funds, contracts, and strict regard to truth and honesty should be enforced. There is some danger of loss through speculation or litigation. Disputes and quarrels should be avoided, as well as the possibility of fraud and misrepresentation. Those in employment are under a beneficial aspect and should prosper.

Those whose business it is should avoid quarrels, speculations, fraud and dishonesty, and so doing lose their business, turning it to good account. A child born on this day will be disposed to be unsettled, though clever.

SZABO FAILS TO PROSECUTE DISTURBERS

George Szabo, owner of a place at 1102 W. Thomas st., failed to prosecute Charles Cater, Walter Johnson and Louis Ladd, who were among the three men who were brought into city court Thursday morning, charged by Szabo with attempting to shoot up his place on the night of April 8.

It was explained in court that other arrangements had been made by Szabo and the three men toward a private settlement. The men, charged by Szabo with being drunk, hitting him over the head and attempting to shoot him. The cases against the three men were dismissed, following Szabo's refusal to prosecute.
