

CONGRESS MEMBERS PLAN BIG JOY RIDE

Prepare Trip to Hawaii and
Orient at Government
Expense.

Special to the News-Times.

WASHINGTON, April 21.—Some hundred or more members of congress are preparing for one grand, prolonged "joy ride" to the Orient. It will be the most extended "junket" of the many made by members of the present congress.

This trip will be termed "unofficial" because the government will not pay quite all the bills. The trip is to be made abroad a government transport, and each member of the party will be required to pay \$1.25 per day for "subsistence." Of course, in these H. C. L. days, that will be but a small part of the cost, so the taxpayers will pay the rest.

The trip will be made on the transport Mount Vernon. Starting from San Francisco early in July, the congressional excursionists many of them taking their families and secretaries, will visit Hawaii, the Philippines, China, and Japan, and will be absent about 60 days. Thus does American fondness for travel assert itself. This trip will be the most delightful yet made, and will be at the most opportune time, when the season in Washington will be hot, but when it will be most delightful on the decks of a government transport riding the waves of the Pacific.

Criticism of expenses such as this being saddled on the government is being made, but apparently the majority leaders in congress are making no effort to prevent the plan being carried out. It is being pointed out by some of the republicans that it is rather difficult to insist that the republicans in congress are economizing when at the same time they are preparing to take a fine vacation at the expense of the government on the pretense that they must study the "looming problems of the Pacific."

It is also proposed that there shall be other investigations. The republicans propose to have committees visit all the Indian reservations for the purpose of "investigating," and that other members shall go to Alaska for the same purpose. It is urged that others shall go to France and to the Philippines and to Hawaii for the purpose of "investigating." One party has been to the Virgin Islands and another to the Panama canal.

This explains in part why so little has been done in Washington and why congress has shown a record of no constructive legislation.

FOREIGN DELEGATES TO VISIT CINCINNATI

CINCINNATI, O., April 21.—The Foreign Trade Association of the Cincinnati chamber of commerce will entertain visitors from Switzerland, Brazil and China next month. A delegation of Swiss architects will be shown the new public buildings and other modern architectural achievements. Admiral de Grace of the Brazilian navy will address the association on the need of increased steamship service between the United States and Brazil and Frank A. Foster, an American mechanical engineer, operating in China, will discuss Chinese industrial development and opportunities.

OFFICIAL LOST IN ALASKAN SNOWSTORM

NOME, Alaska, April 21.—To be lost all night in a Christmas eve blizzard on the unsheltered shores of Cape Spencer, was the experience of United States Commissioner William Marx of the Port Clarence precinct, according to word brought to Nome by Capt. Thomas A. Ross.

Unable to see in the darkness and the blinding snow and with his nose bleeding from the intense cold, Commissioner Marx saved himself from freezing by constantly walking about his sled until daylight came.

Hotel Men Plan Campaign Against H. C. L.

CHICAGO, April 21.—Hotel and restaurant men are planning an independent move on the high cost of food and will receive reports on a number of schemes which have been tried out when they assemble for the hotel men's show here the week of May 10-15.

Mother of Four Baby Lions

Maharina, a young matron of the jungle, who let three of her cubs die because of inexperience, but is lavishing love on the fourth.

EIGHTY TIN CANS WILL DANGLE FROM BALLOON IN RACE

OMAHA, April 21.—Eighty tin cans will dangle from the basket of the "Happy Hooligan," the balloon which will be piloted by A. Leo Stevens, Fort Omaha expert, in the international race from Indianapolis next October. The cans, quart size, will be hermetically sealed. The purpose is to keep the basket aloft in the event the balloon drops into a lake. A folding bed is another piece of equipment which Stevens will take along.

Construction of the balloon is under way at the fort. The fabric will be of one layer silk. The envelope will contain 80,000 cubic feet of hydrogen, but if permission is obtained from the war department helium will be substituted. E. D. Weston of Dayton, O., has accepted Stevens' invitation to be his aide during the race.

MILK PRICES SOAR ON DETROIT MARKET

By United Press.
DETROIT, Mich., April 21.—Detroit consumers were paying 16 cents a quart for milk again today, following a two-day period of 14-cent milk.

FAMOUS VIOLIN IS SOLD FOR CHARITY

Instrument Used by Strauss
Disposed of to Provide
Food for Starving.

CHICAGO, April 21.—A fine old Rugieri violin, on which Johann Strauss, the waltz king, played in Vienna when that city was the gayest in Europe, was sold here recently to provide food for the population there. Vienna now is a city of want and starvation.

Miss Andrea Proudfoot, daughter of a Chicago attorney, heard of the great need in the capital where she had spent most of her childhood and parted with the dainty Italian model. The proceeds of the sale were turned over to the Vienna relief committee.

The Rugieri was brought to Austria from Italy more than a century ago and came into the possession of Frank Wendlik, concert master in the court of Prince Lichtenstein in Vienna. It was in the extravagant and pleasure loving period following Napoleon's regime and Lichtenstein's was he gayest in Europe. The courtiers danced to the music of Johann Strauss' new waltzes and Strauss himself played with the court orchestra at times, using the Rugieri violin.

The violin eventually came into the possession of Wendlik's grandson, a Vienna banker, also named Franz Wendlik. Miss Proudfoot's mother had brought her to Europe to educate her. One day the banker heard the girl play in her mother's villa in the Carpathian foothills overlooking Vienna. He declared that the child had great ability and let her have his old violin to use. Shortly after the war broke out he died. Miss Proudfoot brought the instrument to America.

She will resume her studies, interrupted by the war, this fall when she will return to Vienna. She will play on a Guinierus violin.

PURDUE STUDENT
