

## CHRISTIAN SCIENCE LECTURER EXPLAINS RELIGIOUS DOCTRINE

Judge Greene Addresses Large Audience at Church Edifice Here.

Judge Samuel W. Greene, C. S. Louisville, Ky., member of the board of lectureship of the mother church, The First Church of Christ, Scientist, Boston, Mass., delivered a lecture on Christian Science before a large audience at First Church of Christ, Scientist, Madison and Main sts., Tuesday night. Choosing for his subject, "Christian Science, the Religion of Fulfillment," Judge Greene said:

"The promise made through Christian Science as stated by its discoverer and founder, Mrs. Eddy, is 'Divine Love always has met and always will meet every human need.' (Science and Health, page 494.) Christian Science is the unfolding to human consciousness of divine love, and its practical application to the healing of all human disease. Christian Science is first of all a religion, notwithstanding some of its uninformed critics have not so believed. It is the religion of Christ Jesus come again to the world to heal the sick and the sinning by the same principle of law."

Christian Science, in its healing ministry, is not a patient cure-all, nor is it blind faith cure. It is not the action of will power, nor is it the action of the human mind. On the contrary, it teaches that the human mind must yield to the divine Mind to that Mind which was also in Christ Jesus, and in the proportion that Christian Science is understood, the life and words of Christ Jesus become practicable for all ages and all people.

"The Bible from beginning to end is filled with the most splendid promises for God's children, and unless we may believe that these promises are meant for the here and now, even for today, we are of all men most in error. For otherwise, we are, without God and a saving religion in this life. What the world is wanting—seeking—is a religion that comes to the sick and tells them how to be well; that comes to the discouraged and despondent and lifts them out of the slough of despair and despond into the richness and fullness of the joy of a closer walk with God. Christian Science is supplying this need, through the spiritual interpretation of the Bible and the consequent spiritual understanding of God, and is enabling the world to find the rest and the peace promised by the Master."

### Jesus' Practical Ministry.

"Jesus taught and proved the possibility of solving all of life's problems here and now. He overcame all the man-made laws of disease by healing all manner of sickness. He overcame the laws of lack and want by providing food in abundance for the thousands in the desert places and by finding tares mixed in the fish's mouth. He overcame the law of darkness by walking upon the stormy wave, the law of space and time by entering into the boat in the midst of the ocean and immediately it was at the other side. He overcame the law of death by restoring to life those who had died, and in his own case reappeared to his wondering disciples after three days in the tomb."

"Among the last things he said to his disciples was, 'He that believeth on me, the work that I do shall he do also, and greater works than these shall he do because I go unto my Father.' Also in perhaps the last conversation he had with the best loved 11 disciples, in perhaps the last conversation he had with his audience, he said, 'These signs shall follow them that believe. In my name they shall cast out devils; they shall speak with new tongues; they shall lay hands on the sick and they shall recover.' With these and other positive promises from Jesus we must believe in the present possibility of healing the sick, of solving the problems, and performing all of these wonderful works, if we do believe in him; that is, understand him and his teachings, which is the correct interpretation of the Greek word translated by our word believe in the new version."

"Contrary to some critics of Christian Science, it is not necessary to take the place of the Bible, but it is to be read and studied in connection with the Bible. It was meant to be just what its name implies, a 'Key to the Scriptures' and a text book on Christian Science. Within the pages of the book itself Mrs. Eddy says, 'As adherents of other creeds take the inspired Word of the Bible as our sufficient guide to eternal life.' (Science and Health, page 427.)

