

WARN KEEPERS OF GAMBLING HOUSES

Police Say Activities Must Stop During Evangelistic Campaign.

Orders to gambling house and other disreputable resort keepers that they either close down their places entirely or operate them with the greatest secrecy during the remaining stay in the city of Evangelist Bob Jones have gone out from police headquarters, it was learned Monday from underworld operators.

"We've either got to close up or work so that people think we have closed up," said one well known underworld resort owner Monday. "We've got to wait until this revival is over," he continued.

FAIL TO DENY REPORTS.

No denial has come from police headquarters that gambling houses and other disreputable resorts have been operating in practically every part of the city, with the downtown district well supplied with these places, including gambling dens, bawdy houses and other like places.

Whether owners of the disreputable resorts will follow the orders of the police authorities to operate with all possible secrecy, or will close down entirely for the next four weeks was not apparent Monday. It was noted Sunday night, however, that there was not quite the usual activity in a number of the more prominent resorts.

Although the county commissioners approved the redistricting of the precincts at the county several weeks ago and the actual work was completed and the precinct committees have filed with the county clerk, no official action has been taken to designate the various voting places.

The commissioners met in regular session Monday in the court house but the pending proposition was not considered during the course of the meeting. However it was said in court house circles that the commissioners will meet in special session toward the end of this week to consider this important matter and an announcement designating the polling places will be made following the special meeting. It is understood that the commissioners have arrived at a decision regarding the location of the voting stations in all rural districts but the South Bend and Mishawaka locations are still undecided.

County Clerk Warner Monday prepared for publication the list of candidates on both the republican and democratic tickets. The bona fide is included 10 typewritten sheets of paper and contains about the same number of candidates that filed for the former primary.

FARMER SAYS IT DID THE WORK

Was So Helpless From Rheumatism He Had to Rent Out His Land—Feels Fine, Now.

"No sir, I wouldn't swap the good Tanlac has done me for the best farm in Indiana," was the emphatic statement made a few days ago by John Worth, a well-known farmer living out on R. F. D. No. 2, Colfax, Indiana.

"I suffered so bad with rheumatism during the past ten years that I had to give up farming and rent out my land and how I am feeling as fine as I did twenty years ago."

"It was back in 1919 that I suffered a severe attack of rheumatism and each year I have been growing gradually worse until I became almost a complete physical wreck. The rheumatism was worst in my arms, knees, feet and ankles but my whole body was racked with pain and I was in constant suffering day and night. My arms and elbows would swell up to nearly twice their normal size and talk about hurting, why, sometimes they ached all night long nearly and I would lie in bed wide awake unable to sleep a wink. My feet and ankles hurt me so bad I could hardly get about at all. My knees got stiff and pained me so bad I couldn't get my foot up to tie my shoes and often my wife had to put them on for me. I was so bad off I would give out if I tried to do any little job and finally I had to rent out my farm and quit work altogether. Then on top of it all my stomach went back on me and after every meal I had a heavy, stuffed-up feeling. I would bloat all up with gas and take such awful cramps in my stomach I was laid up for several days at a time."

"While I was sitting around the house unable to get about to do any kind of work I took to reading a great deal and I began to notice where people all over the country were being benefited by Tanlac. So I decided to try it myself and I'm right here now to say it has done the work. I never feel a trace of rheumatism anywhere in my body and I believe it has left me for good for I am as strong and active as I ever was. My appetite was never better and I am eating anything set before me without any bad effects at all. I am feeling so fine that I am helping out on the farm every day. I'm strong enough to do any kind of work. We keep Tanlac in the house all the time and wouldn't think of being without it."

Tanlac is sold in South Bend at the Central Drug Store and in Mishawaka at the Red Cross Pharmacy.

TRAFFIC MIXED UP.

Many minor automobile accidents were reported Saturday and Sunday. The reason was the installation of new traffic signals in the downtown section. The patrolman who so ably handled the traffic with the "hand" movements were hampered by a new semaphore system installed Saturday.

Bank Officials Join Ranks of Overall Squad

Those nifty, immaculately clad bank clerks and the distinguished, prosperous appearing bank officials have banded together and are ready to hand old Hi Cost a jolt on the jaw, according to an announcement made Monday. All South Bend bank officials and employers have agreed to join hands with the "wear overalls" movement and will appear at their desks, typewriters and adding machines Tuesday morning garbed in perfect fitting blue denim outer garments.

The decision was reached after all

signed a round robin letter setting forth the conditions and the vote was unanimous for the innovation. Other offices and establishments in city have been bitten by the germ and it is predicted that it will shortly be a common sight to see prominently citizens promenading the streets and attending to their several duties in their offices and stores, dressed in the blue overalls.

Leaders in the movement scoff at the theory that the idea is only a fad and will die out predicting that the movement is spreading so fast that it will soon become a national custom in a united endeavor to knock the spots off of the high cost of clothing.

Although there is a shortage of suitable fabric in the country, clothing stores and dealers report that the supply is ample to meet the immediate demand and if the present fad becomes a serious and continued custom provisions can be made for

A HIDDEN DANGER

It is as dangerous to overload the stomach—thereby increasing the work of the liver and kidneys—as it is to sit on a powder keg! If the stomach does not function properly, the food digested is not assimilated and taken up by the blood.

A stomach alternative and blood maker that has been favorably known for the past 50 years is Dr. Pierce's Golden Medical Discovery.

An imitation of nature's method of restoring waste of tissue and impoverishment of the blood and nervous force is used when you take an alternative extract of herbs and roots, without the use of alcohol, like Dr. Pierce's

Golden Medical Discovery. This vegetable medicine coaxes the digestive functions and helps in the assimilation of food, or rather takes from the food just the nutriment the blood requires. This "Medical Discovery" gives no false stimulation, because it contains no alcohol or other narcotic. It helps digestion and the assimilation of such elements in the food as are required for the blood.

Elm Hall, Mich.—"I suffered from chronic gastritis and kidney trouble ever since the Civil War, brought on by exposure and poor fare. I suffered so much from bloating and cramps and poor kidney action, but through the use of Doctor Pierce's Golden Medical Discovery and the little Pellets taken according to directions, together with Dr. Pierce's Anuric for the kidneys, I can say that my health has become very good for a man in his 72d year, whereas for years I was in very poor health at times. I consider Doctor Pierce's remedies the best that are put up."—WM. PARKS.

Nature Gives No 2-Inch Heels

YET many women slip a two-inch heel under the one Nature gave, and jam their five toes into a wedge-shaped box big enough for but two toes.

Thus they cramp and distort their foot bones and leg muscles, and suffer from the inevitable result: corns, bunions, callouses, weak arches, ingrowing nails; backache and other ailments.

To such sufferers we say: "Treat your feet as Nature planned. Give your toes the room they need; drop your heels where they belong. Put on good-looking Educators." For Educators fit the foot correctly, and "let the feet grow as they should." We invite you to come in and see how your foot looks in an Educator.
