

## NATIONAL BODY TO SPEED PRODUCTION AT ECONOMIC MEET

United States Chamber of  
Commerce to Deal With  
Timely Problems.

WASHINGTON, April 27.—Means of stimulating production of the necessities of life, as a step toward the cure of American economic and social ills, will be the sole topic of discussion at the eighth annual conference of the United States chamber of commerce which will open in Atlantic City Monday and continue until Thursday.

Holding that the responsibility for increased production rests equally upon capital, labor and agricultural interests, the program committee, it is announced here today, has arranged to have representatives of each present their views on the question.

**Appeal to Duty.** While the conference will deal primarily with material methods of increasing production, such as introduction of modern machinery, elimination of waste and the increased efficiency of distribution, the chamber is prepared, it was learned today, to follow with a nation-wide effort to stir individual Americans to their duty to aid the movement in every line of endeavor. Industrial unrest reported by members of the chamber is without exception ascribed as the basic cause for the high prices the average worker has to pay for everything he purchases. Against this, however, is reported an apparent disposition on the part of the worker to reduce his effort during working hours or to lay off a part of each week or month. The convention will endeavor to work out a program by means of which both the manufacturer and the employee will be shown a method of increasing immediate profits.

**Work the Cure.** Work alone offers a cure for

R. A. DENNISON, of Los Angeles, owner and trainer of fine trotting horses, who says Tanlac put him right back on his feet again, after he had been in bed health for over a year. Declares he is feeling like his old self now.

"For the past year or more I have not been right physically; I just didn't feel good at all, but last April 22nd I had an awful attack with my stomach which nearly drew me up and I have been worse ever since."

"About the best way I can describe the way I felt is to say I was just leg-weary and all in. I really did not have strength to keep going and I gave up all idea of trying to work. For a long while I had no appetite but would eat anyhow though my food never seemed to do me any good."

"I would go to bed at night and would sleep but apparently did not rest for I would get up just as tired as when I went to bed. I got so I could scarcely go a block but what I would have to stop and rest."

"Well, I read about Tanlac one day and that reminded me that a friend had spoken about the same medicine, so I got some and began to take it. I had been taking it about a week when one evening, after supper, I started to walk and before I realized it I had walked up to First Street and back, about 14 blocks, and never felt it at all and then I realized that the tonic was helping me."

"I have taken four bottles now and am just feeling real good again. I am able to be back at the Exposition Stock Yards every day and have just as much energy as I ever had. I get up refreshed in the mornings now and I have a real appetite which makes me enjoy three good square meals every day. Anyone who needs a good tonic will certainly be satisfied with Tanlac and I am glad to recommend it to my friends."

The above statement was made recently by R. A. Dennison, a well known owner and trainer of fine trotting horses, residing at No. 214 East 8th St., Los Angeles, Cal. Mr. Dennison has lived in California for 22 years; he is 43 years of age and has followed his present line of business for 20 years. He is well-known on the Pacific coast.

Tanlac is sold in South Bend at The Central Drug Store and in Mishawaka at the Red Cross Pharmacy.

### 3-Grain Tablet Makes Flesh.

Any one wishing to add to their weight, improve their color, and restore a normal condition of the stomach and nerves should adopt the wonderfully successful treatment known to physicians and druggists as "3-grain hypo-nucleic tablets," put up in sealed packages with full directions for home use. Red lips, pink cheeks and 10 to 20 pounds increase in weight are not uncommon results from several months' usage. Ask your well-stocked druggist for them. —Adv.

many of the ills left by war," said Homer L. Ferguson, president of the chamber. "Increased production means a larger share of the necessities and comforts for our own people; it means more for Europe, where people are dying for lack of food and clothes. In it lies the only means of making up the wastage of war."

"The duty of America is to produce. The responsibility lies on all alike, the merchant, the farmer, the worker. The contribution of each of these will be laid before our meeting."

The relation between railroads and national production, anti-trust law "restrictions," the evils of standardization, improved methods of taxation and foreign commerce will be among the topics discussed. Increase production abroad must be fostered, officials of the chamber say, so that "goods, not notes" can be exchanged for the produce of the United States. In this connection an effort may be made to revive the proposal for an international financial conference with a view to finding some equitable remedy for the foreign exchange situation.

**Will Make Address.** The farmer for the first time R. W. Belcher of Washington, D. C., will address the conference on the subject of "Domestic Distribution," and George Alexander of the department of commerce, is expected to

indicate how far the government can go to cooperate in the movement. Other speakers will be George A. Post and William Fel-lows Morgan of New York.

The farmer, for the first time in the history of the chamber will be represented as a distinct and important part of the nation's industrial machinery. J. R. Howard, president of the American farm bureau federation, Clemens, Ia., and Secy Meredith of the department of agriculture will attend the conference.

**ELKS' PICTURES WEDNESDAY.** The Orpheum has arranged to give a special showing the Elks' picnic pictures at each performance on Wednesday, in addition to the regular bill. This picture created quite a good deal of favorable comment when first displayed and will be repeated at this time by request.