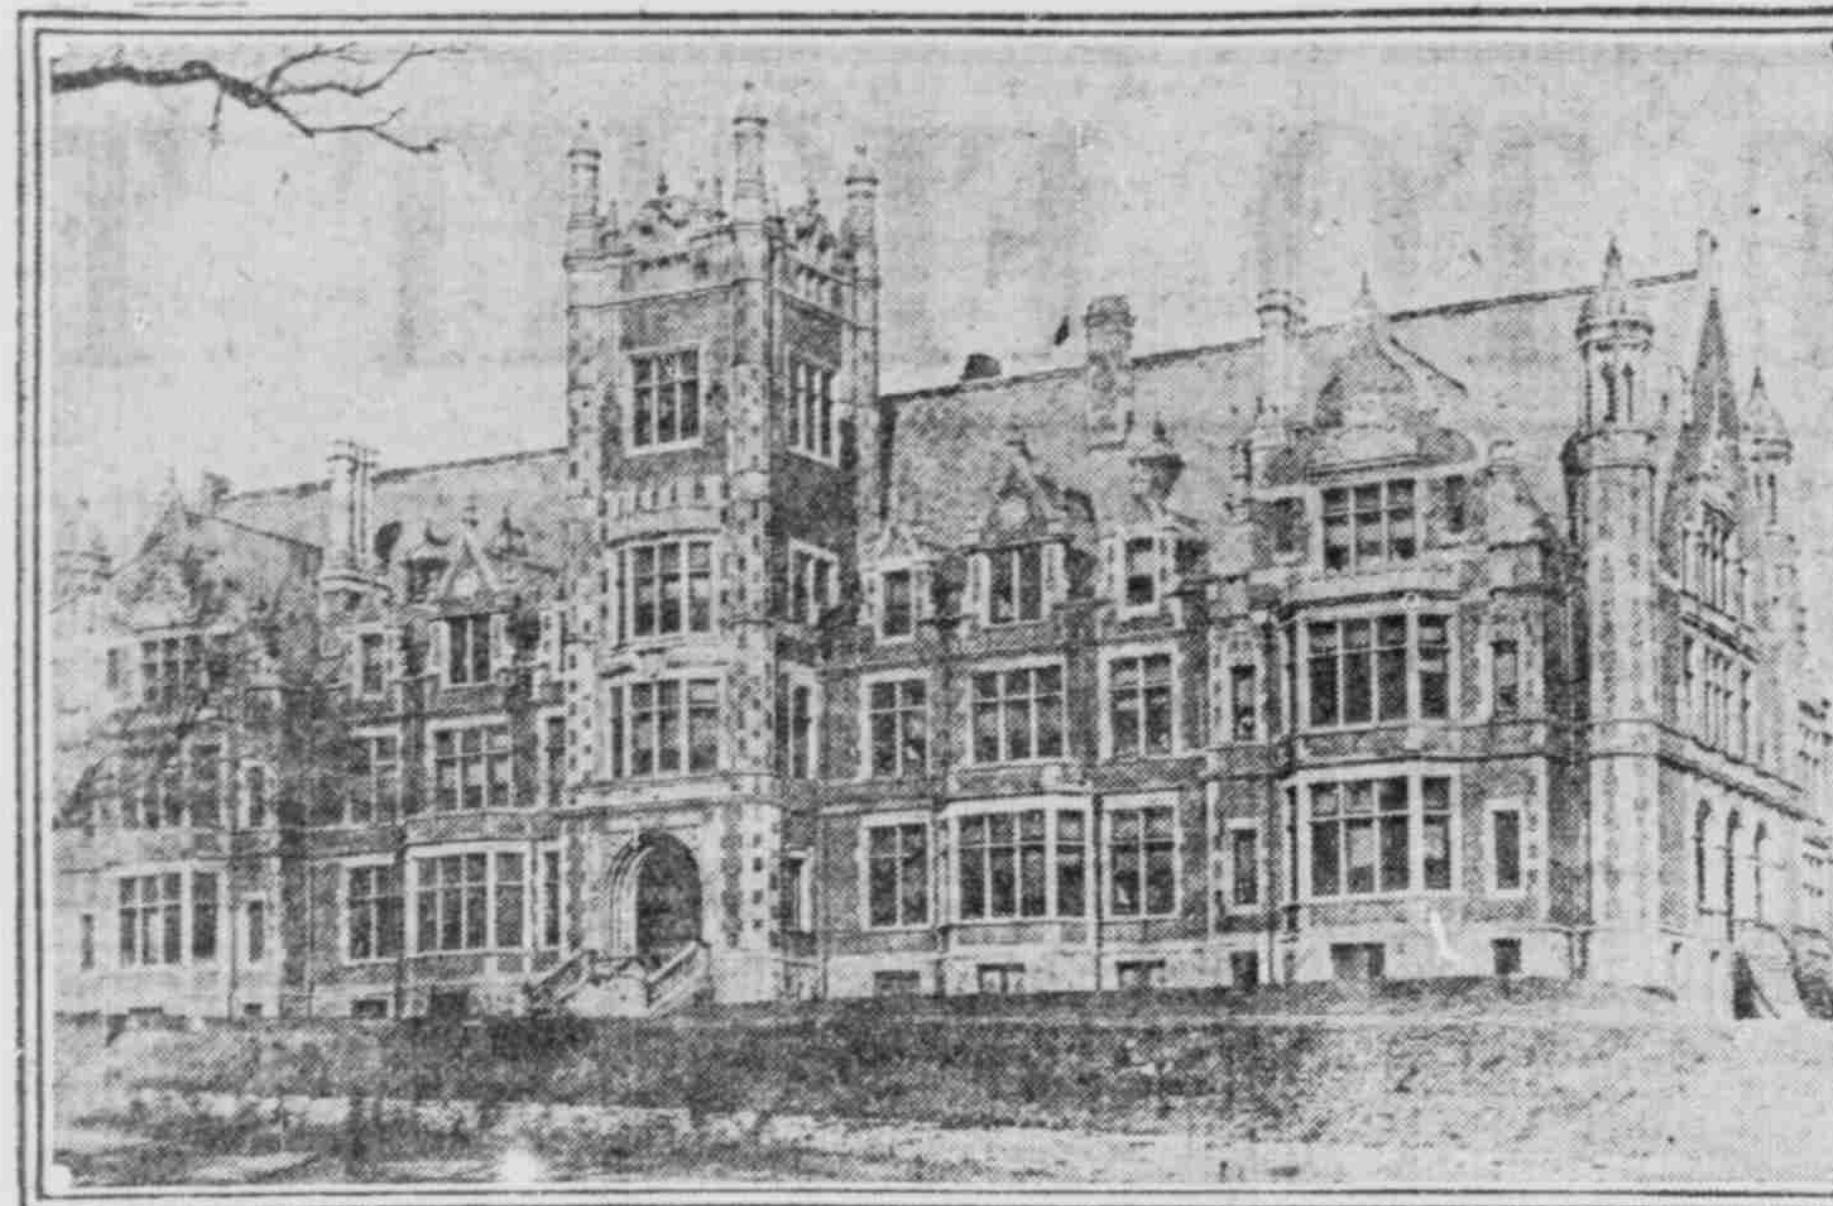

"As the years have come and gone during these more than 50 years since Mrs. Eddy's discovery, an ever widening circle has been covered by Christian Science, and an ever increasing host of its adherents. These are daily bearing witness to its healing and saving power, and rendering their tribute of praise and thanksgiving to its revered Discoverer and Founder. There is, however, nothing of worship or deification in the attitude of Christian Science toward Mrs. Eddy, but rather the natural and natural expression of gratitude which one decent, upright person whose life has been uplifted and who is being uplifted by the power of her inspired teachings."

### Defines God.

"Christian Science has revealed the correct concept of God. It has courageously and reverently asked the question, 'What is God?' and has given the answer that is surprising to thinking men and thinking women. God is Love, Truth, Soul, Mind, Spirit, Principle. Perhaps the term Principle as used for God has more than any other aroused the opposition of the critics of Christian Science. They contend to speak of God as Principle takes away His personality. But the term Principle is the term used for God by the natural and human attributes. Christian Scientists believe that it is time the world was getting away from the idea of an anthropomorphic or man-made God, a sort of superman. The text book says, 'Human philosophy has made God manlike. Christian Science makes man Godlike.' (Science and Health, page 268.)

"Principle is eternal, without beginning or end, is perfect, immutable, unerring, ever active. Principle can not be moved by the breath of praise or flattery or by entreaty or threat. In the thought of God as Principle, Christian Scientists have

## New Salvation Army School

abandoned the idea that God interferes in the affairs of men at the behest of this one or that one, or that he interferes with His own laws, causing the unnatural or super natural to be happening in the affairs of men. Christian Science shows that God's creation is perfect, complete, consequently the true mission of Scientific Christianity is to reveal this fact to us and then to show us how to overcome in our own lives and experiences everything and every thought that is unlike God and His creation.

"Christian Science is trying to teach man that for every human need he should look to God, to the spiritual and not to the material, to God, to all God's creation and to fear for God is all in all and one can not fear God or good.

"Why is man's first thought, 'Wherewithal shall I be clothed and housed and fed?' Has man so soon forgotten that Jesus said, 'Seek ye first the kingdom of God and His righteousness and all these other things shall be added unto you.' In that connection Jesus just began thinking of clothes and food. Should it be thought a strange thing that God does give good things to the children of His love? Jesus told us in effect, that much more than our earthly father does the heavenly Father know how to give good things to them that ask him. One may ask, if Jesus' promise means that to take up the burden in earnest of agriculture, have decided to send several students of the Peking Government university to large business firms in the United States to have them trained by practical experience in modern business methods.
