

STOCKS RESTLESS ON GOTHAM MARKET

Free Selling Features Open
ing of Exchange; Many
Noteworthy Setbacks.

By Associated Press:

NEW YORK, April 19.—Stocks became unsettled soon after the opening of Monday's active session on free selling for both accounts, although events over the week end, especially the railroad strike situation was regarded by traders as contributing to the price declines.

Reversals of two to 10 points marked the almost continuous selling of stocks, stocks, equities and specialties. In several noteworthy instances the setback was even more severe, with no material recovery at the close. Sales amounted to 1,350,000 shares.

Many Reactions.

Monetary conditions once more contributed to the reaction, call loans opening at 96 cents. The rate fell to six in the final hour, but it was then too late to arrest the sweeping downward course of quoted values.

Apart from the holding attitude of the Central bank respecting extension of credits, there is cumulative evidence that considerable new financing is in prospect. Until these requirements have been met, little relaxation is anticipated. Moderate firmness ruled in foreign exchange, the only side light in that connection being that negotiations were proceeding for further extensive gold shipments to South America.

There was no letup to liquidation of liberty bonds in which new level records ruled. Bonds in general, including Internationals, were heavy. Total sales (part and full) aggregated \$15,500,000. Old United States bonds were irregular.

South Bend Markets

MEAT, STRAW AND FEED.
(Corrected Daily by the Wesley Miller
Flour & Feed Co., 420 S. Michigan.)
MEAT—Paying \$30, selling \$1.10 or
less.

kins, \$20.00; \$20.00; \$20.00.

CORN REACHES HIGH
MARK ON EXCHANGE

By Associated Press:

CHICAGO, April 19.—All deliv-
eries of oats, corn, rye and barley

jumped Monday to new high record

prices for the season. Wet weather

likely to delay farm work was the

chief bullish factor. Closing quo-
tations were unmet, 15c to 20c net

high, with May 17.5c to 18.5c to

Oats gained 5c to 14c.

In provisions the outcome varied

from 5c decline to 35c advance.

Most corn traders turned to the

buying side and acted on opinions

that the unwelcome rains would

prove a serious setback to the ac-
cumulation of stocks at the other big terminals.

A sharp bulge in the price of barley was also of

considerable effect in helping to lift

the value of corn and other grain.

Oats were especially sensitive to re-
ports that seedling would be hindered

by the prevailing adverse weather.

It was with the crop was al-
ready two weeks behind.

Provisions averaged higher with

grain and hogs.
