

ILLNESS PREVENTS GOV. LOWDEN FROM SPEAKING HERE

Illinois Governor May Appear
in South Bend Before
Primaries.

Illness prevented Gov. Frank O. Lowden, candidate for the republican presidential nomination, from keeping his South Bend speaking engagement Friday night.

Gov. Lowden was to have addressed a meeting at the high school auditorium, but he was unable to keep the engagement. Word was received by his South Bend managers Friday afternoon that the governor was too ill to come to South Bend.

May Come in May.
An effort is to be made, it was announced Friday night, to get Gov. Lowden here before the primaries May 4.

Arrangements have been made by the local committee including William N. Bergan, Johnson manager for St. Joseph county, and Miller Guy, for the appearance of Sen. Johnson at the high school auditorium here on the evening of Thursday, April 29. A large delegation from Mishawaka is expected to attend.

On Saturday night, May 1, Sen. Johnson will speak at Indianapolis, the Johnson club of Indiana having arranged for him to speak at the coliseum at the state fairgrounds which has a seating capacity of 10,000. Sen. Johnson is expected to make a statement in answer to the editorials which have been appearing in the Indianapolis News. Reservations are to be made at that meeting for delegations from every county in the state.

Johnson's itinerary during the remainder of the primary campaign includes Richmond, Greenwood and Elkhart on April 28; Kokomo and South Bend on April 29; Logansport, Michigan City, Gary and Hammond on April 30; Terre Haute and Indianapolis, May 1; Lafayette and Marion, May 2.

RESORTS OBEY POLICE ORDER AND CLOSE UP

(CONTINUED FROM PAGE ONE.)

Jeggers are still plying their trade, and transportation of whisky being done in points in Michigan and South Bend is apparently not affected by and embargo that has been placed by the railroads on ordinary freight traffic.

In fact, the liquor traffic is conducted in such a manner that it is under the control of the railroads, or of even the interurbans, although both means of travel are being used by those indulging in this occupation. The automobile, however, appears to be the most used mode of conveying the merchandise of the bootleggers to and from across the Michigan state line.

And even though whisky may be bought at a number of places where the one with a thirst is believed to "safe" much trade in this line is being done through the "hip pocket channel" with a considerable degree of success.

Dark and Deserted.
On the whole, however, South Bend's underworld Friday night appeared dark and deserted. Demimonds in large numbers spent their time on the streets and in places of amusement during the early part of Friday night, and later they scattered to their temporary places of abode in the city. Some were seen at the Bob Jones' tumbler.

Gas meter readers had a busy day Friday, making the rounds of the heavily housed city, and it was after dark before some of them concluded their work.

SIX PEOPLE INJURED IN BIG FOUR WRECK

BENTON HARBOR, Mich., April 23.—Six persons were injured, some seriously when passenger train No. 29 on the Big Four railroad bound for Indianapolis was wrecked within the city limits Friday morning. The rear coach after bumping the tracks, rolled down a five foot embankment and lay partly submerged in the muddy waters of a ditch. The smokestack was broken and the engine remained on the track. The injured were removed to Mercy hospital, where they received attention.

Members of the train crew said the accident was caused by a "tampered switch," it being found that a switch near the scene of the accident had been tampered with.

The injured are: Mrs. Fay Platt, Benton Harbor; Jerry Swears, Benton Harbor; Mr. and Mrs. Alvin Lindemood, Benton Harbor; Joe Means, Brookman, Wash.; F. E. Walker, Indianapolis, Ind.; Mr. and Mrs. Lindemood were accompanied by their infant son and the little fellow was thrown from his mother's lap as the coach rolled down the embankment. When he was rescued he was picked out of a puddle of water, thoroughly wet and crying. One extra conductor aboard, Wm. Laughlin of Elkhart, was in the smoke. He climbed out through a window and then led in the rescue of the injured.

PREMIERS CONSIDER PACT WITH TURKEY

Approve Military Policy of
Treaty Regarding Ottoman Territory.

By CAMILLO CIANFARRA.
SAN REMO, April 23.—The council of premiers Friday continued discussion of the territorial clauses of the treaty of peace with Turkey defining her European boundaries and later resumed discussion of Armenia, hearing Bogus-Nubar Pasha on the Armenian question, the official statement said.

Early in the session, it was learned, the council examined again the military clauses of the treaty, especially those concerning the Straits, and approved them.

German Army Proposal.
The German note, asking an army of 200,000 instead of 100,000 allowed by the treaty of Versailles, pointed out that Germany was not a member of the League of Nations, did not have advantage of the league's aid to protect members from external aggression and that Germany must have an army adequate for her internal needs.

