LUMBERJACKS FLOCK TO SEE WORKING GIRL

By United Press.
CRANDON, Wis., April 16.—Here's one spot in the U. S. A. that's not suffering from a labor shortage. Lumberjacks are flocking here by droves to see Florence Tyrell, the "lumberjack" tear into the country's natural resources.

Miss Tyrell claims the distinction of being the only woman lumberjack in the world. She has been employed at a camp at Newald, Wis. She skids logs, harnesses and cares for her team just like a man.

Miss Tyrell not only does a man's

work but wears their clothes. Her attire is that of the regulation lumberjack.

During the winter she drove four horses most of the time.

Miss Tyrell is pretty and her mother chaperons her.

Free lecture on Christian Science, at the church edifice, Main and Madison sts., Tuesday, April 26, at 8 p. m. The public is cordially invited.

Tickets on sale for the Minneapolis Symphony Orchestra, May 11th, matinee and evening, at the South Bend Conservatory, Toepp. bldg. Phone Lincoln 2316.

KITCHEN ECONOMIES

WAYS TO PUT SOUR MILK AND CHEESE TO DELICIOUS USES.

Did you ever try sour milk, as nature, as a luncheon dish? Since war economies made more housekeepers utilize sour milk instead of throwing it away we have had more dishes made with sour milk, not to mention all the home-made cottage cheese that has emerged out of the three-day-old milk that once was thought worthless. But abroad a common dish is a plain bowl of cold, jelly-like, sour milk, perhaps sprinkled with a dash of paprika, eaten with brown bread. It's plain fare—but very wholesome, and will be relished for its tart, refreshing flavor, even when more fancy dishes fail to tempt the appetite.

Cheese should be eaten much more in its fresh state. The luxurious, aged cheese so much desired by epicures is not desirable nor digestible for everybody, although a little of it is not necessarily harmful. But fresh cheese is wholesome and digestible, and can be eaten by any one. Here are some unique recipes:

Cheese Soup.
3 cupsful of milk.
1 cupful of grated cheese.
1-2 tablespoonsful of flour.

Salt, paprika.
Onion juice.

Mix the flour with a little milk gradually until it is well blended, and cook in a double boiler until smooth and thick. Then add cheese and seasonings and serve hot with croissants.

Vegetable Cheese Soup.
3 cupsful of milk.
1-4 cupful of grated cheese.
2 tablespoonsful of butter.
2 tablespoonsful of flour.

2 tablespoonsful of chopped carrots.
1 tablespoonful of chopped onion.

Melt the butter and cook the vegetables in it, then add the flour and mix well. Gradually thin with the milk and continue cooking for about 15 minutes, preferably in a double boiler. Before serving stir in the cheese and cook until melted.

Cheese Salad.
1 cupful of grated cheese.
1 cupful of whipped cream.
1 tablespoonful of gelatine.
Salt, pepper.

Mix together the cheese, whipped cream and seasonings. Soften the gelatine in a little cold water, then

dissolve in about 3-4 cupful of hot water. When cool add to the whipped cream and cheese mixture and pour into a mould to harden. Serve in cubes or lettuce with French dressing to which a little grated cheese is added.

A delicious sweet salad is made by mixing ordinary cottage cheese with a currant preserve, forming into balls and serving on lettuce leaf. The dressing used should be made with lemon juice instead of vinegar.

Fried Cheese Balls.
1-2 cupsful of grated cheese.
3 eggs.
1 tablespoonful of flour.
1-2 teaspoonful of salt.

Cayenne, bread crumbs.
Separate the yolks of eggs and mix with the other ingredients. Beat the egg whites stiff and fold in. Form into balls, dip in bread crumbs and fry in deep fat.

Fresh cottage cheese, mixed with a little cream and a dash of paprika or pimento, makes delicious sandwiches. If desired, the mixture can be spread between two slices of brown bread, then lightly fry the bread on both sides in a little butter until brown.

WHY—JOB

they picked him for the BIG

On the Superintendent's desk lay many letters of application from young men who wanted "that job."

Most of the letters were worded in just about the same way. Not one seemed to impress the Superintendent as worth answering.

Then he pressed the buzzer and had his secretary bring him The News-Times. He read the "Situation Wanted" ads and found one which immediately attracted his interest.

The advertisement was frankly and cleverly written. It told just what the Superintendent wanted to know. It was distinctive, human and appealing.

"The man who has the enterprise to advertise his services in this vigorous way, is worth sending for," he said. "Kindly telephone him and ask him to call."

The man came and was given the job. He was chosen because he used the RIGHT METHOD of going after a good position.
