## FELLOWSHIP CLUB HAS GOOD PROGRAM FOR COMING SEASON

Entertainment Committee Announces List of Prominent Speakers.

The entertainment committee of the Fellowship club of which Charles A. Ostrom is chairman, has completed its plans for the coming season and is to be congratulated for the excellent program which will feature the season's activities. Dr. Frederick F. Shannon and Alton Packard will be headliners at the first meeting to be held at the Hotel Mishawaka on Tuesday evening, Oct. 26. Dr. Shannon is pastor of the Central church, Chicago, to which pulpit he succeeded Dr. Frank W. Gunnealus at the beginning of the present year. The mere fact of his present office is sufficient to stamp him as a man of more than ordinary ability; he is an orator of power and effectiveness. He is a graduate of Harvard and held two Brooklyn pastorates prior to coming to Chicago.

Alton Packard, who will contribute to the program on this occasion, is a humorist and cartoonist who has been a favorite on chautauqua programs for years. While his delineations of American life in cartoons, impersonations, song and story are full of wit and humor, there is a sober thought through it all.

Several well known speakers of national fame have been engaged for the season's meetings and include ex-Sen. J. Ham Lewis, Illinois; Hon. J. Adam Bede, Judge Ben B. Lindsey, Strickland Gillilan and Dr. William A. Colledge.

No one in the whole United States knows Sen. Lewis, a congressman from Washington, corporation coun-

sel of the city of Chicago, senator from Illinois and democratic whip and now candidate for governor of Illinois, his rise in the world of politics has been phenomenal. While in the senate he was universally recognized as without a peer in repartee, readiness and accuracy of knowledge. He will speak before the Fellowship club on one of the great current problems, but has promised that his discussion will be entirely non-partisan. At the same meeting, the club will be privileged to hear Miss Gay Zenola MacLaren, an impersonator of great charm, ability and experience.

**Adam Bede.**  
Hon. J. Adam Bede was for eight years congressman from Minnesota. During this period he became known as the humorist of the house, so witty were his remarks and so excellent his humor. The news that Bede was speaking on the floor of congress was always enough to fill the empty seats. He has spoken before some of the largest audiences in America and always scores tremendously. He has made many speaking tours in presidential campaigns and has always been given the city dates by the republican committee.

**Judge Lindsey.**  
Judge Lindsey was the real originator of the juvenile court idea in this country and so great was the fame of his work that European nations sent commissions to Denver to study his methods. As he endeavored to increase the scope of his activities in the search for the causes of the children's wretchedness, he found himself facing a tremendous struggle with the interests of commercialized vice, a struggle from which he emerged, after much vilification and a long battle, victorious. His speeches, while dealing with vital topics, are also always entertaining and full of fun. Judge Lindsey is a capital raconteur and his audiences laugh with him heartily.

**Other Headliners.**  
Everyone knows of, and many have heard Strickland Gillilan, frequently characterized as America's foremost press and platform humorist. He manufactures his own material and is constantly originating

new jokes, stories and poems. Dr. William A. Colledge was educated in Glasgow and London, and was for nine years head of the language and literature department of Armour Institute. He was with Stanley for three years in Africa. Henry Drummond was his close friend and Robert Louis Stevenson, his neighbor from childhood. While in London he came into intimate relations with Gladstone, Spurgeon and Lord Beaconsfield.

Other speakers who are slightly less well known than those mentioned, and who will also address the club during the coming season are Ralph Bingham, impersonator, humorist, violinist, pianist and vocalist, who is as talented as he is versatile, and Katharine Higway, reader. So popular have Miss Higway's programs been that she has in many instances, had from five to eight return engagements.

Ridel, who left Mishawaka Tuesday, was found pitching an exhibition game between Pittsburgh and Elkhart at the baseball park in the latter city a few hours later. When searched he only had a dollar of the money left.

He told the officers that his name was Ridel and that he was wanted by Minneapolis authorities on a charge of wife and child desertion. His case was continued until Saturday and in the meantime the Minneapolis authorities will be communicated with.

Union St.</p>	<p><b>CHEAPER LIVING A GRADUAL PROCESS</b></p> <p>There is a pronounced trend at present in the direction of a lower cost of living, but it is only a trend. The symptom is unmistakable, however, and palpable movements are surely in the forming.</p> <p>At present the consumers are not obtaining many benefits in the way of lower prices, and for them the cost of living is reducing only slightly. But prices recession among the manufacturers, jobbers and wholesalers is quite distinct and in good time will be reflected in the retail trade.</p> <p>Reports that clothing and shoes are to be cheaper next spring, that agricultural products are bringing less and less, that textiles are receding from mill price levels and other evidences of a reducing cost of living, need not mislead the consumers, however.</p> <p>Living costs are not apt to fall suddenly or radically, even though prices may break sharply in many necessities.</p> <p>The living cost is due only in a slight degree to the exorbitant prices of any given product or products, and the reductions here and there are attended by some price increases that materially effect the family exchequer.</p> <p>Some causes of the high cost of living are not going to yield to the present tendency.</p> <p>For instance, the heavy increase in rates of transportation will affect commodity prices and materially offset such reductions as have been announced or others to follow.</p> <p>Another element in the high cost of living is wages. Wage levels</p>	<p>are not receding and are not apt to recede rapidly, regardless of what wheat, clothing or packing house products may do.</p> <p>People are often inclined to overlook the effect of taxation upon the cost of living. It has much to do with it. Taxes are not going to fall in any marked degree. Some taxes may decline, but others will increase, and in the end we are apt to find a rising cost of government.</p> <p>The cost of living is profoundly affected by universal indulgence in luxuries. There may have been a slight tendency to curtail waste of this character and to heed the need of thrift, but not sufficiently yet to affect the cost of living.</p> <p>One of the most potent causes of the high cost of living is the housing shortage with its accompaniment of exorbitant rentals. Mishawaka suffers in this respect as well as other cities. Rentals are still increasing, and since they account for about one-fourth of the income of average non-home owners, and since higher taxes are reaching property owners, that part of the cost of living absorbed by rentals and taxes will not yield soon.</p> <p>It is well enough to mention these things, in view of the fact that a few breaks in prices seem to be attributed an importance which they do not warrant. In a general sense, there is, and will be for a long time to come, a pressing need for a curtailment of waste and extravagance, greater production, an increasing effort for better marketing facilities to the end that the producer and consumer may be brought closer together, a more general encouragement of the retrenchment idea in government, and a more general practice of the rules of thrift among earners in all parts of the country.</p>	<p><b>ACME MACHINE CO.</b></p> <p>Manufacturers of DIES, JIG, TOOLS AND GENERAL MACHINE WORK</p> <p>Mishawaka, Ind.</p>	<p><b>MISHAWAKA ELECTRIC SHOP</b></p> <p>Wiring, Fixtures and Supplies</p> <p>Mish. 705 103 Lin.