It reviewed at length the unsettled situation in Germany, declaring the established government must remain complete master of affairs, with ability to compel rebels to disarm. It was pointed out that an army of 100,000 the Germans argued the government could not possibly stand should the bolshevik elements start a new revolution.

The Egyptian national delegation, which arrived here late Friday, announced it would present demands for complete independence to the council of premiers.

Six delegations of peoples anxious to obtain favorable decisions from the peace conference arrived during the day.

Representatives of Galicia said they would ask changes of the decision granting Poland a 25-year protectorate over part of Galicia.

None of the delegations given an audience by the premiers.

Seven candidates were initiated into South Bend Review No. 4, L. O. T. M., at the meeting held Friday night. Arrangements were made for next Friday night when both the ladies and men's organizations will hold joint open meetings.

A program has been arranged and will be followed by dancing. After the business session a birthday party was held and the honors were awarded. The committee served dainty refreshments at attractively arranged tables, which were decorated with spring blossoms and lighted candles.

USED VILE LANGUAGE.

Ernest C. Imus, in a suit for divorce filed Friday, charges his wife, Esther Imus, with cruel and inhuman treatment. He alleges that she called him vile names and humiliated him before friends.

BOY FOUND WITH BULLET HOLE IN NECK, IDENTIFIED

Sheriff From Toledo Says Man
Was Wanted For Silk
Robbery.

LAPORTE, Ind., April 23.—Identification of a body found in a secluded spot near Wanatah last Tuesday afternoon with a bullet hole in the neck as that of Albert Loach, wanted in Toledo, O., in connection with a \$35,000 silk robbery and for shooting Sheriff Mathias during a sensational jail delivery, was established Friday morning by Sheriff Mathias.

The body when found was dressed in the finest silk clothing which bore the misleading laundry mark of "George R." Sheriff Mathias was notified of the finding of the body and came here on the chance that this might be the man who had escaped after a daring jail delivery on Dec. 25, 1919.

The relatives of the dead man are said to be wealthy and to live in Indianapolis. The body is being held at Wanatah and will be buried in the potters field if it is not claimed by relatives.

moon, vulgar, innocent and immodest, yet you will sit through the fifth and sixth of a dirty play and come out and talk about how beautiful it is and then abuse the evangelist who tries to get you to live right.

"Women who play cards for prizes are just as much gamblers as the men who play poker for money. Nine times out of 10 when you find a gambler you will find that he learned to play his first game of cards in a lady's parlor."

In decrying the modern dance, he said that it had reached the point where it is senseless to attempt to defend it. "The dance has stabbed dead the finer sense of a man's feeling that God has implanted in your breast," he declared citing the example of a 16-year-old girl whose eyes droop and whose cheeks burn at the sight of a man's face.

Thomas declared his firm's last purchases cost slightly over 18 cents a pound. Friday's quotations show a jump of 11 cents a pound since Thursday.

Though refiners were demanding top prices, most dealers in Chicago Friday were selling around the 25 cent mark, although a large decrease in quote quoted sugar as low as 19 cents.

GOVERNOR PROCLAIMS
ARBOR AND BIRD DAY

By United Press.
LANSING, April 23.—Gov. Albert E. Sleeper Friday issued a proclamation setting aside May 7 as Arbor and Bird day and calling upon the people of the state to observe the day by planting trees and holding proper ceremonies.

"Michigan's splendid forests have largely disappeared though we still have many thousands of acres of beautiful forest land," the governor said in his proclamation. "It would seem to be the part of wisdom to replant with trees vast areas which have grown little or nothing since the timber was taken off, but which are now a barren waste."

"In the meantime our cities and villages can add greatly to their attractiveness by planting shade trees along their streets and in their parks and squares. Young trees suitable for this purpose may be obtained at small cost from the Public Domain commission at Lansing and the M. A. C. at East Lansing."

The governor requests that "exercises appropriate to the day" be held in all schools.

GREAT BRITAIN FAVORS
GERMAN ARMY BILL

By United Press.
SAN REMO, April 23.—The British government does not consider that Germany has violated the treaty of Versailles or known faith in its execution. Prime Minister Lloyd George said in an interview here today.

He indicated Great Britain does not consider unreasonable the German request to increase her army from the 100,000 allowed by the treaty, to double that number.

Lloyd George's statement came less than a week after Premier Millerand of France had declared that Germany had repeatedly violated the treaty and indicated French opposition to the German request for a large army.

"Germany is a sick country," Lloyd George said. "She may be compared to a paralyzed man whose members no longer will obey the commands of his brain. Consequently we cannot expect of her what we would of a healthy country."
